Issue No. 7 (Case No. 17/49).—Rate of pay for work on a Sunday and on a festival holiday.

The Company states that ever since the mills started working on a continuous process it has been customary to shut the mills on every alternate Sunday only, and the workers were given a compensatory holiday under the Factories Act for the work on a Sunday. In July 1948, owing to the shortage of raw materials the Company observed a shut day on every Sunday instead of every other Sunday, and when towards the end of October 1948 the raw materials position improved, it was decided to go back to the old method of an alternate Sunday shut. The Union at Mill No. 1 agreed and resumed work but the Union at Mill No. 2 refused to work on a Sunday unless they were paid double wages for such work. The Company contends that this claim by the workmen in Mill No. 2 is in contravention of the provisions of the Factories Act and the stoppage of operations on two Sundays in a month has resulted in a loss of production of about 100 tons of paper in a month. The daily production in each of the two mills is roughly 50 tons of paper.

It is noteworthy that the workmen in Mill No. 1 are working on two Sundays in a month with normal wages and are getting substituted holidays under section 53 of the present Factories Act. This is the same as section 55A of the Factories Act, 1948.

In view of the circumstances of the case it is awarded that the workmen of Mill No. 2 should resume working on alternate Sundays and they shall get normal wages and a compensatory holiday for each Sunday worked under section 53 of the Factories Act.

It also appears that the employees in Mill No. 2 refuse to work on a festival holiday unless they are paid one day's holiday wages *plus* double time for each of the festival holidays on which they work. In other words, they demand 3 days' pay for each day of festival holiday on which they work. The question of an employee being made to work on a festival holiday stands on a different footing than work on a Sunday or on statutory annual holidays. He should be paid double wages for the day or in the alternative be given a substituted holiday according to his choice. In view of the peculiarity of the continued process carried on in this industry I am told that a number of workmen will be required to carry on the process on a festival holiday. The representatives of the mills tell me that they will be able to spare the Receiving Department numbering about 450 in Mill No. 1 and 400 in Mill No. 2 for half of the day, and that they can also spare the entire Finishing Department involving about 174 men in Mill No. 1 and 102 men in Mill No. 2 for the whole day but that in the Manufacturing Departments in both the mills they can only spare the men for a part of the day by rotation. It is awarded that when any workman is made to work on a festival holiday, he will get double the rates of wages. The workmen are requested to see that the production in the mills are not in any way hampered. These directions will apply to both the mills.

Issue No. 9 (Case No. 17/49).—Should the recess in a shift period be half-an-hour or one hour?

The mills work in 3 shifts of 8 hours each. Each shift works for a continuous period of 8 hours. In view of section 55 of the Factories Act, no worker can be made to work for more than 5 hours before he has had an interval for rest of at least half-an-hour. As a result each workman is allowed a half-an-hour period of rest within the shift period of 8 hours as demanded by the Factories Act. It appears that in the Engineering Department of both the mills the workmen are taking a break of one hour instead of half-an-hour, and that the men involved number about 300 in Mill No. 1 and 250 in Mill No. 2. The Company claims reduction of this period of break from one hour to half-an-hour.

The learned Counsel for the Unions states that this practice of one hour break in the Engineering Department has been in existence for more than 30 years and that in Mill No. 1 the other workers do not get any break at all.

The Company in reply agreed to have a half-an-hour break in all the departments of both the mills. I do consider that the offer of the Company is just and proper in view of the provisions of the Factories Act. It is awarded that the workmen in all the departments in both the mills shall have an interval for rest of half-an-hour in accordance with the provisions of the Factories Act.

Issue No. 9 (Case No. 17/49).—How should the monthly rates be converted into daily rates?

It appears that at the present moment there are two different systems of conversion of monthly rates into daily rates in the two mills of the Company. In Mill No. 2 the monthly pay of the worker is reduced to the daily wage by dividing it by 26 irrespective of the number of working days in the month, and the payments for overtime work are made on the basis of the daily rate.

when they work for all the working calendar month. In other words, in the unit for calculation of the monthly wage, the month and not the day although the wage, being $1/26$ th of the monthly wage accepted for the calculation of overtime in wages in case of absence. If payment to the operatives on the day adopted it would appear that he would get a wage for 12 months if he gets 26×12 days in the year. The Company has calculated the number of working days in 1950, 1951 and 1952, and it appears in 1950 the number of working days other years, it is more than 312. In the payment on the number of days accepted, with the daily wage equal to the monthly wage, the worker will get days' remuneration more than if he takes the basis of the month.

In these circumstances, I am of opinion that the system involved in Mill No. 2 of payment to operatives according to the number of days a daily rate calculated at $1/26$ th of the monthly wage, should also be resorted to in Mill No. 1. It is awarded accordingly.

There can be no doubt that the system should be uniform in both the mills for the sake of industrial peace, and I consider it in vogue in Mill No. 2 at the present time to the advantage of the workmen in Mill No. 1.

Issue No. 10 (Case No. 17/49).—Has the Tribunal jurisdiction to decide the issues Nos. 7, 8 and 9?

The Company raised the question of jurisdiction for work on Sundays and on festival days fixing the recess in a shift period and as to the method of converting the monthly rates into daily rates. The Company contended that these questions were intimately connected with the question of wages raised by the Unions, and therefore, raised these issues before the Tribunal. The Unions contended that the Company was not entitled to raise these questions as there were no industrial dispute questions and that the Tribunal had no jurisdiction to decide these issues being issues Nos. 7, 8 and 9 of Case No. 17/49.

At the time of hearing the Unions raised their objections as to the jurisdiction of the Tribunal to decide issues Nos. 7, 8 and 9 and that the Tribunal had jurisdiction to decide these issues. As the questions Nos. 7, 8 and 9 are connected with the wages, I am of opinion that the Tribunal has ample jurisdiction to decide issues Nos. 7, 8 and 9 and I award accordingly.

Issue No. 11 (Case No. 20).—Should the employment of labour through contractors be allowed?

In paragraph 19 of the written statement the Union states that in spite of the abolition of the contract system and the provisions of Industrial Tribunals for the abolition of the contract system, the contract system is still prevailing in the mill. The Union, therefore, prays for the abolition of the employment of labour through contractors.

The Company states in its written statement that the contract system was abolished in April 1949 in all manufacturing industries in Calcutta. It is awarded that the employment of labour through contractors should be abolished.

therefore, clear that the Company is alive to the manifold defects of the system and that it has taken a welcome attitude towards it. It is desired that the Company should, as it has already done, not employ any contract labour in the factory or any essential process in the manufacture of goods and that contract labour hereafter should be employed for work of a temporary nature connected with construction of plants and buildings.

No. 2 (Case No. 28).—Revision of leave rules.

Union demanded 8 festival holidays, suitable leave and more equitable provisions for leave. Company's answer to these demands is that existing arrangements for annual and festival leave allowed by the Company are adequate and probably more generous than the arrangements provided therefor in the new Factories Act.

It appears that at present the supervisory and clerical staff, the Head Mistries and Sirkars receive a month's privilege leave with full pay, the unskilled and the skilled workers get 21 days' leave with full pay and all other workers get 15 days' leave with full pay and another 15 days without pay. In addition to these the Company also allows festival holidays in Mill No. 2, and 12 festival days in Mill No. 1, and 7 days' sick leave on full pay or 7 days' casual leave on full pay to all workers. I consider that the provisions for leave as obtaining in the Company are quite satisfactory. The practice of granting festival leave for 12 days in Mill No. 1 and for 6 days in Mill No. 2 is unsatisfactory and there should be a uniform practice in regard to the festival holidays in both the mills. On hearing both parties and on consideration of this matter it is awarded that the Company should grant 8 days' festival holidays to workers in both the mills. Eight days' festival leave were also granted to the jute mill workers in the area under the Award of the Jute Textiles Tribunal. The specific days on which festival leave should be allowed should be fixed by the Company in consultation with the Works Committee or the representatives of the Union.

Issue No. 3 (Case No. 20).—Gratuity.

The Award of the previous Tribunal Dr. H. G. T. made provisions for a system of gratuity to implement the scheme of the Provident Fund which was started in 1946. The Union contended in its written statement that the advantage of the Provident Fund under the previous Award was not available to all and that it should be suitably amended so as to be available to all workmen in general, in addition to the Provident Fund on the principles laid down in the said Award. The Company contended that the present Provident Fund and its arrangements were generous and equitable and also complained that there was no limit to the maximum amount of gratuity sanctioned, as provided for in several subsequent Awards over the years and suggested that such a maximum should be set.

After a discussion of this question having been held before me by both the parties, the Union has withdrawn its claim in respect of this issue and its claim is, therefore, rejected.

No. 4 (Case No. 20/49).—Was the dismissal of (1) Bocha Dosad, (2) Khusia Singh and (3) Eshak Mia justified? Are they entitled to reinstatement and/or compensation?

Paragraphs 22, 23 and 24 of the written statement of the Union filed in Case No. 17, and paragraphs 20, 21 and 22 of the written statement of the Company in Case No. 20, it is stated that Bocha Dosad, Khusia Singh and Eshak Mia were dismissed from service on 2nd March 1949.

was acquitted by the Magistrate and that in spite of this acquittal, the Company did not take him into its service and this amounted to an unfair labour practice. It is further stated that the Company discharged Khusia Singh and Eshak Mia in contravention of the provisions of the standing orders and that the discharge of these employees also amounted to an unfair labour practice on the part of the Company and should be mended by the Tribunal. The Company states in its written statement that the workers in question were properly and legally discharged and that the question of their reinstatement could not arise.

On 26th April 1949 the parties filed a joint petition of compromise on this issue by which it was agreed that Bocha Dosad should be reinstated forthwith and the period of his non-employment was to be treated as leave without pay, that Khusia Singh, Assistant Jamadar, would also be reinstated, but as an ordinary durwan, to be engaged in any of the concerns of the employers and the period of his non-employment should be treated as leave without pay and that Eshak Mia would not be reinstated. Bocha Dosad and Khusia Singh were to join their duties with effect from 1st May 1949. This joint petition appears in Appendix D of this Award. On a consideration of this matter on 26th April 1949 this compromise was accepted by me and it was ordered that it would form a part of the Award (*vide* Order No. 4), and I award accordingly.

CONCLUDING REMARKS.

I have sought to appreciate all the grievances of the workmen in all possible details as they were presented to me at the time of the hearing of the case. I have endeavoured to grant reasonable enhancement of emoluments to the workmen and the clerical staff and I hope the employees of the Titaghur Paper Mills will appreciate that no further revision of the wage position could be made in the present circumstances. As it is, the wage bill of the industry has been considerably increased by virtue of the enhancements allowed by this Award. I would urge upon all the workmen to take care to see that the Company may be compensated for the extra costs to be incurred by virtue of this Award by increase in production.

The Company has shown a very reasonable attitude at the time of the hearing, especially with regard to the issue of reinstatement of some discharged workmen. The Company, it may be mentioned, has also promised to look into the amelioration of some other grievances raised by the Union at the time of the proceedings although they were not covered by the issues before me.

These relate to the emoluments of the crews of the steam launches and bleach barges of the Company. The Company agreed to grant an increase of Rs. 4 per month each in the dearness allowance at present being paid to the employees working upon their steam launches, and an increase in the basic wages at present being paid to the employees on the bleach barges of Rs. 3-4 per month each. I would recommend that these increments can be allowed with effect from the date of the operation of this Award.

There was also a dispute, though not raised in the issues, about the budli appointments. I suggested to the Company that they should follow the directions about registration and appointments of budlies laid down in the Award of the Jute Textiles Tribunal and they agreed to do so. It is, therefore, recommended that the Company should follow the rules as to registration and appointments of budlies as laid down in pages 166-167 of the Jute Textiles Tribunal Award in paragraph 10 of "Other rules of service". The Union suggested that they should be given the status of the Budli Bandhans. The Company suggested that they should be given the status of the Budli Bandhans.

AWARD.

Issues Nos. 1 and 2.—Pay and dearness

Over and above pay and dearness allowance the Company allow to the employees certain number of cigarettes free of charge and provide for the clerical staff and pay the subsidy in lieu of tiffin.

We are averse to the system of cigarettes for services rendered. We put it out of consideration in fixing the pay. This concession, in our opinion, is a concession and is treated as such.

Tiffin arrangements and allowances were introduced in lieu of extension of these must, therefore, remain linked and should not come in to affect the pay.

Company did not follow the Bengal Chamber of Commerce scale of dearness allowance and had a scale which was a little less than the incremental scale and the maximum grades are much higher than what we have for the Bengal Chamber of Commerce. This, the Company appreciated that they all in line with the other awards under the and came with a plan raising the initial Rs. 70. We have considered the suggestions of the submissions of the lawyers for both and we award as follows:—

Contributory Provident Fund. In view of higher salary ranges, contribution at the rate prevailing does not cost the Company less than 10 per cent. contribution in other companies. We have introduced dearness allowance scale of the Bengal Chamber of Commerce for clerks so that higher ranges of pay may compensate the Provident Fund contribution. We also raise the age of retirement from 51 to 55. We therefore leave the scheme unaffected except about the age of retirement.

So far as the subordinate staff are concerned they are gainers as we have prescribed 6½ per cent. for them in other cases. For them also the age of retirement is raised to 55.

Issue No. 4.—Bonus.

The Company have the system of paying bonus which is not intended to be discontinued. We, therefore, leave the matter outside adjudication as we have done in other cases. We may, however, say that we have no objection to the little discrimination made on the ground of efficient work during each year.

Issue No. 5.—Canteen and tiffin.

The usual office hours are from 9 a.m. to 5 p.m. from Monday to Friday with one hour's break and 9 a.m. to 1 p.m. on Saturday. The employees have to come one hour earlier and to work for ½ hour more. In consideration of this the clerks get free tiffin and the subordinate staff 6 annas cash. The arrangements are that the Company pay for the establishment charge and Re. 1 per head per day for purchase of foodstuff. The clerks take rice, etc., the usual meal for Bengali gentlemen. Of late the expenses have been 15 annas per meal, not because the Company have reduced it, but because there has been an unspent amount.

The management of the tiffin arrangements is conducted by a committee of six members of the clerical staff. This Committee is usually composed of senior clerks from different departments in Head Office and the cashier of Calcutta Depot.

The Committee members select a working Manager from the staff, and the Manager selects members of staff who are willing to undertake the working arrangements such as the purchase of vegetables and fish daily, and other articles weekly.

We direct that the Committee of six members composed of senior clerks shall remain but the Working Manager shall be elected.

The learned Counsel for the employees argued with an amount of emphasis—and it was painful for us to listen to the argument—that gentlemen entrusted with the purchase of food articles made profits for them and there was therefore deterioration in meals. The Company cannot be blamed for this. It must be understood that any personal profit made by anybody amount to defalcation of the Company's money and it will be the bounden duty of the employees to bring such cases to the notice of the management together with the evidence. It will be the duty of the management when the evidence is brought, to prosecute and/or award him departmental punishment.

Tiffin is supplied on Monday to Friday for which the Company give at the rate of Re. 1 per meal. We direct that two or three days before the end of the month the Working Committee will be informed of the unspent balance so that the amount may be utilised for improved diet on closing days of the month.

The cash allowance made to the subordinate staff is considered adequate.

The claim to have the canteen run by the Union is disallowed because there are amongst the employees persons who have not joined it.

Issues Nos. 6 and 7.—Accommodation allowances and children's education facilities.

The claims under these heads are disallowed.

Issue No. 8.—Medical aid.

The Company have engaged a doctor who comes to the office twice a week and we have been assured that his surgery is on the Grand Hotel Arcade, and persons falling ill will either be sent to the doctor or if that be not possible, he will be called in.

Issue No. 9.—Working hours and holidays and overtime.

Working hours.—The working hours should be from 9 a.m. to 5 p.m. on Monday to Friday with one hour's break and from 9-30 a.m. to 1 p.m. on Saturday.

Holidays.—All holidays under the Negotiable Instruments Act shall be observed as closed holidays.

Overtime.—Overtime shall be paid according to the present rules. There is no claim for any change as we have said.

Issue No. 10.—Leave.

The present rules shall be followed.

Issue No. 11.—Travelling allowance on duty as also on leave.

Travelling allowance, while on leave, is refused. Travelling allowance shall be paid while on duty. The claim for conveyance arrangement for coming to the office and for returning home is refused.

Issue No. 24.—Accommodation for Union Office.

The claim under this head is disallowed.

Issue No. 25.—(a) Reinstatement of Sri B. P. Ghosh and removal of Mr. Kelly; (b) Re-transfer of a certain number of clerks; (c) Claim for air-conditioned room; (d) Increase of cigarettes and cigars supplied to clerks.

(a) As Sri B. P. Ghosh is working in the Jalpai-guri office, this matter is outside the reference. Evidence has not been placed before us for removal of Mr. Kelly. The demand is refused.

(b) and (c) These have not been pressed and refused.

(d) The grant of cigarettes is in the nature of *ex gratia* concession and is therefore outside adjudication.

Issue No. 15.—Uniforms and umbrellas for menials.

These be given for official work.

Issue No. 12.—Service conditions.**(a) Probation and confirmation.**

It is awarded that the period of probation shall not exceed 6 months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And**Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation within a specified time.

enquired into. If the person proceeded against is found innocent, the matter ends. If, is found guilty the employee concerned shall be supplied with a copy of the findings and sent proposed to be imposed. The employee shall get an opportunity again to plead about the punishment only at this stage. If the employee himself is competent to inflict punishment on the person proceeded against, he will hear the person and order what he thinks fit. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall be allowed within seven days of the order of the order punishing the employee. If the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and then will hear the person again and then order. If that authority be other than the head of the concern at Calcutta, an appeal shall be allowed with the head of the concern at Calcutta where the proposed punishment or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then order. The clerk proceeded against shall have right to be defended by any other employee. These matters and bringing outside agencies is to the person proceeded against. Any order to defend a person proceeded against with the sanction of the enquiring officer.

We hope that the rules framed by us will allay apprehensions about abrupt termination and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on 55 years. We do not favour extension thereby blocking the way for younger employees. In exceptional cases where the employer and the employee agree, services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different duties. Federation wants that there should not be transfer. We feel, however, that transfer is necessary for two purposes: (1) to enable particular clerk know work of the various departments; and (2) for stock-taking of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that promotion should be done through the Union or Federation. The employer will select his own man.

Recruitment.

(i) Other things being equal, preference shall be given to relations of employees, relatives of employees, and relations of employees. Between relations of employees, preference shall go to the more qualified.

(ii) Preference should be given to employees, if qualified.

(iii) In the matter of appointment to grades of clerk, promotion from lower grades to the same. Only in exceptional cases promotion may be made from outside.

Now comes the question of promotion from clerical grade to the Officer's Grade. It should be no bar to promote clerical grade to the Officer's Grade or from the Officer's Grade to clerical grade. As selection is in the management, we cannot fix a percentage or a certain number of persons to be promoted to the Officer's Grade. Promotion shall be on suitability according to the management. We, the management, such promotions do not harm the employees and are conducive to the benefit of the employees.

17.—Recognition of the Union as a condition of the award in order for recognition of the Union is not a condition of the award.

tion of the Union is not a condition of the award. It is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour going to be established soon and it will be the business of that Court to order for recognition of the Union.

CONCLUSION.

ion has been raised as to whether the award will bind the employees of the associated companies not listed in the order of reference. It has already been decided in another case that the award will bind the employees of the companies not listed in the order of reference if they are not within our jurisdiction.

As of the order of reference only the award and subordinate staff of the office of the award at 37, Chowringhee, are involved in this award only and not the employees in the other parts of Calcutta or greater Calcutta will be affected by the award. Those who are outside the reference.

Deduct allowance for earned income (one-fifth of 3,010)	602
Taxable income	2,408

Half the excess over Rs. 3,000 = $10 \div 2 =$ Rs. 5.

The proportionate tax payable on Rs. 2,408 would be $Rs. 5 \times 2,408 / 3,010 =$ Rs. 4.

Tax payable on the basis of (b) above—

On the first Rs. 1,500	Rs. a. p.
On the next Rs. 908 (Rs. 2,408—1,500) at nine pies in the rupee	Nil
	42 9 0

In accordance with the condition quoted above, the income-tax actually recoverable in this case is on the basis of (b), which works out at a lower figure, viz., Rs. 4 for the whole year.

The maximum rebate for insurance premia, provident fund contributions, etc., in the above example would be Rs. 502, i.e., one-sixth of Rs. 3,010. The rebate works out at $Rs. 4 \times 502 / 2,408 = 13$ as., so that the next tax payable is Rs. 3-3-0.

Example II—

Pay and allowances for the year	Rs.
3,200	
Deduct allowance for earned income (one-fifth)	640
Taxable income	2,560

on the basis of (a)—

Half the excess over Rs. 3,000 = $200 \div 2 =$ 100.

Proportionate tax payable on Rs. 2,560 would be $Rs. 100 \times 2,560 / 3,200 =$ Rs. 80.

on the basis of (b)—

On the first Rs. 1,500	Rs. a. p.
On the next Rs. 1,060	Nil
	49 11 0

In this case, the tax actually recoverable is Rs. 49-11-0 which is lower. On income exceeding Rs. 3,000 but not exceeding Rs. 3,116 the tax on the basis of (a) works out at a lower figure and should be adopted, while in the case of incomes exceeding Rs. 3,116 tax should be calculated on the basis of (b).

Example III—

Monthly pay and allowances	Rs.
1,250	
Yearly income from salaries	15,000
Insurance premia and provident fund contribution	2,800
Total income	15,000
Less allowance for earned income (one-fifth)	3,000
Taxable income	12,000

	Rate.	Income-tax.
		Rs. a. p.
On the first Rs. 1,500	Nil	
On the next Rs. 3,500	Nine pies per rupee	164 1 0
On the next Rs. 5,000	One anna and nine pies per rupee	546 14 0
On the next Rs. 2,000	Three and a half annas per rupee	437 8 0
Rs. 12,000	Total tax	1,148 7 0

The rebate in respect of insurance premia, provident fund contributions, etc., is restricted to one-sixth of the income (before deduction of allowance for earned income) and to Rs. 6,000 in the aggregate. In this example, it can be given up to a maximum of Rs. 2,500 (one-sixth of Rs. 15,000). The rebate works out at—

Rs. $1,148-7 \times 2,500 / 12,000$ (or $2,500 \times 18-37$ pies), i.e., Rs. 239-4-0.—

Rs. a. p.

Now, therefore, in exercise of the powers conferred by sub-section (2) of section 15 read with sub-section (3) of section 19 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to make the following order and to direct with reference to section 17 of the said Act that the award be published in the *Calcutta Gazette*.

The award made by the said Sri P. K. Sarkar, District Judge, shall bind the Company and their workmen aforesaid as specified therein.

ANNEXURE.

In the matter of an industrial dispute between the Britannia Building and Iron Co., Ltd., 287, Grand Trunk Road, Salkia, Howrah, and their workmen represented by the Iron Factory Workers' Union, 3/1, Kali Banerji Lane, Howrah.

PRESENT:

SRI P. K. SARKAR, *Judge, Industrial Tribunal.*

Present for the Company.—Dr. J. K. Bose, Labour Adviser of the Indian Engineering Association and Sri M. M. Kalani, Assistant to the Directors of the Company.

Present for the Union.—Sri Haripada Majumdar, Secretary.

AWARD.

By Government order No. 1886Lab., dated 20th April 1949, the above industrial dispute was referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act of 1947. I gave notice to the parties on 22nd April 1949 and the Iron Factory Workers' Union, to be hereafter referred to as the Union, filed written statement on 9th May 1949. The Company filed written statement on 16th May 1949 and the case was heard on two dates, namely, 30th May 1949 and 13th June 1949.

According to the Government order the dispute relates to the grant of Puja Bonus for the year 1948. The Company has got a workshop at 287, Grand Trunk Road, Salkia, where it employs about 300 workers. The Company has another workshop at Entally, and for its building business it employs other staff including clerks, peons, durwans, etc., their number being about 200. The Company had been making payments to its clerical staff during the Puja by way of bonus since the year 1942. In 1947 the Company also paid 15 days' wages to the workers during the Puja. According to the Union, this was paid as bonus, but according to the Company, this was given to the workers as *ex-gratia* payment under coercion and intimidation. In 1948 also the workers demanded bonus during the Puja but this was refused by the Company, though the Company paid bonus to the clerical staff. Thereupon the Union submitted a strike notice to the Company and this led to conciliation proceedings by the Conciliation Officer, Howrah, in September 1948. The conciliation proceedings having failed the Conciliation Officer recommended that the dispute should be referred to a Tribunal.

The Union's demand is that the Company pay one month's wages including all allowances to each and every worker by way of bonus for 1948. The Company's case is that it sustained considerable losses in 1948 on account of which it is not in a position to pay bonus. It is contended that since bonus depends on profits the Company is not bound to pay any bonus to its workers. The Company has further contended that the workers did not deserve any bonus as they have adopted "go slow" tactics in the sequence of which production has gone down. Objection has also been raised on behalf of the Company that the claim for Bonus was not exactly a claim for bonus, but a claim for special payment on the occasion of the festival which could not constitute an industrial dispute and was outside the jurisdiction of the Tribunal to adjudicate upon. But the Company does not really claim for festival bonus but for annual bonus which, according to the Union, is payable during the Puja every year. The further fact is that the Company is bound to pay such bonus since it had a practice of paying bonus every year. Reference was made in this connection to the payments made to the workers during the Puja of 1947 and to the payments made to the clerical staff during the Puja of 1948.

The Company was one of the parties to the Tribunal, known as the Engineering Industry Tribunal, which was constituted to adjudicate upon certain disputes between 119 engineering firms and their workmen. This Tribunal awarded an award on 4th June 1948 which was published in the *Calcutta Gazette, Extraordinary*, on 14th July 1948. This award remained in operation for one year from 1st April 1948. At the time the present dispute regarding bonus arose in September 1948 this award was in operation and was binding both on the Company and on its workers. The question of bonus was one of the points in dispute which was adjudicated upon by the Tribunal. The Tribunal framed issue No. 1 on this point and regarding the claim for bonus for the future observed as follows at paragraph 27 of the award:—

"Next there is the question of bonus for the financial year last ended. In connection with this question, the rule adopted generally is that a particular firm has been paying bonus to its workers for several years, it should pay bonus for the year last ended provided it earned profits in that year. We find from the statement submitted before us by the engineering firms that some firms paid bonus in past years though the majority of firms did not do so. We are not in a position to make any award on the result of the last financial year because no Company has placed the balance sheet of the year ended on 31st March 1948 before us. Accordingly we shall leave this issue without recommendation that the companies which have been paying a bonus in the last few years should pay a bonus for the year just ended if the circumstances are similar, i.e., if they have earned comparable profits."

The claim for bonus in this case relates to the financial year which ended for this Company on 31st March 1948 and the above recommendation of the Tribunal also relates to that year. The recommendation is that the companies which have been paying a bonus in the last few years should pay bonus for the year just ended, if circumstances are similar. The Company contends that it had a practice of paying bonus to its workers during the Puja of 1947 and to the clerical staff during the Puja of 1948.

mus during the year every year and did not pay such bonus to the workers during the year 1947. But the recommendation of the Tribunal is qualified by the proviso that "the instances must be similar" which is further qualified by the words "if they have earned able profits". Now the Company has submitted its balance sheet for the year ended on 31st March 1948 and it shows that during this year the Company sustained a total loss of rupees thirty-seven thousand and odd. The Directors have recommended that a sum of one lakh seventy thousand should be transferred from the reserve fund to the profit and loss account on account of this loss. The amount in general reserve is rupees three lakh eighty-seven thousand and the proposed transfer of rupees one lakh and seventy thousand would reduce it considerably. During the financial year ended on 31st March 1947 the Company made a profit though the amount was not very large. The balance sheet for that year has not been audited, but it is not disputed that the Company made some profit during that year. Since the Company did not make any profit during the year ended on 31st March 1948 but on the other hand sustained considerable loss, the recommendation of the Engineering Industries Tribunal mentioned above cannot apply to this Company and the Company cannot be held bound to pay bonus to its employees.

Further from that, from general considerations the workers are not entitled to claim any bonus for a year in which the Company has sustained considerable loss. Bonus must depend on profit and be paid out of profit. There cannot be any obligation to pay bonus when the Company has sustained a loss. It has been contended that the bonus claimed should be considered to be a deferred payment due to the workers for work already done, but even so it must be conditional on the Company making a profit out of the work done by the workers. No question of bonus can arise when the Company has sustained a loss to the extent shown above. It has next been contended that in spite of its loss the Company paid bonus to its clerical staff and that the Company should not be allowed to make any discrimination between the clerical staff and the workers in this regard. The Company, however, states that the clerical staff has been receiving bonus during the year since 1942 and that on account of this long continued practice an *ex-gratia* payment of 15% salary was made to them during 1948 without considering the financial condition of the Company. Their case does not stand on the footing as the case of the workers to whom for the first time 15 days' wages were paid by the Company during the Puja of 1947. In any event the Company was not bound to pay any bonus to the clerical staff also in view of the loss sustained in 1948, and the payment made to such staff must be deemed to be an *ex-gratia* payment. The Company would have been glad if the Company had made an offer of *ex-gratia* payment to the workers. But so far as the claim of the workers for bonus as a matter of right is concerned, I cannot find the Company liable to pay any bonus to its employees in view of the loss sustained during the year for which the bonus has been claimed. I am, however, to state that the Company has agreed to introduce a system of "production bonus" for the workers with effect from the year 1949 and I have been assured by the Company's representatives that this system will be brought into operation in the course of the next few months. This will be some compensation to the workers and if they can improve production they will derive considerable benefit from the bonus. I would not, therefore, recommend the Company to be held bound to pay bonus to its employees.

system of production bonus in the course of the next two months. The Union's claim for bonus for 1948 should be rejected and I award accordingly.

K. Sarkar, Additional District Judge, as the Chairman of the said Board;

And whereas under sub-section (3) of section 13 of Industrial Disputes Act, 1947 (XIV of 1947), the said Board has sent its report to the Provincial Government as shown in the annexure hereto;

Now, therefore, in exercise of the power conferred by section 17 of the aforesaid Act, the Governor is pleased to direct that the report be published in the *Calcutta Gazette*.

ANNEXURE.

Note of the Chairman of the Board.

It has not been possible to obtain the signature of Sri Abani Mohan Mukherji, Chairman of the Bally Municipality, to this report and it is necessary to explain the circumstances under which this happened. This report was ready by 13th May 1949 and on that date copies of the report were placed in the hands of the members of the Board, Sri Abani Mohan Mukherji and Sri Taradas Bhattacharyya. That date had been fixed for adoption and signature of the report, but the members wanted time to consider the report and so one copy of the report was handed over to each of them with the request to come on the next date for adoption of the report. None of the members, however, attended on the next date, viz., 14th May 1949, though both of them had promised to do so. On 16th May 1949 they were notified to attend a sitting of the Board on 20th May 1949 for signing the report. On that date also none of the members attended and no intimation was received by the Chairman from any of them. Only a telephone message was received from the Bally Municipality intimating that the letter, dated 16th May 1949, had been received late and could not be placed before the Chairman of the Municipality. The 28th May 1949 was accordingly fixed as the next date for a sitting of the Board for adoption of the report and the members were again notified to attend on that date. On 28th May 1949 Sri Taradas Bhattacharyya attended the sitting of the Board and the report was signed by him and the Chairman. Sri Abani Mohan Mukherji did neither attend nor send any intimation. The Chairman of the Board then wrote a D.O. letter to

Sri Abani Mohan Mukherji requesting him to attend on 4th June 1949 for signing the report. The Chairman drew his attention to the provisions of section 16 of the Industrial Disputes Act and explained to him that if he had any objection to any portion of the report or to any recommendation contained therein, he could express his dissent which would be recorded in the body of the report or embodied in a separate minute. It was also explained to him in the letter that on his failure to attend on that date there would be no other alternative but to send the report to the Government in its present form with the signatures of the Chairman and the other member. Sri Abani Mohan Mukherji did not, however, attend or send any intimation to the Chairman on 4th June 1949. It is not known what his objection to signing the report might be because he did not send any communication to the Chairman of the Board explaining his grounds of objection. In fact, since 13th May 1949 he has not replied to any of the communications sent to him by the Chairman of the Board. It may be mentioned in this connection that at certain stages of the hearing of the case before the Board Sri Abani Mohan Mukherji was not willing to co-operate fully with the Board and his conduct after 13th May 1949 also shows his desire not to co-operate with it.

Under the circumstances, the report is being sent to the Government without his signature.

P. K. SARKAR, *Chairman.*

The 6th June 1949.

Report of the Board of Conciliation in the matter of an industrial dispute between the Bally Municipality, Bally, Howrah, and their workmen as represented by the Bally Municipal Karmachari Union, 8, Peary Mohan Mukherji Street, Belur, Howrah.

By Government order No. 3728Lab., dated the 19th October 1948, the above industrial dispute between the Bally Municipality and its employees was referred to a Board of Conciliation constituted under section 5 of the Industrial Disputes Act for investigation of the said dispute and promotion of a settlement thereof. The Board was constituted with three members. Sri P. K. Sarkar, Additional District Judge, was appointed as the Chairman of the Board, and the members of the Board were Dr. Subodh Chandra Paul, the then Chairman of the Bally Municipality, as representative of the municipality, and Sri Taradas Bhattacharyya, Vice-President of the Bally Municipal Karmachari Union, as representative of the said Union. Notices were issued to the parties and to the members of the Board on 21st October 1948 and the date of the first sitting of the Board was fixed for 29th October 1948. No sitting of the Board could, however, be held on that date as the two members of the Board did not attend. The Accountant of the Bally Municipality, Sri Debi Charan Ghosh, and the Secretary of the Bally Municipal Karmachari Union, Sri Jawhar Kumar Ghosh, were, however, present on that date and they were directed to file statements of their case on 9th November 1948. The statements were filed on that date but as the Chairman of the Bally Municipality was absent no regular sitting of the Board could take place. Thereafter also the Chairman of the Bally Municipality was unable to attend any sitting of the Board on account of the impending municipal elections. The elections were held on 27th November 1948 and Dr. Subodh Chandra Paul attended a sitting of the Board for the first time on 18th December 1948. The first regular sitting of the Board was held on that date with all the members present. Certain discussions

were held on that date for settlement of the dispute but nothing could be settled as Dr. Chandra Paul stated that he would have to consult the municipal Commissioners of the Board before he could commit himself to any. Thereafter the election of the Chairman and Chairman of the new Board of Commissioners place and Dr. Subodh Chandra Paul was elected as the municipal Chairman. The man of the Board of Conciliation was informed this by Sri Taradas Bhattacharyya in the week of January 1949 and he brought it notice of the Government. The newly Chairman of the Bally Municipality wrote Chairman of the Board on 25th January 1949 the question of appointment of a member Board of Conciliation in place of Dr. Chandra Paul was pending before the municipal Commissioners and requested the Chairman to adjourn the sitting of the Board for a month. Municipal Commissioners nominated the Chairman, Sri Abani Mohan Mukherji, representative of the municipality on the and by Government order No. 640Lab., date February 1949, he was appointed as a member of the Board in place of Dr. Subodh Chandra Paul. The first sitting of the reconstituted Board of Conciliation was held on 28th February 1949 and a second sitting was held on 21st March 1949. Discussions were held on the demands of the in the said sittings. The Chairman of the Municipality stated that he had not yet been able to ascertain the probable income of the municipality during the next financial year and that some work was necessary in order that the figures for the budget might be studied by the municipal Commissioners and the financial position of the municipality definitely ascertained. Time was required to consult the municipal Commissioners about the demands of the Union. Two sittings of the Board fixed in April had to be adjourned on account of the absence of the Chairman of the Bally Municipality who had unfortunately with an accident resulting in injuries. In the meantime, however, the municipal budget for 1949-50 had been adopted and provision had been made therein for increase of pay of some municipal employees and increase of daily allowance for all. In a sitting of the Board on 29th April 1949 the provisions of the budget were explained by the Accountant of the municipality. The details of these provisions were found in the next paragraph. The representatives of the Union agreed to accept these provisions under protest and made some more demands. They did not want to prolong the sittings of the Board of Conciliation for consideration of the demands. They only wanted the Board to recommend the municipality to consider the said demands. The proceedings of the Board were closed on that date and a sitting of the members of the Board was held on 13th May 1949 for adoption of the

The Bally Municipal Karmachari Union was formed in September 1947 and was registered in April 1948. They had submitted certain demands to the municipal authorities on 26th January 1949 claiming revision of the scales of pay and daily allowance of all the employees excepting the casual staff and certain other benefits. It appears from the statement of the municipality that these demands could not be considered for the budget of the municipality for the year 1949-50 as the budget was in a deficit and the municipal funds were not available. From the statement of the municipality for 1949-50 which was produced before the Board it appears that the condition of the municipality during the last few months of the year 1948 was very bad. The actual receipts for the last few months of the year 1948 were about Rs. 24 lakhs and the expenditure was about Rs. 28 lakhs.

mounted to Rs. 11 lakhs. The revised estimate amounts to Rs. 3,44,000 for the year 1948-49 the budget estimate amounts to about 00,000 for the year 1949-50. The Chairman municipality does not, however, expect that come of the municipality or the collections up to the figure budgeted for. Some additional income is expected from the revised assessment of the holdings and so the probable income is estimated at about Rs. 4,00,000. In view of the past collections it is not at all certain the municipality will have such an income in the present year. The expenses of the municipality general establishment, collection department conservancy amount to about Rs. 1,41,000 being to the current budget. The number of municipal employees including clerks and peons is 60 and there are, besides, about 86 coolies in the conservancy staff. The Union had made demands for increase of pay and dearness allowance of all the employees and coolies excepting the conservancy staff or *methors*. They were excluded as they are not members of the Union. In the present budget of the municipality a sum of Rs. 13,896 has been provided for increase of pay and dearness allowance of the employees with whom the Union is concerned. The sum has been distributed as follows:—

The pay of three of the clerks, namely, Gopal Banerji, Khalil Rahman Mollah and Indra Nath Roy who were getting less than Rs. 35 per month has been increased to Rs. 35 in each case.

86 coolies including P.W.D. coolies, road sweepers, refuse carters, cattle drivers and road jamadars have got an increment in dearness allowance from Rs. 12 to Rs. 20 per month.

16 peons including the dispensary peons have got an increase of dearness allowance from Rs. 14 to Rs. 20 per month.

7 tube-well coolies have got an increase of dearness allowance from Rs. 15 to Rs. 20 per month.

2 anti-malarial coolies have had their pay and dearness allowance increased from Rs. 26 to Rs. 34 per month.

1 sweeper of the Charitable Dispensary has had his pay including dearness allowance increased from Rs. 20 to Rs. 26 per month.

2 *Dais* have got an increase of dearness allowance from Rs. 14 to Rs. 20 per month.

The Assistant Tube-well Mistri has got an increase of dearness allowance from Rs. 14 to Rs. 20 per month.

Dearness allowance of the clerical and other employees has been increased from Rs. 28 to Rs. 35 per month.

All these increases have been sanctioned with effect from the 1st April 1949, and it is understood that the members of the staff have been paid at the increased rates for the month of March.

The representatives of the Union have agreed to accept the abovementioned increases of pay and dearness allowance under protest. It is not therefore necessary to mention the other demands of the Union. The representatives of the Union and Taradas Bhattacharyya have, however, pressed four more demands of the Union which should have speedy attention of the municipal Commissioners. They are as follows:—

The seven trenchers who are at present getting Rs. 30 per month including dearness allowance should get an increase of Rs. 10 each so that their total remuneration may be the same as that of the coolies.

The minimum basic pay of the *methors* and tube-well coolies should be raised from Rs. 20 to Rs. 25 per month.

3. Sick leave with pay for fifteen days and casual leave with pay for seven days in a year should be sanctioned for the menial staff.

4. Retrospective effect should be given to the increases of pay and dearness allowance, already sanctioned, from October 1948.

The Chairman of the municipality states that the municipal Board is alive to the legitimate grievances of the employees and will always be prepared to remove them as soon as the finances of the municipality improve and more funds are available for ameliorating the conditions of the employees. The Chairman further states that as the present municipal Board has just taken over charge it should be given some time to improve the administration and the collections. If the collections of the municipality improve as a result of the efforts of the present municipal authorities, as is expected by the employees, and if the anticipations on which the current year's budget has been framed are realised the Board has no doubt that the municipal authorities will favourably consider the other demands of the employees and remedy their grievances. As regards the four particular demands mentioned above the Board considers, Sri Taradas Bhattacharyya dissenting, that it will be difficult for the municipality to give retrospective effect to the increases of pay and dearness allowance already sanctioned from October 1948 and is not therefore in a position to recommend to the municipality to give such retrospective effect to these increases. As regards the other three demands the Board would like to recommend to the municipality to consider them as early as possible.

AWARD.

Point 1.—Security of service.

(i) I award that in case of dismissal or discharge by way of punishment, the person involved be given an opportunity of explaining his case in an inquiry.

(ii) In case of retrenchment on account of surplus the principle of "last come, first go" be applied in different categories. Deviation be made only in cases of workers with exceptional abilities. In case of re-employment discharged persons, if they are available, be given preference.

(iii) There should ordinarily be 650 per cent. fluctuations of increase or decrease in wages. If the decrease is apprehended to be permanent for a long time, retrenchment may be taken to. If it be for a short period, they need not be discharged but may be paid allowances as after to be provided.

(iv) The period of probation shall be six months. This, however, shall not apply to apprentices who have no previous experience and are to learn their trade. They may be confirmed after they have learnt thoroughly.

Points 2 and 3.—Scale and grade of pay and dearth allowance.

The existing pay scales are as follows:—

Classification of workmen.	Maximum pay.	Minimum pay.
	Rs.	Rs.
1. Blowers ..	155	105
2. Helpers ..	90	65
3. Neck-makers ..	85	45
4. Bubbler ..	70	50
5. Machine-men ..	85	55
6. Machine-helpers ..	85	50
7. Boys ..	35	27
8. Fireman ..	75	45
9. Fire coolies ..	53	30
10. Annealing coolies ..	70	55
11. General coolies ..	40	30
12. Darwans ..	66	43
13. Masons (temporary) ..	3 per day.	2-

Over and above this, the employee used to get 37½ per cent. of the salary as dearness allowance but soon before this Reference, this has been reduced to 50 per cent. with no minimum amount.

The demands of the Union are to fix the salary of an unskilled worker at Rs. 40, semi-skilled at Rs. 80 and of the skilled at Rs. 150.

The claim for dearness allowance has been fixed at 80 per cent. of the basic pay with a minimum of Rs. 40.

Fixation of the wage structure of a community presents a number of problems.

It is not at all difficult to find theoretical wages. This, shaped in the background of the general economic condition of a country, becomes the real fair wage for the labour. The real difficulty comes when we try to fix the wages of the men of those categories who are at the lowest level. The sensible principle is to compare the wages in the factories producing similar goods. The criticism is that the principle of comparison disappears when we have some factories by which some wages were two adjudications in respect of the Indian & the other, Lucky Glass. I give the gross wages (dearness allowance) paid by the

(Temporary—no dearness allowance.)

(Two only—same rate.)

On behalf of the Union wage scales of no other factory was placed before me and indeed Pandit Nihar Ranjan Vedaratna, the President of the Union, candidly confessed that he never made inquiries about wages paid by any other glass factory at any time.

The table shows that wages are highest compared to the wages in other factories.

It had been argued that this concern has lots of money and can afford to pay more. The remark is pertinent when inability to pay the minimum is pleaded. It becomes pertinent when the question of benevolence arises. When we come down to the industrial sphere, we can, no doubt, force a plan of wages on one concern which will increase the cost of production compared with other factories. This will have the effect of ruining this industry. The wage scale prescribed by adjudication should be considered as fair and normal for the industry.

So far as the solvency of the Company is concerned, I do not see a very bright picture. The paid up capital is Rs. 1,00,000 subscribed by two gentlemen and they have advanced about Rs. 1,20,000 as loan. No interest on the money has been paid. The reserve of Rs. 47,000 may be large in relation to the subscribed capital but it is not much when we consider that the annual expenditure amounts to Rs. 10,00,000.

After studying the figures I find that some relief is required for unskilled labour. I award that Rs. 18 shall be the minimum dearness allowance. This will have the effect of pulling the men in the lowest scale and bringing their emoluments at par with the Scientific Indian Glass Co., Ltd., and Lucky factories. I do not disturb the wage scale and the dearness allowance of others.

There has been a claim for making provision for time-scale increment of pay. By experience a worker increases his efficiency and produces more. This is the justification for allowing a time-scale increment of pay. If the worker does not or cannot produce more, the time-scale only operates as increasing the cost of production. This goes on increasing as time advances. If the employer is made to pay according to a time-scale, a proportionate increase in production must be assured to him, not orally but in reality. If increase in wages be compulsory, the increase in production must also be compulsory. The only method for doing this is to link up increase in wages with production. I invited the workers as also the employer to put forward such a scheme, but no one had been willing in view of the difficulty of the task and the labour involved. For the immediate present the fixation of a time-scale is not absolutely necessary as the wages are higher compared to other factories and the award shall not be binding for more than one year. The claim for fixing a time-scale is refused.

Point 4—Bonus.

The claim of the Union is to get bonus out of profits. The specific demand is for bonus of two months' basic pay and dearness allowance for every year. It appears from the balance-sheet of the Company corrected up to 31st October 1946 that wages and dearness allowance come up to Rs. 3,00,000. A sixth of it would be Rs. 50,000. The subscribed capital amounts to Rs. 1,00,000 and loan from the Directors amounts to about Rs. 1,20,000. Without paying any interest for the loan and without taking any profit the balance-sheet shows a profit of about Rs. 47,000. In a situation like this it is not possible for the Company to pay a bonus.

question of payment of bonus must depend fluctuating trade condition and profits are of the efforts of the labour. In the circumstances the question of payment of bonus is left adjudication.

Point 5—Old age provision and retiring

The Company has decided upon to increase 8½ per cent. Contributory Provident Fund is approved. Provisions for pension and in addition are refused.

Now the question is to make some provision prior to the introduction of the P. Fund. In all awards we make some provision apart from general unwillingness, the Commission point out some practical difficulty in any scheme for past service. It has been tended that service records of a period than 1946 are not in existence. This may or, if not correct, the books cannot be brought. It has however been found that leave with causing a break in the continuity of service has been a fashion with workmen in this Company. The reconstruction of service records on the statements of workers is not a practicable scheme the circumstances the past benefit must be to the period for which the papers are available. I award that from January 1946 for every completed year of continuous service the worker shall get gratuity at the rate of ½ month's salary. For this purpose the salary shall be the drawn on the day of the enforcement of the award. This money shall be paid when the Provident Fund money shall become payable.

Point 6—Leave and holidays.

The Company has made provision following:—

Privilege or statutory leave	... 10
Sick or casual leave	... 15
Festive holidays	... 8

The demand of the Union is to have one privilege leave, fifteen days' casual leave days' festive holidays, sick leave for one with full pay and for next one year on half pay.

I consider that the leave facilities offered by the Company are adequate and are confirmed.

Point 7—Free quarters or house rent allowance.

These were taken into consideration in the award and therefore the demands are refused. Moreover this matter has engaged the attention of the Central Government and the Tribunal prepared to proceed in advance.

Point 8—Medical aid.

Till the State Insurance Act comes into force the duty of the Company is to provide for arrangements. It appears that there are no medical facilities in the factory and prescriptions are supplied from another dispensary about 1½ miles away. A doctor remains in the factory and is not available for a passed compounder who comes twice a week. The new doctor comes without notice and there is no arrangement to call a doctor in that. I award that the Company shall immediately either keep a doctor or employ a qualified person up to the standard of a medical officer. Efforts be made to treat the workers in rendering first aid up to the standard of a first aid certificate. The Company must also provide a first aid kit and a first aid room. The Company must also provide a first aid room and a first aid kit.

Point 9—Rest and recreation centre.
Demand is pertinent where there is a colony of workers but here there are no barracks and the demand cannot be entertained.

Point 10—Free primary education.
There are public schools not far off from the factory and the workmen are not denied those facilities which are available to the public. The demand is refused.

Point 11—Free food and free tiffin.
Demand is refused.

Point 12—Standing Orders.
As the following Standing Orders after revision and alteration:—
Classification of workmen.—All workmen are classified as either—
Permanent or Regular, or
Temporary.

Permanent" or "Regular" workman is one who is put in six months' service satisfactorily declared as such by the Manager. This does not apply to apprentices who have to learn their trade. All workers in the manufacture and distribution of glassware are of this category. A temporary workman is one whose employment is of a temporary nature, for instance, in building a new furnace or a shed or a building on, which are all of a temporary nature.

Method of intimating to workmen periods and hours of work, holidays, pay days and wage rates.
Periods and hours of work are made known to workmen on appointment and on notice and gongs ringing at the time. The hours of work are from 7 a.m. to 12 noon and 1 p.m. to 5 p.m. throughout the year.

Sundays are holidays according to rules, it is known to all. Exceptional religious holidays are notified on notice board.

Pay days are made known to all at the time of appointment. 7th day of the succeeding month, according to factory rules, is the pay day in all cases, falling on a Sunday, the pay is given on the succeeding day, i.e., the 6th. This is prominently displayed on notice board.

Wage rates are made known to all on first appointment. Every worker is given an attendance card in which his wage rate is shown. Any increase in wage rate due to grade increase, good conduct, etc., are always shown in attendance card so that every worker knows at what rate he is working.

Shift working.—As glass works are continuous working shift work is encouraged. Shift work starts at 4 p.m. and continues to midnight with one hour's rest from 8 to 9 p.m. The second shift starts at 12 midnight and continues to 8 a.m. i.e., for 6 hours without any recess or it may be noted, the first shift working is from 4 p.m. to 8 a.m. and the next ones are for 6 hours which is equivalent to 8 hours' day work.

Attendance and late coming.—Every worker is given attendance card and as soon as he drops his card into a box kept outside the factory which is cleared away by the time-keeper marks his attendance on the card. The cards are brought back to the factory and the labourer is given his card back.

Joining after recess he again drops his card in the box which is again collected as the gong goes by the time-keeper who now marks his card and the former stroke now becomes "p" showing full day's work, while for those not joining after recess the attendance remains "/" for the day and they each get ½ day's wages. In exceptional cases late attendance up to 10 minutes is allowed and those coming late after explaining his late attendance to the Foreman, if admitted, hand over their cards to the Foreman who makes them over to the time-keeper and the cards are treated in the usual way.

(5) **Leave and holidays.**—(a) In the case of exigencies the management can refuse or revoke any leave granted to any workman.

(b) Any workman who desires to obtain leave of absence shall apply in writing to the Manager through his departmental head. If the leave asked for is granted, a "Leave Pass" shall be issued to the workman and unless this is received by the workman he must not leave his work as he is likely to be taken as absent without authority. If, however, leave is refused or postponed, the fact of such refusal or postponement and the reason therefor shall be recorded in the leave application and the workman, if he so desires, can see the same himself.

(c) Extension of leave, except under special circumstances, will not be granted. No workman will be permitted to overstay his leave unless he can previously secure written permission to extend the leave originally granted; such overstay will be treated as absence without leave.

(d) If the workman remains absent beyond the period for which leave has been originally granted or subsequently extended, he shall lose his lien on his appointment. The Manager however may condone such absence (i) if the workman concerned returns within five days of the expiry of leave and (ii) gives explanation to his satisfaction of his inability to return before the expiry of leave.

(e) Subject to the aforesaid rules, the workman will get leave as follows:—

	Days.
1. Privilege or statutory leave	10
2. Sick or casual leave	15
3. Festive holidays	8
	<hr/> 33

All other holidays beyond these 33 days as mentioned before shall be considered as leave without pay.

All such accidents should be entered in a register kept for the purpose and signed by the worker.

Amendments.—The management may from time to time amend these orders in accordance with the provisions of the Industrial Employment (Standards) Act, 1946, or any amendment thereof.

13.—Sanitary condition of the Company.

Factories Act prescribes the number of latrines, etc., in a factory. Ordinary sanitary standards must be followed. It is the duty of the Inspector to look to these things. If there is any want or deficiency the matter should immediately be brought to the notice of the Factory Manager.

14.—Reinstatement of four discharged workmen, viz., Kalipada Paul, Ramakrishna Mahato, Chandreswar Shau and Tribeni Paiti.

The persons involved are Kalipada Paul, Ramakrishna Mahato, Chandreswar Shau and Tribeni Paiti.

The Union's case is that immediately after the discharge of the Union Kalipada Paul, the founder member, was discharged. The case for the workers is that they were not allowed to join the services after their return from leave unless they signed an undertaking that they would not re-join the Union, and on their refusal they were discharged.

The case of Kalipada Paul stands on a distinct footing and should be considered first. Kalipada Paul was appointed on 20th September 1948. A meeting of the workers was held on 25th October 1948 to form the Union. Kalipada was discharged on 17th November 1948, after giving him a month's notice in lieu of notice. According to the Company Kalipada was taken as a temporary man for the work and was discharged after the work finished.

The first point to be considered is whether Kalipada was taken on a temporary or on a permanent basis.

Kalipada, it appears, had been a burden on the management. Twice jobs were secured for him but he did not stay on. This time the management, without any requisition from the party, gave him a job. It was a request by the management and therefore Kalipada cannot be held responsible when he says that the management assured him about the permanency of the job. Kalipada does not say that the Company assured him that this was a permanent job. According to the Standing Orders then prevalent, a temporary man would be confirmed after one year. If not confirmed, he would be discharged. If the order was passed, the person should be considered as a permanent man. He was not confirmed and was discharged. "Refugees" probably were not considered for the job.

After the discharge, Sri Nihar Ranjan Vedaratna, the President of the Union, and Kalipada approached Sri Debendra Sen, Secretary, Bengal Provincial National Trade Union Congress. He wrote to the Company on 17th November 1948 and the Company replied to him on 19th November 1948 as follows:—

"19th November 1948.

The Secretary, Bengal Provincial National Trade Union Congress, 115-E, Dhuramtalla Street (2nd floor), Calcutta.

Dear Sir,

With reference to your letter, dated 17th November 1948, regarding S. Kalipada Paul we beg to inform you that he was taken on a temporary job on 20th September 1948 and with the finish of the work he was discharged on 8th November 1948.

Yours faithfully,

Bharat Glass Works, Ltd.,
(Sd.) K. J. Savant,
Manager."

Thereafter Sri Nihar Ranjan Vadaratna wrote to the Bharat Glass Works on 25th November 1948 as follows:—

"BHARAT GLASS WORKS MAZDOOR UNION.

(Registered under Trade Union Act, 1926.)

Affiliated with I.N.T.U.C.

Central Office;

61, Chittaranjan Avenue, Calcutta.

Dated 25th November 1948.

President:

Nihar Ranjan Vedratna;

General Secretary:

Kali Pada Paul.

To The General Manager, Bharat Glass Works, Ltd., Belghuria, 24-Parganas.

Dear Sir,

I have the honour to inform you that a Union of the workers of Bharat Glass Works, Ltd., Belghuria, have been formed and it has duly been registered under Trade Union Act of 1926. As we are affiliated with Indian National Trade Union Congress, we have to see towards the increase of production which is needed most and also we are to try for the amelioration of the condition of the labourers of the factory. So if we are to work in this line we want your co-operation in this matter. The Secretary of the Union Sri Kalipada Paul who is a Congress worker has been dismissed by you without any reason which has created misunderstanding amongst the labourers of your factory. I am requesting you to consider his case immediately and manage to reinstate him as soon as it is possible and I can assure you that this will help you to make better relationship with the employer and employees. An early reply will be much appreciated.

'Jai Hind.'

Yours faithfully,

(Sd.) Nihar Ranjan Vedaratna
President.

The Company says that it gave the following reply to Sri Nihar Ranjan Vedaratna:—

"27th November/2nd December 1948.

The President, Bharat Glass Works Masdoor Union, 61, Chittaranjan Avenue, Calcutta.

Sub: Sri Kalipada Paul.

Your letter, dated 25th November 1948.

Dear Sir,

Reference above we beg to inform you that the above man was sent by the Sub-Regional Employment Officer, the Employment Exchange Office, Barrackpore, on a purely temporary basis and as we temporarily required a man he was employed from 20th September 1948 and as the work for which he was required was over he was discharged on 8th November 1948. We had similar enquiry from Bengal Provincial National Trade Union Congress and we have replied accordingly. However we may add that if occasions arise for such temporary work and if he is available we shall consider his case favourably.

Yours faithfully,

Bharat Glass Works, Ltd.,

(Sd.) K. J. Savant,
Manager."

Sri Nihar Ranjan Vedaratna denied receipt of this letter. The address given at that stage was such that the letter might have been missed. However, I leave the reply to Sri Nihar Ranjan Vedaratna out of consideration as it was not stated in the Company's statement. But the fact is patent that the reply was not different from the one given to Sri Deben Sen. There is no competent denial of the receipt of the letter by Sri Deben Sen. On 19th November 1948 the Company made the case what is now given out.

Though the discharge of the Union Secretary immediately after the formation of the Union raises a strong presumption that the motive behind was victimisation, the clouds are cleared and it appears that the reason for discharge had been different. No case for reinstatement has been made out.

About the other three persons, the Union's case is that they were asked to give a written undertaking promising not to join the Union and on their refusal they were not allowed to join afterwards. They overstayed their leave and the Company treated this as reason for their discharge.

Ramlaksman said, "I went home on the 20th Jaistha last and returned in the month of Pous. I was not given reappointment. The Manager told me that there was no vacancy. In the past also I had been absent for such long periods and on return I was allowed to resume my duties."

Chandreswar said, "I went home on leave in the month of Kartick. I returned only three months ago. When I returned from home I found that a Union had been formed. On my return the Durwan told me that if I gave a thumb impression on a paper then I would get an appointment. I gave my thumb impression and was given an appointment and I worked for 14 days. After 14 days I was again discharged. The man who took my thumb impression told me that I would be given reappointment after the work restarted. I don't know what was written in the book in which I gave my thumb impression."

I went to the Shahib who told me that was a Masdarpur man. I would join the I told him that I had just arrived and nothing about the Union. Then the told me that there was no vacancy and offer me any."

The case made out by the Union was go-by. Another case sought to be made the first time in evidence was that in pe was no leave rules and the persons were to join at any time after return from le

Ramlaksman says that he served the C for 10 or 11 years. But the service-sheet that he had been serving the Company in September 1947.

Tribeni says that he served the Company years, but the service-sheet shows that been serving since 4th November 1947.

Chandreswar says that he served the C for 8 years, but the service-sheet shows had been serving since 16th August 1947.

It is thus clear that they were reappoi there were vacancies. This time there vacancy. No case for reinstatement ha made out.

The demands were refused.

Point 15.—Compensation for involu unemployment.

I lay down the following rules for invo unemployment. It must, however, be mad that when on account of breakdown machineries or want of raw materials work be found for the employees, the employe liberty to follow one of the two courses—1 discharge the employees on notice, either t ment of Provident Fund or gratuity. Th nection with the workman ceases altogether however, the Company do not like to say bye to an employee and if the period of une ment is to be short, the Company must a sate him.

For involuntary unemployment of a wo 75 per cent. of the average daily rate of pay be paid for the first fortnight of unemple and 50 per cent. of such pay for the secome night. This benefit will be available onl one month in a half-year, and no benefit v given in the half-yearly periods of Janu June, or July to December, unless the num days of involuntary unemployment has ex 7 in the half-year.

To qualify for the benefit, a workman answer to a muster-roll once in a day at the place of unemployment or with the permis the employer at any other place and a wh will be ineligible for the benefit if he un ably refuse to work even of different pr usual factory or refuses an employment pr in the same locality by transfer from one d ment to another in the same undertaking.

These rules do not cover closes of whic quite notice is given under the Standing

ANNEXURE.

The matter of reference No. 135Lab., dated the 17th January 1948, of the Government of West Bengal, Labour Department, and in the matter of industrial disputes between the employers and the clerical and subordinate staffs in the office of Messrs. James Finlay & Co., Ltd., Calcutta (serial No. 51 of list No. 1 of the references).

PRESENT:

A. DAS GUPTA, Chairman

C. CHAKRAVARTY, Member

Constitution of the Tribunal and members.—The Tribunal was constituted by the Government of West Bengal (Labour Department) under sections 7 and 10 of the Industrial Disputes Act, 1947, by order No. 135Lab. dated the 17th January 1948, to adjudicate upon the industrial disputes between 267 mercantile firms and their employees.

and the clerical and subordinate staffs in their office, of which the firm of Messrs. James Finlay & Co., Ltd., is one.

Sri S. C. Dutta Gupta had been absent, and as his services were no longer available, the disputes which are the subject-matter of the present award were heard by the Chairman and the other member present.

We decided in the earlier cases that we could deal with the different firms separately. To this view, we still adhere.

APPEARANCE:

For the Company.—Sri P. P. Jinwallah, Counsel, instructed by Messrs. Orr, Dignam & Co., Solicitors.

For the employees.—Sri B. K. Choudhury, Counsel, assisted by the office bearers of the Federation of Mercantile Employees' Union.

AWARD.

We fix the following scales and grades of pay:—

Grade C—Rs. 70 to Rs. 140; increments Rs. 3 to Rs. 6.

Grade B—Rs. 110 to Rs. 180; increments Rs. 6 to Rs. 8.

Grade A—Rs. 160 to Rs. 260; increments Rs. 8 to Rs. 10.

Selection Grade—Rs. 250 to Rs. 750; minimum increment Rs. 12.

Probationers will get the lowest salary of the grade to which they are appointed. Stenographers will not go below grade B. All clerks will get a flat increment of Rs. 10.

Clerks will get dearness allowance according to the Bengal Chamber of Commerce scale.

Subordinate staff.

At present there are two grades:—

Grade A—Rs. 23 to Rs. 40, with annual increment of Re. 1, with certain exceptions.

Grade B—Rs. 25 to Rs. 45, with annual increment of Re. 1, with certain exceptions.

They get dearness allowance according to the Bengal Chamber of Commerce scale. They get much more than Rs. 60 as total emoluments. No increment is therefore necessary, but as the basic salary is low, we make the following alterations in the grades:—

Grade A—Rs. 30 to Rs. 47, with annual increment of Re. 1, subject to efficiency.

Grade B—Rs. 32 to Rs. 52, with annual increment of Re. 1, subject to efficiency.

Each member of the subordinate staff will get an increment of Rs. 7 as basic salary and a like amount will be deducted from the dearness allowance. This adjustment will be made without disturbing the total emoluments.

Retiring benefits.

The Company has a Provident Fund as also a pension scheme. In answer to our interrogatories the Company replied this way. At the time of hearing the Company put forward the plea that the pension scheme was discretionary. This was a departure from the answer to the interrogatories.

We quote below an extract from a circular given by the Company to its employees on 27th of August 1946:—

"Pensions.—Full pension on the following scale will be paid to employees retiring with the consent of the Company after 35 years' service:—

50 per cent. of salary drawn in last year of service less whatever sum the Company's contribution to the Provident Fund in respect of the employee and his share of the Capital Reserve Account will yield when interested at 4 per cent. For example:— Assume 50 per cent. of salary is Rs. 100 and Company's contributions and share of Capital Reserve Account in Provident Fund payable to retiring employee is Rs. 3,000. The maximum pension payable will be Rs. 100, less Rs. 10 (being interest of 4 per cent. per annum on Rs. 3,000) or Rs. 90 per month.

For retirement with the consent of the Company before 35 years' service but not before 30 years' service proportionate pension will be paid as follows:—

34 years—47 per cent. of salary less Provident Fund adjustment as above.

33 years—44 per cent. of salary less Provident Fund adjustment as above.

32 years—41 per cent. of salary less Provident Fund adjustment as above.

31 years—38 per cent. of salary less Provident Fund adjustment as above.

30 years—35 per cent. of salary less Provident Fund adjustment as above.

Retirements under 30 years' service to be considered on their merits and will receive the sympathetic consideration they have had in the past. The same applies to assistance to widows and dependents in the event of premature decease of the employee. No fixed rules regarding the employee. No down, under the form these will be laid

behind w

So long as the revised scale of dearness allowance remains in force a retired dearness allowance of Rs. 12-8 per month will be paid to all pensioners and retiring employees eligible for pensions."

On 13th February 1947, the Company issued another circular to its staff. About pension the following paragraph appeared:—

"Pension.—The scale laid down in the notice of 27th August 1946 is still operative but, following on the increase in the dearness allowance payable to employees, it has been decided to grant to pensioners a dearness allowance equal to 50 per cent. of the minimum dearness allowance payable from time to time to employees."

It is clear therefore that the Company altered the dearness allowance on the pension. But so far as the pension scheme was concerned, it was never considered as discretionary or as *ex-gratia*. It was one of the terms or conditions of service and when on behalf of the Union there is no demand for a change, we do not think we can make any change or describe the pension scheme as discretionary when it was not given out to be so at all along. This is a condition of employment of the Company.

Some.

The Company pay some bonus and has no intention to deviate from the present practice and make conditions of service in accordance with the

Company and tiffin.

About these the Company stated as

"In the absence of sufficient accommodation tiffin allowance of annas 10 p has been granted.

A canteen will be erected on the roof the Company are in a position take these additions to its building have obtained the approval of Corporation and other authorities plans have been drawn up hoped to commence operations. The canteen will be approximately square feet and there will also two other small rooms for Babus. Crochery will be Time off for tiffin has yet to be but will probably be limit minutes.

The tiffin allowance was introduced in 1947, and has been left in force pending the hearing of the and employees' cases before the Tribunal. The Company submit that in the terms and conditions of their employees this additional which approximates to Rs. mensem, be taken into consid the Tribunal at the time of The total amount distributed tiffin allowance in the twelve period is in the neighborhood Rs. 65,000 per annum. The maintain an office shop for commodities and for commodities by its associated companies. dhal are subsidised to a small Tea for drinking is provided during working hours. The value under this head is approximately Rs. 2 per mensem.

Tiffin allowance of annas 10 per week including Saturdays and holidays the office after 2 p.m., is granted

A vigorous argument on the point was to whether we should award liberty to pany for withdrawal of the tiffin allowance. The following notice to the clerical non-clerical staffs given on 6th November will show the terms on which the tiffin was introduced:—

"Following upon representations made by certain members of the staff pleased to inform you that recommendations, the Director agreed to the formal recognition of the Company of the James Finlay Union, and, at my request, have also given their approval allowance being instituted as November 1947.

Owing to insufficient space the Company in a position to provide tiffin a therefore, been decided to grant present an allowance in cash on the following scale for each full working employee is on duty.

Non-clerical staff—10 annas per full working day
Clerical staff—6 annas per full working day

The allowance will not be granted on Saturdays or non-working days. Tiffin allowance now granted will be appreciated

tiffin allowance was granted without any action and with the idea of stabilising it. It is to suggest that it was allowed to stand the decision of the Tribunal. It has been since from before the reference and we are in opinion that we should not be justified in taking the advantage of the employees during the award may not be in force. The allowance shall continue. This can, however, be in kind when arrangements are made for giving tiffin.

Company have been giving some allowance to wives and children of the employees. As we have raised the pay by Rs. 10, we award that company shall not have to pay the wives' and children's allowances as hitherto done.

Issue No. 12.—Service conditions.

Probation and confirmation.—It is awarded the period of probation shall not exceed 6 months though confirmation may be made earlier if the candidate is found suitable.

Service record.—We award that service record shall be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

Enquiry before punishment; and dismissal, retrenchment or other punishments.—In case of retrenchment, the principle of "last in, first out" shall be applied. Exceptions may be made in case of persons with exceptional services.

When comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the rules which must precede any punishment.

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the Head of the Concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the Head of the Concern at Calcutta, an appeal shall lie likewise with the Head of the Concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the Head of the Concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other person. There are domestic matters and domestic services which are not subject to appeal against.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) **Retiring age.**—We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the officers' grade. We award that there should be no bar to promotion from clerical grade to the officers' grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the officers' grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Accommodation allowance and children's education facilities.

The claims under these heads are refused.

Medical aid.

The Company give some medical facilities and it is not intended to increase the facilities voluntarily given by the Company.

Working hours, holidays and overtime.

The present rules about working hours and for payment for work on holidays are confirmed. In response to the gesture of good will in introducing the tiffin, the Company does not pay any overtime for work on week days and the Union does not press for overtime allowance.

All holidays under the Negotiated Settlement shall be observed as close as possible.

Dismissal, suspension, or other punishment shall be subject to the following conditions.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.—We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel however that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Umbrellas and uniforms.

These shall be supplied for official work.

- (3) Are any of the workers in question entitled to reinstatement; if so, on what terms?

DECISIONS.

Issue No. 1.—Has the Tribunal jurisdiction to order reinstatement of the workmen?

At the earlier stage of the proceedings claimed by the Company that this Tribunal has no jurisdiction to entertain the claim for reinstatement of discharged employees. The same was also raised in several other cases before the Industrial Tribunal by the companies and the question was taken up before the High Court at Calcutta in the application of the Indian Paper Pulp Co., Ltd. versus the Indian Paper Pulp Workers' Union and 18 other applications. The judgments in the cases were delivered by the Hon'ble Chief Justice of Calcutta, Mr. Chakravarty on 24th June 1948. It was decided, that under the Industrial Disputes Act, 1947, a Tribunal has no power to order reinstatement of workmen or workers. The Tribunal is not bound by these decisions of the High Court of India. The Hon'ble High Court at Calcutta has since upheld the decision of the Tribunal. The Tribunal, in the hearing of this present case, has decided to order reinstatement of the workmen.

idly, it appears from the facts of the case
ad by the Union that the four discharged
ees continued to apply to the Company for
trable consideration of the matter till after
1947 and it was only on 6th October 1947
ey applied to the Labour Commissioner for
up their matter for conciliation. It does
efore, appear that the dispute between the
y and the Union over the four workmen
fore 15th August 1947. It is true that the
in question were discharged in January
bruary 1947, but they were submitting
tions to the Company in expectation of
ill after the 13th August when the judg-
f the criminal case was delivered. The
y, therefore, has failed to substantiate that
pute between the Company and the Union
e matter in question, that has been referred
e present reference, arose before 15th August
This objection should, therefore, be
arded accordingly.

Issue No. 2.—Were the workers in question discharged by way of unfair labour practice?

The Union contends that the discharge of the four workmen Deba Singh, Ratan Singh, Palla Singh and Suchha Singh were instances of unfair labour practice on the part of the Company. The Company opposes this allegation and supports the act of discharge of these workmen as a *bona fide* conduct in the ordinary administration of the affairs of the Company. The Company states that the durwans occupied a position of trust and confidence, but on account of repeated occurrences of theft of money it could not place any reliance upon them and that they were, therefore, discharged and replaced by a different set of people.

The four durwans in question were examined by the Union and the Manager of the Mill Mr. C. Baxter was examined on behalf of the Company. The statements of the parties and the evidence of the witnesses examined, disclose the circumstances under which the four durwans were discharged. I shall now discuss the facts and circumstances that led to the discharge of these workers.

The Caledonian Jute Mills at Budge Budge have a complement of about 3,000 workmen and 35 durwans. At the relevant date, only 28 out of 35 durwans were in the service of the Company. A large proportion of the workmen and only 4 of the durwans were members of the Caledonian Jute Mills Workers' Union. In August 1946, a sum amounting to Rs. 6,000, being a part of the weekly wages of the workmen, was stolen from the strong room in the office. This sum was really the weekly wages of the workmen in the Weaving Section of the Mills. The wages of the individual workman were enclosed in separate envelopes by the Weaving Department clerks and these envelopes were kept in shelves inside a wooden trolley, the doors of which were closed by a padlock. The trolley was pushed into the strong room by the Head Jamadar Nanda Singh and the strong room door was locked by the Mill clerk who kept the key. Next morning, Mr. Petom, the Weaving Overseer, went to take out the trolley from the strong room, when it was found that the doors of the trolley were broken and the envelopes containing the weekly wages of the workmen missing. It appeared that the doors of the strong room with the padlock were intact but the trolley inside the strong room was broken. There were 3 durwans on duty to guard the office room during the night from 6 p.m. to 6 a.m. in a shift of 4 hours' duty for each. These 3 durwans were arrested by the Police, but they were discharged after a few days, on the ground that no incriminating evidence was available against them.

On 17th January 1947, Friday, Deba Singh, the second Jamadar and Gurudayal Singh, a durwan, went to the Bank of the Company in Calcutta, to bring the weekly wages of the workmen amounting to about Rs. 27,000. The money was transported to the mill in the custody of Deba Singh and Gurudayal Singh by a launch, which arrived at the mill jetty at about 4-35 a.m. Deba Singh and Gurudayal Singh took the money to the Manager in bags, which were put into the safe of the strong room and the key was kept in the custody of the Manager. In view of the previous theft, there were two durwans on duty in the office door from 6 p.m. to 6 a.m. The Manager Mr. Baxter did not see the money before it was put in the safe. On Saturday morning, durwan Gurudayal Singh came to the Manager's house and asked him to check the money in the cash and the safe was opened in the presence of Deba Singh when it was found that one of the bags contained 2 one-pound packets of tea and a packet of country soaps, and the other bag contained some odd change which were not counted at the time. On a search being made in the mill premises and the area around, a sum of Rs. 105 was dug out of earth at a spot about 50 feet behind the durwans' quarters.

and another sum of Rs. 7,495 was found rolled up in a piece of old pagree underneath a small bridge just beside the durwans' quarters. The Police was informed and Deba Singh, Gurudayal Singh, Iswar Singh and Bhagawan Singh were taken into custody. In the criminal case that followed, Gurudayal Singh was convicted to rigorous imprisonment for 2 years and the others were acquitted. Gurudayal Singh was thereafter acquitted in appeal. In view of the very serious thefts, the Company lost confidence in the durwans and decided to change the entire complement of the durwans, as it was suspected that the durwans were either repeatedly negligent in duty or participants in the crime themselves. The Company applied to the Employment Exchange at Council House Street and secured a full complement of Gurkha durwans, who were appointed in place of the existing durwans, who were all inhabitants of the Punjab. The Company offered to pay one month's wages in lieu of notice to all the durwans except those who were implicated in the crimes and some of them did not, however, accept the notice money, and it appears Ratan Singh, Palla Singh and Suchha Singh did not accept this money. Deba Singh was not offered any notice money at all. It also appears that the Head Jamadar and the jute godown durwans, with about 20 years of service, were pensioned off by the Company. (Of the four durwans in question, it appears that Deba Singh was in service for about 28 years, Palla Singh for 8 years and Ratan Singh and Suchha Singh for 4 years.)

The Union pressed that the discharge of Deba Singh, Ratan Singh, Palla Singh and Suchha Singh was unwarranted and that this suspension of service of all the Punjabi durwans were made on a provincial basis and on account of a bias against all the Punjabis employed in the Company. It appears from the report of Labour Officer, Indian Jute Mills' Association, to the Labour Commissioner, Government of West Bengal (*vide* Exhibit A), that the discharge of the complement of the Punjabi durwans on the ground of loss of confidence and trust was done in consultation with the District Magistrate, 24-Parganas, the Deputy Superintendent of Police, 24-Parganas, and the Labour Department I.J.M.A. I do not find any substance in the allegation that these durwans were discharged on account of any bias against the Punjabi employees on a provincial or community ground. The retention of the durwans in service entirely depends upon the Company's confidence in their trustworthiness and competence to safeguard the properties of the Company. If the Company loses its confidence in the trustworthiness or the efficiency of the durwans, it cannot be forced to retain them. The Union pressed that the durwans were discharged for their trade union activities. It may be pointed out that only the four durwans in question in this case were members of the Union and yet the other 24 who were not members of the Union at all were also discharged in the group of durwans. None of these persons were members of the executive committee or active trade union workers. The details about these four durwans individually as it appears in their oral evidence are as follows:—

Deba Singh.—He served for 28 years. He entered the service of the Company as an office peon and rose to the rank of the Second Jamadar. The record of his previous service is blameless. He was allowed to be in charge of handling money of the Company. He was implicated in the theft case in January 1947, but was acquitted by the Magistrate. He was a member of the Union. He did not collect any subscription for the Union but he advised others to join the Union. He alleges that the Manager stole the money and kept the stolen money behind the durwans' quarters at various places to discharge the durwans who were members of the Union.

Suchha Singh.—He has been in service Company for 4 years. He was on leave, January 1947, the date of the second theft, left the mill for leave on 16th January 1947 was on leave for 15 days on this occasion. a member of the Union; he did not collect subscription himself, but asked others to collect subscriptions. The subscription is at Rs. 1 year and he paid the subscription for one year before the date of the theft.

Palla Singh.—He has been in service Company for 8 years. He is a member Union. He denies that the durwans had any part in the conspiracy of the theft.

Ratan Singh.—He has been in service Company for 4 years. He is a member Union and paid his own subscriptions and his friends to join the Union.

It appears that Deba Singh was suspended 18th January 1947 and the other three Singh, Palla Singh and Suchha Singh were charged and paid off on 14th February 1947 appears from the evidence of the four that none of them were active members Union. None of these men were doing anything for the Union relating to the terms of employment or the condition of labour. There is, then, no reason for the employer to bear any malice towards them and no charge of ulterior motive to discharge of these men can, then, be levelled against the employers.

The National Labour Relations Act, 1937, United States, does not purport to interfere with the normal exercise of the employer's right of employ and discharge. "What the Act purports to do, however, is to qualify that right by prohibiting its exercise as a means of interfering, restraining or coercing employees in the exercise of their rights to organise, join Labour Unions, or as a means of encouraging or discouraging membership in a Labour Union. In a case it has been decided that "an employer who suspects that his goods are being pilfered by those engaged in such sabotage, and if those engaged in such sabotage refuse to co-operate with the employer is privileged to discharge them" (Labour Disputes and Collective Bargaining, Ludwig Teller, pages 828-829). The principles have been enunciated in the *India United Mills, Ltd.*, Bombay, H. V. Divatia, published on page 333, *Bombay Labour Gazette* of January 1947. The principles have also been followed by S. Modak, I.C.S. (Retired), in his Award in the industrial dispute between Bengal Chemical and Pharmaceutical Works, Ltd., and their employees, published in the *Calcutta Gazette* on 13th January 1949. I fully agree with these principles and will be followed in deciding the merits of the Union's claims on reinstatement of the discharged durwans.

From what have been discussed above it is clear that there is nothing to show that the four durwans were discharged by the Company on account of their trade union activities. On the contrary, it appears that the only cause of discharge of the four durwans along with 24 others, who were not members of the Union at all, was the loss of confidence of the Company in the entire complement of the durwans on the ground of successive thefts of the Company's money. It is clear that the discharge of the four durwans was not caused by any unfair labour practice on the part of the Company and it is

No. 3.—Are any of the workmen in question entitled to reinstatement; if so, on what terms?

The question in this issue is if any of the four workmen are entitled to reinstatement; and, if so, on what terms?

In this connection I shall again refer to the case of Sri S. N. Modak, I.C.S. (Retired), in dispute between the Bengal Chemical and Pharmaceutical Works, Ltd., and their workmen. The learned Adjudicator considered the question of reinstatement of a discharged employee in various circumstances in detail and set down the following amongst other principles:—

(a) In a case where the discharge of an employee has been ordered owing to his participation in legitimate trade union activities, or in words, where the order of discharge amounts to unfair labour practice on the part of the employer, an Industrial Tribunal may direct reinstatement of the discharged employee with or without suitable compensation, although an ordinary Court of law cannot direct reinstatement.

In a case of discharge of an employee, where discharge does not amount to an unfair labour practice on the part of the employer or the discharge has not been ordered on account of the employee's participation in legitimate trade union activities, but it is found that the employee was discharged wrongfully, that is, without just cause or that the order of discharge was made for some ulterior motive or it amounts to arbitrary conduct or unnecessary harshness, an Industrial Tribunal will not ordinarily direct reinstatement of the discharged employee, but may award suitable compensation. An Industrial Tribunal can exercise much wider powers than an ordinary Court of law and is entitled, under appropriate circumstances, to go beyond such limits of contract or Standing Orders and Rules which may be in existence.

(b) Even in cases of discharge not covered by (a), for instance, under circumstances of breach of the contract, retrenchment, etc., an Industrial Tribunal is entitled to exercise its powers in the interest of social justice and peaceful industrial relations, and may award suitable compensation, such as an ordinary Court of law would be entitled to do."

I agree with the principles enunciated above. It has been decided above that the discharge of the four durwans in question were not instances of unfair labour practice on the part of the employer. The four durwans are not, therefore, entitled to reinstatement.

The only question that may be raised is whether the four durwans are entitled to any compensation on account of loss of service. The learned Counsel for the Company argued that no compensation had been awarded by the Union for these workmen in this case. The Union claimed for reinstatement and arrears of pay for the period of non-employment. In a claim for reinstatement, when such a claim is not allowed by the Tribunal, it is the duty of the Tribunal to grant compensation in a claim of reinstatement. The claim of reinstatement is a claim of compensation in case no reinstatement is allowed as it is a minor relief in comparison to the major relief of reinstatement. The Union has not asked for compensation at the time of its application to me, and I do not consider it appropriate to award compensation.

reinstatement is allowed and there is no specific claim for compensation in case no reinstatement is available, the question of compensation should be considered by me.

I take up these cases below:—

Deba Singh.—He was in the service of the Company for about 28 years and during this period there was no blemish in his service record. But at the close of this period he was involved in a case of theft of a serious nature, and was made an accused in the theft case. He was acquitted in the case. His acquittal does not show that the employer is bound to retain him in service. In a criminal case a charge has to be proved against the accused person beyond all reasonable doubt. But, it appears that although Deba Singh could not be convicted in a criminal trial, the employer had lost all confidence in him. The employer is entitled to take this attitude in the circumstances of this case, and he cannot be compelled to retain the services of his employee against whom he is entitled to entertain a strong suspicion. The plea of Deba Singh that the Manager stole the money in question on 17th January 1947 has not been substantiated and is not accepted by me. Deba Singh has not been given his notice money being his wages for one month. In the circumstances of the case, I consider that he should be given his wages and dearness allowance for one month being the notice money, in consideration of his long period of service under the Company. The notice money shall be fixed at the rates of the wages and allowances availing for the workman in February 1947. In the special circumstances of this case I regret to note that I am unable to grant him any further consideration in the matter of compensation.

Ratan Singh, Palla Singh and Suchha Singh.—None of these durwans were directly implicated in the cases of theft. Suchha Singh was absent from the mill on 17th January 1947. Suchha Singh and Ratan Singh were each in service for 4 years and Palla Singh for 8 years. They were all offered the notice money being one month's wages, but they did not accept the sum up till now. These persons were discharged as the Company lost confidence in the entire body of the Punjabi durwans. There are some grounds of suspicion against these four durwans as the Company was of opinion that the durwans were in the know of the circumstances of the theft but did not disclose them. There is, however, not much room for a very strong suspicion and I am of opinion that these three durwans should be granted a compensation to the extent of the wages and allowances for one month over and above the notice money. The wages and allowances shall be fixed at the rates availing in February 1947.

I do not consider that any of the four durwans are entitled to any gratuity on account of their period of service with the Company, as all payments of gratuity are subject to the condition of good conduct up to the date of discharge. As these persons were discharged for the genuine cause of loss of confidence and, therefore, utility in their service, they are not entitled to any gratuity.

INSTRUCTIONS.

For definition of "Worker" please see section 2(7) of the Factories Act, 1948. Workers below 15 years of age should be classified as children. Workers who have completed the 15th year but have not completed the 18th year, if not certified as adults, should be included under children. *Badli* labour should, however, be excluded in furnishing the number on rolls.

"Working days" exclude all weekly and other scheduled holidays even if some of the workers are required to work either full part of the time on such days. Days on which the undertaking was closed for whatever cause, should also be excluded.

Total number of man-shifts scheduled to work is obtained by adding together the numbers of workers scheduled to work on each day of the month. A worker should be considered as scheduled to work on a shift if he is on the rolls and the employer is available for him. A worker is, however, considered as not scheduled to work (a) on days on which he has been ordered to take leave, (b) on days on which he is on strike or on which there is a lock-out, (c) if he is a substitute worker, (d) if the worker (female) is on maternity leave. This figure should agree with the total of the figures under (d) and (e) below.

Total number of man-shifts worked during the month is obtained by adding together the numbers of workers employed on each day of the month.

Total number of man-shifts lost during the month on account of absence, obtained by adding together the numbers of workers absent on each shift on each day during the month.

Total number of man-shifts worked by substitutes is obtained by adding together the numbers of substitutes employed on each day during the month.

"Strike" means a cessation of work effected by a group of workers acting in combination with a view to enforcing a demand or demands in pursuance of an industrial dispute.

"Lock-out" means the closing of a place of employment or the suspension of work, or the refusal by an employer to continue to employ any number of persons employed in pursuance of an industrial dispute.

"Industrial dispute" means a cessation of work by a group of workers acting in combination, not in pursuance of an industrial dispute but for reasons. This should include sympathetic demonstrations, political strikes, protests against the Government policies, etc.

Number of man-shifts lost is to be calculated by taking into account the number of workers involved directly and indirectly in the stoppage.

Total number of man-shifts lost on account of employer-ordered lay-off is obtained by adding together the number of workers absent on each shift on each day during the month.

Average daily normal attendance is obtained by dividing the aggregate number of workers present in all the shifts on all days in the period by the number of working days. Absences in hours need not be considered. Days on which the undertaking was closed for whatever cause should not be counted as working days.

Aggregate number of man-hours worked during the period is obtained by adding up the number of man-hours worked in all shifts on all working days. The number of man-hours worked in each shift is the product of the number of workers and the number of hours worked on the particular shift. If the number of hours worked varies from worker to worker, the total number of man-hours in the shift is obtained by adding up the number of hours worked by each worker.

Please include all cash payments made under the Payment of Wages Act, 1936, and taxes payable and deducted if any. This should include other allowances, bonuses, etc., if any, earned and paid more or less regularly during each wage-period. Annual bonuses, etc., should be included if they are paid during the wage-period.

This should be worked out on the basis of the difference between the wholesale prices of the articles like foodstuffs, etc., which have been received by the workers and the actual prices at which they have been supplied to workers while on work should be included.

TREASURY NOTICE

Office of the Accountant-General West Bengal NOTIFICATIONS.

Subject:—Location and function of the Government offices in West Bengal

No. TM/441.—20th July 1949.—The members of West Bengal have called for information regarding the location of the different offices of the Government of India situated in Calcutta and other parts of West Bengal as also their functions. In order to enable this office to furnish the information to the Government, all Heads of offices of the Central Government located in West Bengal including Calcutta are requested to furnish the following particulars in respect of their offices: (1) name of the office, (2) location premises number, street, station, post number, etc., and (3) functions, to this office by the earliest date so as to reach it not later than 1st August 1949.

Subject:—Noting of amount in words in chalangans.

No. TM/445.—21st July 1949.—Attention of all Treasury Officers and Sub-Treasurers in West Bengal and the Manager, Reserve Bank of India, Calcutta, is invited to Forms No. 1 (Chalan—Central) and T.R.7 (Chalan—Local), each of which provides space for the amount of the chalan in words. It is brought to notice of this office by departmental officers that the amount received is not noted in the chalangans in words by the receiving officer. Receipt is acknowledged by only affixing a rubber stamp on the chalan with the signature of the Treasurer or the Treasury Officer as may be. This procedure is fraught with the danger of fraud by altering the amount entered in the chalan. Actually such a case has come to light in respect of the deposit of money in favour of the Director-General of Disposals, New Delhi. To obviate this, it is hereby directed that the amount received should invariably be written both in words and by the receiving officer on all copies of chalangans.

AWARD.

Government of West Bengal, Labour Department, order No. 1868Lab., dated the 18th April 1949, this industrial dispute between the Sun Rolling Mills, 8, Station Road, Lalooah, Howrah, and their workmen represented by the Sun Rolling Mill Mazdoor Union, 6, Peary Mohan Mukherji Street, Belur, Howrah, in connection with the strike from the 23rd April 1948 and the question relating to wages of strikers for a period, has been referred to me as an Industrial Tribunal for adjudication. The Sun Rolling Mill is a rolling mill the proprietors of which are Messrs. B. Tarruck and Co. It is a matter of an industrial dispute between the Sun Rolling Mills, 8, Station Road, Lalooah, Howrah, and their workmen represented by the Sun Rolling Mill Mazdoor Union. The first Award relating to the issues of basic pay, dearness allowance, security of service and other amenities was made by Sri P. Sarkar, Judge, Industrial Tribunal, Government of West Bengal, order No. 953Lab., dated the 20th March 1948, on page 412 of the Calcutta Gazette, dated the 8th April 1948. That Award came into operation from the 1st April 1948 in connection with the Government order, and was operative for a period of two months with effect from the date of its publication.

of machinery in connection with the sheet mill was undertaken inside the mill premises, by employing workmen on a temporary basis. The Company's case further is that the work in connection with the construction of machinery for the sheet mill was completed early in 1948, and the workmen employed on a temporary basis in that connection became superfluous personnel even at the time of the first adjudication proceedings. According to the Company the question of discharge of the superfluous personnel in connection with the construction work was under contemplation for some time, and eventually on 22nd April 1948 the Company gave notice of discharge with regard to 27 workmen who were found to be superfluous after the completion of the construction work. According to the Union this act of discharge amounted to an Act of victimisation and it was resorted to suddenly out of an ulterior motive, and possibly for avoiding the effect of the first Award which directed various aspects of improvement in the wages and other amenities available to the workmen. The workers of the mill in general, led by the Union, became dissatisfied with the order of discharge in respect of the 27 workmen and they started a strike on the 23rd April 1948. The Company gave notices on dates prior to the 17th May 1948 inviting the employees to come and join work on or before the 17th. Some of the striking workers appear to have responded to the invitation, while the majority decided to stay out. Finally on the 17th May 1948, the management declared that it had no alternative but to dispense with services of all the workers who had not yet joined, with effect from the date of strike. It appears that even after this final decision was declared the Company notified on more occasions than one that the management was still prepared to consider applications from old employees, and it appears that some old employees joined work after the 17th May. The Company eventually managed to restart the mill from 1st June 1948 with a smaller number of workmen than usual, composed of both old employees and new employees. According to the Union the strike which commenced on 23rd April 1948 still continued, and it appears that the Union maintained a policy of continuing the strike in spite of the invitation extended by the management to old employees to join work. The industrial dispute between the Company and the workers in general represented by the Union, excepting those who actually rejoined duty, continued to persist, and the discharge of 27 workmen on 22nd April 1948 continued to be a sore point. Eventually, a second reference was made to Sri P. Sarkar, Judge, Industrial Tribunal, the subject-matter being the discharge of 27 workmen, and the second Award was published by the Government of West Bengal order No. 1872Lab., dated the 18th April 1949, on page 670 of the Calcutta Gazette of the 21st April 1949. In the second adjudication proceedings the Union contended that the discharge of 27 workmen on the 22nd April 1948 amounted to an illegal lock-out, in so far as that discharge was directed within two months after the publication of the first Award, in contravention of section 23(b) of the Industrial Disputes Act, and the strike which was declared from the 23rd April 1948 in consequence of the illegal lock-out was a legal and justified strike. In his Award the learned Judge, Sri P. Sarkar, came to the conclusion that the act of discharging the 27 workmen was a bona fide act of retrenchment of superfluous personnel, and the discharge did not amount to a lock-out, and the strike which was resorted to within two months after the conclusion of the first adjudication proceedings was an illegal strike. In the second Award, however, certain benefits by way of compensation were provided for in respect of

make a brief survey of the position that the
re intends that the status quo must be
ed during the pendency of the adjudica-
tions. Section 23 of the act lays down
the man shall not be liable for damages
for a lock-out.

The purpose of second part of section 33 is to lay down that in cases covered by it an act of suspension of work or of refusal by an employer to continue to employ a workman will not bring the employer within the mischief of section 26 read with sections 23 and 24, provided that permission of the Tribunal has been obtained where the law requires it."

4. For the purposes of the present proceeding I adopt all the principles enunciated in the above quotation, as I do not see sufficient reason for deviating from the view which I, in collaboration with two other learned colleagues, took on a previous occasion in 1947. It appears that I also took the same view on the subject of the scope of the definition of "lock-out" in paragraphs 8(3) and 3(4) of my Award in the matter of an industrial dispute between the management of the National Iron and Steel Co., Ltd., and the Tatanagar Foundry Co., Ltd., Belur, Howrah, and their workmen as published by Government of West Bengal order No. 860Lab., dated the 25th February 1949, in the *Calcutta Gazette*, dated the 10th March 1949. The same view was also taken by Sri M. C. Banerjee in his Award in connection with an industrial dispute between Spence, Ltd., and Spence, Ltd., Workers' Union as published by Government of West Bengal order No. 382Lab., dated the 28th January 1949, in the *Calcutta Gazette*, dated the 3rd February 1949. References in this connection may also be usefully made to the observations made by Sir H. V. Divatia in his Award in the trade dispute between the Empire of India Life Assurance Co., Ltd., Bombay, and its employees as published on page 187 of the Bombay Labour Gazette of October 1947. The learned Adjudicator in the Bombay case was dealing with a definition of "lock-out" under the Defence of India Rules, which was identical with the definition under the Trade Disputes Act of 1929. The definition under the Trade Disputes Act intended the concept of "lock-out" to be restricted by certain words involving an element of intention on the part of the employer. Those restrictive words have been deliberately omitted under the present Industrial Disputes Act, and in my view there is no room for introducing any element of intention, either *bona fide* or *malafide*, into the definition of "lock-out" under the present Act. An act of discharge of one or more employees would, in my opinion, amount to a lock-out when the discharge amounts to a refusal by the employer to continue to employ the employee or employees. In the definition of "lock-out" under section 2(1) of the present Industrial Disputes Act the words "persons employed by him" mean "employees". There is no reason why an act of discharge may not amount to an act of refusal by the employer to continue to employ the employee or employees concerned. Under suitable circumstances the refusal to continue to employ takes places at the very moment of the order of discharge. In this connection I may usefully refer to certain observations made in the last portion of paragraph 12 of the Award of Sir H. V. Divatia in the Empire of India Life Assurance case referred to above. The observations run as follows:—"I therefore hold not only that the discharge notices against all the strikers who were not proved to have taken individual part in the disorderly demonstrations are not valid and were not meant to be discharge notices but that the action of the Company really amounted to a lock-out within the definition of the term under the Trade Disputes Act as the Company refused to continue their employment in consequence of the dispute that was going on and it was intended for the purpose of compelling the strikers to accept the terms and conditions of the Company for resuming the work." The last portion of this observation relating to the element of intention, though relevant in connection with the definition of lock-out which was operative under the then existing law, is not relevant at all for our present purposes in the light of the present Industrial Disputes Act. I have quoted the above observation for the purpose of showing that Sir H. V. Divatia while dealing with the case referred to came to the finding that the act of discharge amounted to a lock-out of the employees when the Company refused to continue their employment.

or in other words the learned Adjudicator considered that the act of discharge in amounted to an act of refusal to continue the employees. As regards the first section 33 of the present Act there does not seem to be any real conflict between the two footing of the scope and implications of the definition of lock-out which I have given above. I had occasion to observe in concurrence with the Bengal Jute Mill case in 1947 that in cases covered by it an act of refusal by an employer will not continue to employ a workman within the mischief of section 23 and 24, provided that of the Tribunal has been obtained which requires it." It will therefore appear that there is no real conflict between section 23 and section 33 of the present Act. The footing of the interpretation of "lock-out" under the second part of section 33 intended to come into operation only in cases of misconduct on the part of employees. The mischief of section 23 which occurs in Chapter II under the heading of "Miscellaneous" may be described as a sort of exceptional general rule of maintenance of the status quo. The scope of the second part of section 33 is limited. If we read section 23 and section 33 in this angle there will be no room for conflict simply owing to the fact that the mischief of section 23(b) includes the period after the conclusion of the proceedings and the duration of the pendency of the proceedings. In so far as the second part of section 33 is concerned, it should be possible to deal with cases of discharge or dismissal under exceptional circumstances of punishment of misconduct, it should be possible to deal with the two sections without introducing a possible conflict. In view of what I have said above I come to the finding, for the present proceeding, that the discharge of 27 workmen ordered on the 22nd April 1948 amounted to a lock-out within the meaning of the existing definition of that expression. In so far as the lock-out was declared within the period after the conclusion of the first adjudication proceedings, it amounted to an illegal lock-out. However technical the illegality might be.

5. Under the circumstances of the case, however, there is no need of taking a grave view of the illegality of the lock-out. It must be appreciated that there are many illegalities. In this particular case the lock-out arose clearly out of a bona fide retrenchment based on legitimate grounds. The illegality of the lock-out which ensued was most a technical one. In dealing with lock-out of this kind, no Industrial Tribunal should think of ordering the employer to employ the employees concerned to resume work, but it might be proper for a Tribunal to order the employer to pay compensation in connection with the termination of service. It is noticeable that the learned Judge in giving the Award did not come to a finding to the effect that there was an illegal lock-out, but he very much considered the question of compensation to the discharged employees. The effect of my finding regarding the illegality of the lock-out in connection with the discharge of 27 workmen is that the strike which was declared on the 22nd April 1948 obviously in connection with the illegal lock-out cannot be deemed to be illegal according to the provisions of the Industrial Disputes Act. The strike is regarded as technically legal.

far as the right to go on strike is conceded by law. The important question, however, is much whether the strike was legal, but it was justified. When emoluments for period of the strike are asked for, in spite of position that no work was done during the strike, the most important factor for consideration is whether under the particular circumstances the strike was justified, although it might be legal. If all, was there any good ground for starting a strike at all? This was a case in which a number of workers employed on a temporary basis for carrying out some construction work had been discharged when the particular job of a temporary nature was completed, and it was a case of *ad hoc* retrenchment. The other workers had no legitimate ground for expecting that workers employed temporarily for carrying out a temporary job could be employed by the employer even after termination of the specific work, and the employer continued to pay such temporary workers even after they had become superfluous. It seems to me that the other workers failed to take a fair and reasonable view of the position, and in the direction of the Union took the peculiar step of declaring a strike on the very next day without giving the least chance to the employer to consider the matter for what it was worth. From this aspect of the subject, it should be seen that although the law concedes the right to go on strike the Industrial Disputes Act of 1947 is a provision for the investigation and settlement of industrial disputes in a peaceful manner which seeks to discourage strikes by obviating the possibility of employees having recourse to strikes. The Industrial Disputes Act intends that when industrial disputes arise, they should be sought to be solved by having recourse to the machinery of conciliation and adjudication, and the weapon of strike should be resorted to when other avenues of settlement have failed. In our particular case the workers concerned gave no chance either to the employer or to the machinery for settlement of industrial disputes under the Industrial Disputes Act. Instead they went on a lightning strike on the basis of grounds which were not legitimate. The only conclusion must therefore be that the strike was unjustified. That being the position the workers should not expect to get any remuneration for the period of the strike. So much about the legal questions involved in issue No. 1 which I answer specifically later on.

I may now proceed to deal generally with the matters involved in issue No. 2. The three questions set forth under issue No. 2 in the instance of the Union seem to suggest that the discharge in respect of the workers named in list "B" ordered on the 17th May 1948, was not legal and justified and the discharge amounted to a lock-out and possibly an illegal lock-out which began from the 17th May 1948. I find, however, with regard to these aspects there has been a confusion of ideas in the light of the progress of the strike and the steps taken by the Union from time to time. In connection I may usefully refer to the questions regarding the duration of the strike under issue No. 1. A stoppage of work may ensue from a strike indulged in by the workers or from a lock-out declared by the employer. But the same stoppage of work cannot be said to have ensued from a strike and a lock-out co-existing simultaneously. The written statement filed by the Union makes it abundantly clear in paragraph 14 of the paragraph dealing with "matters indicated and remedied suggested" that the strike continued from the 23rd April to the 29th November 1948, and that the workers were called off. On the 17th May 1948 the strike was called off. There could, therefore,

lock-out having been declared by the employer during the admitted period of strike from 23rd April 1948 to 29th November 1948. The lock-out, if any, must have commenced after the termination of the strike. It is, therefore, more or less irrelevant to consider the question as to whether the discharge ordered by the employer in respect of the workers named in list "B" was legal and justified, inasmuch as even if the discharge was not legal or justified it could not amount to a lock-out while the strike was still in existence. It seems to me that the employer did not seriously intend the order of discharge announced on the 17th May 1948 to be effective. Before the 17th May 1948 the employer issued a number of notices inviting the old employees to come and join work, and eventually on that date the employer notified that he had no alternative but to discharge those employees who had failed to rejoin work. Even after the 17th May 1948 the employer issued more notices than one still inviting the old employees to come and join work irrespective of the order of discharge which had been notified. Presumably the employer would be only glad to welcome such employees as might come forward to rejoin duty during a substantial period after the 17th May. It is not the Union's case that the workers offered their services during the immediately succeeding months and the employer refused to continue to employ such workers. As a matter of fact it seems that the employer was always ready during a considerable period after the commencement of the strike to welcome old employees and see them resuming work. It was the workers who continued the strike for an abnormally long period in spite of the invitation extended by the employer. Under such circumstances it can hardly be said that the discharge which was formally notified on the 17th May 1948 amounted to a refusal to continue to employ the persons employed by the employer within the meaning of section 2(7) of the Industrial Disputes Act. The conclusion must therefore be that the discharge which was ordered on the 17th May 1948 did not amount to a lock-out, far less an illegal lock-out. If it had been a lock-out it would obviously be illegal in so far as it would be held to have been declared within two months after the conclusion of the first adjudication proceeding in violation of the provisions of the section 23(b) of the Industrial Disputes Act. The strike itself lasted at least up to 29th November 1948, till after the second reference was made by a Government order, dated the 27th November 1948. The Union intimated to the manager of the factory and to the Labour Commissioner by a letter, dated the 29th November 1948, that the strike was called off and the workers were prepared to resume duty. The Company replied by a letter, dated the 24th December 1948, to the Assistant Labour Commissioner that inasmuch as the services of the workers had already been terminated with proper notice and they had failed to respond to requests made by the Company repeatedly during the preceding several months, the Company was unable to consider the question of the workers resuming their work at that stage. The case put forward by the Union in its written statement, as per paragraph 16 is that an illegal lock-out began since the date of withdrawal of the strike, that is to say, the alleged lock-out commenced from about the 30th November 1948, when the Company failed to allow the workers to resume their work. The Company's case, on the other hand, is that the workers concerned had already been discharged with notice by an order, dated the 17th May 1948, and the question of lock-out does not arise. The strike, though unjustified, may be said to have arisen in connection with a current industrial dispute, and under such circumstances it may not be unreasonable to take the view that the workers on strike continued to be employees of the Company, and there was no real termination of the relationship of employer and employee in spite of the discharge in May 1948. In this connection

refer to paragraph 8 of the Award given by Sir H. V. Divatia in the trade dispute between the Empire of India Life Assurance Co., Ltd., Bombay, and its employees, as published on page 187 of the *Bombay Labour Gazette* of October 1947. Considering the matter in the light of the principles enunciated in that Award, it may be held that the employment of the workers concerned under the particular employer continued at the time when the strike was called off in November 1948, and the workers on strike offered to rejoin duty. The position which emerges on the footing of continuity of status as employees is that after the strike was called off the employer refused to continue to employ the employees who had been on strike. Such refusal would, under the definition given in section 2(I) of the Industrial Disputes Act, amount to a lock-out. Then again, inasmuch as the lock-out took place during the pendency of the second adjudication proceedings, it would be an illegal lock-out. There is, however, no need to take a grave view of this illegal lock-out, as under the particular circumstances the illegality can only be characterised as a technical one. As observed in Sir H. V. Divatia's Award referred to above an order for resumption of duty by the workers concerned will not necessarily be given by a Tribunal in all cases of illegal lock-out, and the remedy to be applied in a particular case must depend on the peculiar circumstances surrounding it. In our present case, as already found, the strike was unjustified, and it arose out of a *bona fide* order of retrenchment of certain superfluous workers originally appointed on a temporary basis. The strike was declared suddenly. The employer would be justified under the circumstances to carry on the work of the factory by making all legitimate alternative arrangement, and he would be entitled to engage new hands if necessary. The employer extended repeated invitations to the old employees to come and rejoin work, and even after the formal order of discharge on the 17th May 1948, the door was kept open. Unfortunately, the workers decided to continue the unjustified strike for an inordinately long time. The second reference for adjudication of the dispute regarding the discharge of 27 workmen was made more than seven months after the commencement of this strike. In the intervening period the employer, after having restarted the factory with a lesser number of workers from the 1st June 1948, took the step of filling up all the posts by gradually appointing both new and old employees. The striking employees with whom we are now concerned chose to remain aloof and allow considerable time to pass by making it more and more difficult for the employer to keep the door open for them in case they subsequently decided to rejoin. More than 7 months later, these workers decided to offer their services at a time when it became impossible for the employer to readmit them without discharging many new employees who had practically become fairly old employees by that time. Under circumstances like these it cannot be reasonably argued that a duty was cast on the employer to readmit these striking employees at that stage. I therefore come to the conclusion that in the present case there will be no order directing the employer to allow the workers concerned to resume their work. The question of compensation for the period of unemployment subsequent to the date of strike being called off, or of compensation on any other basis may however be legitimately considered. I therefore decide to expand issue No. 2 by adding another question on the following lines:—"Should any compensation be paid to the workers named in list 'B'? If so, on what lines?" I propose to consider the question of compensation on the merits of each individual case in a latter portion of this Award.

Issue No. 3:

observations made in paragraph 5 above. I strike which commenced on 23rd April 1948 is legal but it was not justified. The duration of the strike was from 23rd April 1948 to about 23 November 1948. No wages and allowances are to be paid to the workers named in list "A" for the period of strike. I decide issue No. 1 accordingly.

Issue No. 2.

8. I next take up the questions under issue No. 2 in the light of the observations I have already made in paragraph 6 above. Under the circumstances already discussed it is not necessary to answer the question as to whether the discharge ordered on 17th May 1948, in respect of the workers named in list "B" was legal or justified. I have already indicated that there was no "lock-out" with effect from 17th May 1948. The "lock-out" may be said to have commenced from about the 30th November 1948, and this "lock-out" was technically illegal. But in the particular circumstances a grave view can be taken of this technical illegality. I have already come to the conclusion that the workers concerned cannot at the present stage be thrust on the Company which will not therefore be directed to allow the workers to resume the duties. It is neither practicable nor necessary under the circumstances to determine the period of the lock-out, and I do not think there should be an order for payment of the wages and allowances for the period of the lock-out as such. In paragraph 6 I have indicated that issue No. 2 is to be expanded by adding a question about an award of compensation on general lines. It is noticed that under the first Award provision was made for one month's notice or compensation in respect of discharged monthly paid workers and 7 days' notice or compensation in respect of discharged daily-rated workers. I do not say that the circumstances of the present case bring it on a level with cases of retrenchment or discharge for justifiable reasons. But the workers who went on strike under circumstances of excitement and a few months later expressed their willingness to rejoin work only to find that the Company was no longer in a position to re-admit them deserve some amount of sympathy, and in my opinion they should be paid small amounts of compensation which are not necessarily be linked with the periods of notice provided for under the first Award, which should not be less than the compensation which would be available under the first Award in respect of discharged employees under circumstances of retrenchment. In assessing the compensation in the present case I propose to take into account the length of service of each employee to some extent. Most of the employees concerned under list "B" appear to be daily-rated workers and a large majority of them appear to have served for less than one year, although under the first Award all of them became permanent employees at the time of the commencement of the strike so far as all completed more than three months' service. I propose to assess the compensation as follows:—For those who have served for five years or more, I propose to make the compensation equivalent to the emoluments for three months. For monthly paid employees the compensation should be less than the emoluments for one month. Regarding daily-rated workers, the monthly amount should be taken as equivalent to the wages multiplied by 26 plus the dearness allowance. As regards daily-rated workers who have served for one year and a half or less but more than one year at one month's emolument, and for those who have served for less than one year and a half but less than three months at one month's emolument for one month and a half, and for those who have served for less than one year at half month's emolument.

1) Before I proceed to set forth the chart of the amounts of compensation to be awarded to the different workers under list "B" it is necessary to consider the objections which have been put forward in respect of some of them. As regards Nirmal K. Bose, it appears from the documents filed that he moved the company under the Payment of Wages Act for recovery of his dues and after having laid a claim for salary for one month, he eventually withdrew the case and abandoned the extra compensation. Inasmuch as the matter regarding Nirmal K. Bose appears to have been amicably settled on which was considered to be satisfactory by all parties, I do not think it will be proper to consider any question of additional compensation in respect of this employee. As regards K. Konnar, it appears that he took about a month's leave from the end of March and was due to return towards the end of the first week of April but he failed to return to duty on the expiry of his leave and did not care to apply for extension of leave. He never reported himself for duty during the strike. In so far as he overstayed his leave and did not care to apply for extension of leave already granted it is not unreasonable to say that he abandoned his job substantially at the commencement of the strike. Under the circumstances no question of compensation arises in the case of Bimal K. Konnar. As regards Ramjatan Kauri, it appears that he rejoined on 1st June 1948 but he left his job again in June 1948 and went home and has not communicated with his employers so far. This is to be a case of abandonment of service, and it is unlikely that if he cares to approach his employers again for re-admission in service, his application will be favourably considered. Under these circumstances no question of compensation need be considered in the case of Ramjatan Kauri. As regards Rangalal Mahato, it appears that he is now in the service of the Company with effect from 3rd January 1949. As he has already been re-employed no question of compensation arises in his case. As regards Chittaranjan and Panchanan Paul, the Company's contention is that they received their pay up to the day before the commencement of the strike and acknowledged receipt signifying a full and final settlement. The words "full and final settlement" by themselves do not indicate the real nature of the settlement. It appears that Chittaranjan Nag and Panchanan Paul were not paid even the additional remuneration up to the last day of service which is admissible under the first Award. That additional remuneration must now be paid. From that I do not see any reason for awarding Chittaranjan Nag and Panchanan Paul amounts of compensation which I am going to award in respect of the other workers. As regards S. C. Nandy (S. K. Nandy), Sotyesh K. Mukherji, and Ram Lakhan Ahir who are said to be indebted to the Company in various sums prior to the strike no evidence has been produced by the Company to establish the extent of alleged indebtedness. That being the case I am unable to attach much importance to the theory of indebtedness so far as these three workers are concerned. As regards the workers numbered 54 to 60 in list "B", the Company's contention is that they were never in service at any time, and the Union's case is that they served temporarily for a short time. The pay sheets and registers produced by the Company do not show that these 7 persons worked under this Award at any time. I have, therefore, come to the conclusion that the persons numbered 54 to 60 in list "B" should be thrown out of consideration. I now proceed to set forth the chart of the names of the workers.

terms of emoluments for so many months and the amount of total monthly emolument as admissible under the first Award. The amounts of compensation shall be calculated in accordance with the scales under the first Award set forth below. It is directed that the amount of compensation awarded in respect of each of the employees concerned together with all emoluments due under the First Award or otherwise for the period actually worked shall be paid by the Company within six weeks from the date of publication of this Award:—

Name of worker.	Compensation equivalent to emolument for—	Monthly employment.
1	2	3
Sotyesh K. Mukherji ..	3 months ..	Rs. 65/8 + D.A. Rs. 25.
Balaram Santra ..	1 month ..	Rs. 102/8 + D.A. Rs. 25.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And

Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other person. These are domestic matters and therefore, leave the matter outside adjudication.

person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) *Retiring age.*

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

The matter of reference No. 135Lab., dated the 7th January 1948, of the Government of West Bengal, Labour Department, and in the matter of industrial disputes between the employers and the clerical and subordinate staffs in the office of Messrs. AWARD.

Constitution of the Tribunal and Reference.

The Tribunal with Sri A. Das Gupta as Chairman and Sri S. C. Chakrabartty and Sri S. C. Dutta as members was constituted by the Government of West Bengal (Labour Department) under sections 7 and 10 of the Industrial Disputes Act, 1947 by order No. 135Lab., dated the 17th January 1948 to adjudicate upon the industrial disputes between 267 mercantile firms in Calcutta and the clerical and subordinate staffs in their office, of which the firm of Messrs. J. D. Jones is one.

Sri S. C. Dutta Gupta had been absent, and as his services were no longer available, the disputes between the subject-matter of the present award were heard by the Chairman and the other member at.

It was decided in the earlier cases that we could not deal with the different firms separately. To this we still adhere.

Appearance at the hearing.

By the employers.—Nil.

By the employees.—Sri P. K. Ghosh of the Federation of Mercantile Employees' Unions.

One appeared for the employers at the hearing. We are told by the representative of the employees that the office is at present manned by a Superintendent, five clerks and three menials. He also told us the length of service and the salary of each member of the clerical staff. As to salary of this firm, we are told, are not any dearness allowance. The office is a very small one and we do not propose to lay down any scheme of grades and rates of pay as we have in other cases. We fix the salary of the employees having regard to the nature of his job and length of his service.

clerical staff shall get dearness allowance according to the Bengal Chamber of Commerce scheme. The details are given below:—

Name of clerk and nature of his job and length of service	Present pay.	Monthly pay with effect from the date of enforcement of the award.	Annual increment.	Dearness allowance with effect from the date of enforcement of the award
	Rs.	Rs.	Rs.	
Rama Prasad, Storekeeper—20 years.	95	130	5	Bengal Chamber of Commerce.
Kalasona Chatterji, Bill Clerk—18 years.	100	120	5	Ditto.
Probodh Ch. Sarkar, Accounts Clerk—Appointment August 1942.	70	90	4	Ditto.
Amarendra Nath Roy, Cashier and Accountant—1945.	200	210	10	Ditto.
Atindra Lal Ghosh, Dastidar—Appointed this year.	80	80	4	Ditto.

The present basic salary of the menials vary from Rs. 30 to Rs. 42. So far as their basic salary is concerned, no interference is called for. They shall get annual increment of Re. 1 subject to a maximum of Rs. 45 for a Jamadar and Rs. 40 for others. They shall get dearness allowance of Rs. 30 per month. For future recruits, the basic salary shall not be less than Rs. 30 and dearness allowance shall be payable at the fixed rate of Rs. 30.

Bonus.

We are told that the Company allowed two months' basic salary as bonus in the past. As no one appeared for the employers, we had not the opportunity to get the assurance which the mercantile firms in general have given, namely, that they have no present intention to discontinue the practice. We may only hope that the employers of the present firm will not lag behind. Since the mercantile firms in general gave the assurance, a bonus to defray the additional expenses during the Pujah has become customary with them. The Federation of Mercantile Employees' Unions demanded profit-sharing bonus only and that demand having been subsequently withdrawn, we are not in a position to give any definite direction about bonus. We may only hope that the Company will give the employees at least one month's basic salary to the employees as bonus before the Pujah, if the trade conditions do not substantially deteriorate.

Benefits on retirement or termination of service.

The Company have no scheme. We lay down a gratuity scheme in the following lines:—

- (1) The clerks shall be paid one month's basic salary for each completed year of service subject to a maximum of 15 months' salary.
- (2) The menials shall be paid gratuity at half the above rate.
- (3) In case of death or retirement due to old age or ill-health or retrenchment, the entire amount of gratuity shall be paid to the legal heir of the employee or to the employee as the case may be.
- (4) On voluntary resignation by an employee, he shall be paid according to the following scale:—
 - (i) Up to 3 years' service—Nil.
 - (ii) Above 3 years' but below 6 years' service—25 per cent. of the gratuity earned.
 - (iii) Above 6 years but below 10 years' service—50 per cent. of the gratuity earned.

- (iv) Above 10 years but below 15 years' service—75 per cent. of the gratuity earned.
- (r) 15 years' service and above—Entire amount of the gratuity earned.
- (5) An employee dismissed for misconduct shall not get anything.

Working hours, holidays, leave and overtime allowance.

- (1) *Working hours*—For clerks.—10 a.m. to 5 p.m. with half hour's recess from Monday to Friday and 10 a.m. to 1-30 p.m. on Saturday without recess.

For menials.—44 hours in a week. Hours of attendance shall be settled by the employers.

- (2) *Holidays*.—All holidays under Negotiable Instruments Act shall be observed.
- (3) *Leave and overtime allowance*.—According to the Shops and Establishments Act.

Travelling allowance.

Travelling allowance shall be paid for journeys performed in course of duty. No travelling allowance shall be given to employees for journeys on leave.

Tiffin, canteen and children's education facilities.

The demands of the employees on these points are refused.

Accommodation allowance.

In fixing the basic salary and dearness allowance, accommodation allowance had been taken into account. We accordingly do not propose to award any allowance for accommodation separately.

Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And

Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then

a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. However, he is found guilty the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to present about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then order. If that authority be other than the head of the concern at Calcutta, an appeal shall likewise lie with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be before the head of the concern at Calcutta who will hear the person proceeded against and then order. The clerk proceeded against shall always have the right to be defended by any employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of service and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completion of 55 years. We do not favour extension of service thereby blocking the way for younger people to get employments. In exceptional cases where the employer and the employee agree, extension of services may be granted.

Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different duties. The Federation wants that there should not be any such transfer. We feel, however, that transfer is necessary for two purposes: (1) to enable a particular clerk know work of the various departments; and (2) for stock-taking of arrears of one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference shall be given to relations of employees, retired employees, service. Between relations of employees, appointment shall go to the more qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruit may be made from outside.

Now comes the question of promotion from clerk to the Officer's Grade. We are of the opinion that there shall be no bar to promotion from the Officer's Grade or from the Officer's Grade or from the Officer's Grade. As selection

on the management, we cannot dictate that in percentage of certain number of clerks be promoted to the Officer's Grade. This depends on suitability according to the need of the management. We, however, like and that such promotions do change the output of the clerk and are conducive to more work by the clerical staff.

Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of and is not an industrial dispute within the purview of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Medical aid.

It is the duty of the State except so far as any contracts any occupational disease. There is no suggestion that there is any such risk in the works of this firm. Besides, there is no reason that the employees of this firm have not availed of the opportunity which others have to avail themselves of the medical facilities arranged by the management. We accordingly reject this demand of the employees.

Uniforms and umbrellas for menials.

Uniforms shall be supplied to menials on duty. Umbrellas shall also be given umbrellas for outdoor work.

AWARD.**Issues Nos. 1 and 2.—Pay and dearness allowance.***For clerical staff.*

We prescribe the following grades for the clerical staff:—

C Grade—Rs. 70—4—134.

B Grade—Rs. 110—7—180.

A Grade—Rs. 160—10—260.

Special Grade—Rs. 260—15—335.

Outdoor clerks—Rs. 65—4—133.

Probationers will get the minimum of the grade to which he is appointed and the stenographers proper will not go below B Grade.

All clerks will get a flat increment of Rs. 10. If after this the salary of anybody does not fall in any stage of the time-scale, he shall be placed at the next higher stop.

The clerks shall draw dearness allowance according to the Bengal Chamber of Commerce scale.

For subordinate staff.

We fix the following grade—

Rs. 30—1—40—(E.B.)—1—50.

Our idea had been that the minimum pay shall not be less than Rs. 30 and the normal dearness allowance should not be below Rs. 30. The basic salaries given had been below Rs. 30 in most of the cases and the dearness allowance had been disproportionately high. To bring the subordinate staff within the grade, it will be necessary to give increments in the basic salary. We direct that to bring the minimum to Rs. 30 a flat increment of Rs. 13 be given to all. We direct that the amount of increase so given shall be deducted from the dearness allowance. The total emoluments as at present shall remain undisturbed.

The Company allowed some non-rationed articles at cheap rates to clerks as also to subordinate staff. This shall be stopped with the clerical staff and so far as the subordinate staff is concerned, it shall be discretionary as before. We have allowed fair wages without taking these into consideration.

Issue No. 3.—Retiring benefits and benefits on termination of service.

For the clerical staff there is a 6½ per cent. Contributory Provident Fund and in addition some *ex gratia* payments are made to old employees. Subordinate staff are not admitted to the Provident Fund Scheme and they are paid some gratuities. We make the following award on this point:—

For clerks.

Provident Fund contribution be raised to 10 per cent. from both sides. To make up the deficiency for the earlier period we provide for gratuity at the rate of half a month's salary for each year of service prior to the raising of the Provident Fund contribution to 10 per cent. This amount shall be paid when the Provident Fund money shall be paid. For the purpose of calculation the salary be that which is drawn on the day preceding the enforcement of the award.

Pension or any other payment must be discretionary and cannot be claimed as of right.

Subordinate staff.

For them a 6½ per cent. Contributory Provident Fund be started and for past services they shall get gratuity calculated at half month's salary for each completed year of continuous service

subject to a maximum of 15 months' salary before the enforcement of this award shall salary. The amount shall be paid when the Provident Fund money shall become payable.

Issue No. 4.—Bonus.

The Company had been paying a month's as Puja bonus which is not proposed to be drawn. In the circumstances, we leave the outside adjudication.

Issue No. 5.—Canteen and time.

According to our scheme of the award were in the nature of *ex gratia* advantages. The Company had been providing tea and twice daily to the clerical staff and once to the subordinate staff. We appreciate very much the view of the Company not to make any

Issues Nos. 6 and 7.—Accommodation and children's education facilities.

The claims under these heads are disallowed.

Issue No. 8.—Medical aid.

The Company maintains a dispensary office and a qualified doctor attends there. He gives advice free of charge and the Company pays for medicines, etc., which he orders. The Company does not provide for treatment in homes of the staff. In case of tuberculosis, the Company pays all expenses of the patient. According to our scheme of the award these concessions are discretionary and we do appreciate the attitude of the Company that does not want to change. We do place on record our high appreciation for the facilities given for persons afflicted with tuberculosis.

Issue No. 9.—Working hours and holidays overtime.

We award as follows:—

Working hours.—For clerical staff.—10 a.m. to 5 p.m. with half-an-hour's recess for tiffin and on Saturdays from 10 a.m. to 2 p.m.

Subordinate staff.—44 hours in the week to be adjusted by the Company.

Holidays.—All holidays under the National Instruments Act be observed as holidays.

Overtime.—Weekdays and Saturday member of the clerical or subordinate staff required, on direct instructions of the Officer-in-charge of the department concerned be paid at 1½ times his hourly basic pay for hour or part of an hour worked after and from 5 p.m. on weekdays and 2 p.m. on Saturday. For the purposes of this arrangement, hourly pay will be the individual's monthly basic pay divided by 160, being the average monthly hours.

Sundays and holidays.—Any member of clerical or subordinate staff required, on instructions from the Officer-in-charge of the department concerned, to work on a Sunday or recognised holiday to be paid 1½ times his basic pay, calculated as above, but subject to a minimum of three hours, basic pay and a maximum of six hours' work.

Issue No. 10.—Leave.

The Company proposes the leave facilities hereinafter noted and the employees accept. We award accordingly:—

Clerical staff.

Annual leave.—(a) Those with 10 years' service.—14 days' annually cumulative leave.

those with 10 years' service and over—28 annually, cumulative up to 56 days.

(b) *Service record.*

award that service records be maintained that adverse remarks shall be incorporated giving the person an opportunity of explaining his conduct.

(c) *Enquiry before punishment: And*

No. 14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last in, first out" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right punishing an employee, but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the date on which this is based. The person proceeded against shall submit his explanation. Then a date should be fixed for the matter to be taken into. If the person proceeded against is innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee shall get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority shall hear the person again and then pass orders. If the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority shall hear the person again and then pass orders. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie against his order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority shall hear the person again and then pass orders. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie against his order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority shall hear the person again and then pass orders.

cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) *Retiring age.*

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

AWARD.

By Government of West Bengal, Labour Department, order No. 2625Lab., dated the 28th May 1949, this industrial dispute between the Aluminium Corporation of India, Ltd., post office Jaykaynagar, district Burdwan, and their workmen represented by the Aluminium Workers' Union, post office Jaykaynagar, district Burdwan, has been referred to me as an Industrial Tribunal for adjudication. Prior to this an industrial dispute between the same parties, with regard to several questions of a general nature, was adjudicated upon by another Tribunal, namely, Sri S. C. Chakravarty, Additional District Judge, and that Tribunal's Award was published in the *Calcutta Gazette* of the 3rd February 1949, by Government of West Bengal order No. 377Lab., dated the 28th January 1949. In the factory of this Corporation the initial processes relate to the manufacture of alumina powder from bauxite ore. After that aluminium is extracted from alumina powder (aluminium oxide) by electrolytic process in the Cell House which is the subject-matter of the dispute which has been referred to this Tribunal. The electrolytic process is required to be continuous and any interruption for even a short period in this process is likely to cause irreparable damage to the cells. Essential processes carried on in the Cell House include periodic raising of what are known as short bars, feeding alumina, breaking the crust and raking the bottom of the cells. The aluminium metal manufactured in the cells of the Cell House is made into ingots. These aluminium ingots are made into aluminium

sheets which are eventually used for manufacture of utensils of various description. The whole process from the treatment of bauxite ore to the manufacture of aluminium and utensils is carried on in this factory. workers in the Cell House where the electrolytic process is carried on have to perform an extremely responsible task, and they obviously hold a key position in the whole factory. If the Cell House is closed the result will be that no aluminium will be manufactured and the other section of the factory will be at a standstill for want of raw material. The Company's case with regard to the present dispute is that even after the Award given by the Industrial Tribunal the workers in the Cell House have created trouble by adopting "go-slow" tactics and a policy of sabotaging the work of the Cell House. It is alleged by the Company that the workers began to refuse, in particular, to raise the short bars, and the cells in the Cell House were in danger of being destroyed inasmuch as the electrolytic process was carried on with great precision as regards timings in respect of different operations. The workers concerned systematically refused to work in accordance with orders, and the Cell House was exposed to the danger of destruction. The Company had no alternative but to close the Cell House and discharge the workers on the 16th March 1949. It appears that some workers also discharged both before and after the date of the statement filed by the Company. That on the 16th March 85 workers of the Cell House were discharged, and the present dispute relates, strictly speaking, to those workers. The case put forward by the Union is that the Company improperly reduced the number of workers in the Cell House to a great extent. The reduction was effected by way of discharge and transfer. It is further alleged by the Union that the Company refused to employ substitute workers who were absent on leave or on account of sickness. The Union's case is that in effect a reduction in the number of workers in the Cell House in this manner the Company did not comply with the Award given by the Industrial Tribunal, and there is no substance in the Company's allegation that the workers adopted "go-slow" tactics or any policy of sabotaging work in the Cell House. According to the Union the discharge of all workers in the Cell House was unjustified. The Government order of reference has set forth a schedule specifying the questions involved in the present dispute. In the light of this order of reference and the statements of the respective parties and of the discussion leading thereto the following issues have been framed:—

- (1) Was the discharge of workers in the Cell House of the Company on the 16th March 1949 justified?
- (2) If not, should the discharged workers be reinstated and are they entitled to compensation for the period of unemployment? If so, on what lines?

The following points, among others, were considered under issue No. (1):—

- (a) Were the number and category of workers in the Cell House in accordance with the Award of Sri S. C. Chakravarty?
- (b) Did the workers adopt go slow tactics or an illegal strike just before the Cell House was shut down?

2. In course of the preliminary discussion the parties it became apparent that it was necessary for me to visit the factory and see the Cell House for myself. It also appeared that for the decision of the issues the examination of witnesses on both sides was necessary. It would be more convenient

ned if I held the investigation on the spot. I decided to proceed to the place for local investigation and for the hearing of the case. I went at Jaykaynagar on the 7th July 1949, and, as I understood, would be convenient to the parties concerned. On the afternoon of the 7th there was a preliminary sitting. Apart from the representatives of the Company and of the Workers' Union, two labour leaders, namely, Sibnath Banerjee and Sri J. N. Mitra, who were connected with the Workers' Union, filed an application on behalf of the five specific sections and this application was kept with the representatives of the Company and of the Workers' Union and by the gentlemen referred to I went round the factory and some other sections of the factory, the processes of working of the Cell House, particularly, were explained to me in detail by private spokesmen. That evening it was decided to hold the Tribunal's next sitting at 8 a.m. on the 8th July. Accordingly the Tribunal sat at 8-30 a.m. on the 8th. Sri Sibnath Banerjee and Sri J. N. Mitra were also present and they filed a petition signed by a large number of workers asking for being represented by them. It appeared that the workers desiring to be represented by Sri Banerjee and Sri Mitra belonged to the group of the existing workers in the factory. It may be mentioned here that many workers in the sections other than the Cell House were on strike, while the workers in the Cell House had been discharged by the Company. The Company was, however, running the factory by employing some new recruits for some of the cells in the Cell House, and continuing to employ some of the non-striking workers in other sections. It appeared that there was a cleavage between the group of existing workers and the group of strikers and discharged workers. Sri Sibnath Banerjee and Sri J. N. Mitra claimed to represent some of the existing workers. The Government order of reference specified only the Aluminium Workers' Union, office Jaykaynagar, to represent the workmen, the right of Sri Banerjee and Sri Mitra to represent the workers or any group of them was quite clear. After some amount of discussion leading to the objection raised by the Workers' Union as to the status of Sri Banerjee and Sri Mitra to represent any group of workers in the proceedings they expressed that they came to watch the proceedings as observers. I felt in the interest of lasting industrial peace in the concern it was expedient to give Sri Banerjee and Sri Mitra facilities for watching the proceedings as observers, and it was unnecessary to take any decision on the point as to whether they had any right to take part in the proceedings. I felt the feeling that the co-operation of Sri Banerjee and Sri Mitra as observers would be very beneficial in the matter of bringing about industrial peace of a lasting character in the factory, and they were accordingly allowed to attend the proceedings as observers and to extend their co-operation as they were capable of. Efforts were made from before 8-30 a.m. in the morning of the 8th July to enable the parties to reach an agreement regarding the points in dispute. It was found at about 10-45 a.m. that more time would be required for mutual consultation. Accordingly the sitting was adjourned till 3 p.m. in the afternoon. I utilised the time up to 12 noon in going round several sections of the factory and watching the work being actually done. The Tribunal sat again at about 3 p.m. and the representatives of the Company and those of the Workers' Union. The proposed terms of settlement were discussed at great length and changes in the preliminary draft were made. Later Sri Sibnath Banerjee and Sri J. N. Mitra were allowed to take the part of the workers who were called separately in the schedule of the Tribunal.

Workers' Union, and the terms agreed upon by the Company and the Workers' Union were discussed with them and after prolonged discussion they were induced, in the interest of lasting industrial peace, not to raise any objection to the terms settled. Then the representatives of the Company and of the Workers' Union came in and the final draft of the terms of settlement was adopted to the satisfaction of all parties concerned. This happened at about 8 p.m. in the night. The direction was that fair copies of the draft were to be signed next morning. The Tribunal sat again at 8 a.m. on the morning of 9th July. Sri Banerjee and Sri Mitra were no longer present and it was reported that they had left the place. Fair copies of the finally adopted terms of settlement were signed in my presence on behalf of the Company and of the Workers' Union. The petition incorporating the terms of settlement is reproduced below:—

To the Tribunal under Industrial Disputes Act (8. N. Modak, Esq., Retired I.C.S.).

In the matter of an industrial dispute between the Aluminium Corporation of India, Ltd., and their workmen represented by Aluminium Workers' Union.

The humble petition of the parties above most respectfully sheweth:—

(1) The Union asks for reinstatement of all employees discharged in connection with the Cell House dispute or the strike inclusive of those who had been discharged immediately before and after the 16th March 1949.

The Company points out that there is a certain amount of opinion against having all the workers back, especially those who are implicated in criminal cases and who have been interned or externed. Their names are submitted as per list enclosed. The Company, however, is willing to place the matter entirely at the discretion of the Judge.

(2) The Union submits that some compensation in the form of *ex gratia* payment should be paid to the strikers and the discharged employees at the rate of 25 per cent. of their wages including D. F. A. lost during this period, i.e., from the date of discharge or strike as the case may be, to this date. The Company does not agree to such proposals, but leaves the matter at the discretion of the Judge.

(3) The Company insists that the Union must give an undertaking that 40 cells should be run on the strength of the workers as given in the Award of Sri S. C. Chakravarty. The Union agrees to abide by the Award but requests that a Production Bonus Scheme may be introduced for the workers of Cell House in consultation with the President of the Union, Mr. M. John, at a subsequent stage for the smooth working of the Cell House. The Company agrees to discuss this with Mr. John as proposed.

(4) The Company submits that the matters as indicated in the paragraphs (1) and (2) hereinbefore, being left to the discretion of the Judge, the Union must agree to withdraw the strike, with effect from this day and the Company agrees to take back all the employees discharged or on strike except those mentioned in the list under paragraph (1).

(5) To afford time to the workers to resume work who are out of station a period of 3 weeks is given.

(6) As to the remaining demands as submitted by the Union in the strike notice which are not issues before the present Tribunal the management agrees to discuss with Mr. John with a view to settle them.

Under the circumstances both the parties agree that on the withdrawal of the strike your honour will be pleased to settle the dispute as stated above and to give your Award accordingly.

For Aluminium Corporation of India, Ltd.

S. C. JAIN,
General Manager.

M. JOHN,
President of the Aluminium Workers' Union.

Dated 9th July 1949.

3. The second part of paragraph (1) of the petition of settlement states as follows:—"The Company points out that there is a certain amount of opinion against having all the workers back, especially those who are implicated in criminal cases and who have been interned or externed. Their names are submitted as per list enclosed. The Company, however, is willing to place the matter entirely at the discretion of the Judge". In pursuance of this clause of the agreement I arranged to meet the Additional Superintendent of Police, Asansol, and the Officer-in-charge of the Raniganj police-station at 10 a.m. on the 9th July and discussed with them the details of the criminal cases pending against some of the workers. As further details were found to be necessary, it was agreed by the police officers that copies of the First Information Reports together with further details regarding the results of police investigation would be sent to me in the evening. I subsequently received the necessary papers from the Officer-in-charge of Raniganj police-station in the evening on the 9th July. I left the locality on the morning of the 10th July. The following list of persons implicated in criminal cases in connection with paragraph (1) of the petition of settlement was submitted in course of the proceedings:—

(1) Chhabila Ahir, (2) Jamaluddin, (3) Mohd. Halim, (4) Sant Ram, (5) Ganga Ram, (6) Gopal Chaubey, (7) Ram Rup, (8) Brij Mohan, (9) Biswanath Misra, (10) B. B. Das, (11) Joardar, (12) S. Mukherjee, (13) S. L. Moitra, (14) Indrasan, (15) Routh Roy, (16) Biren Paul, (17) Kundoo, (18) Mojilal, (19) Seo Prasad, (20) N. L. Rayan, (21) Parameshwar, (22) Asgar Ali, (23) Ramanand Singh, (24) Jhagru, (25) Nathuni, (26) Ram Chander, (27) Kailash, (28) Munnial, (29) Abdul Aziz, (30) Noor Alam, (31) Rafiuddin, (32) Mohd. Idris, (33) Saudagar, (34) Sitaram, (35) Shamal Singh, (36) Ramnath, (37) Rameswar, (38) Ram Bahadur, (39) Sital Sharma.

It is noticeable that out of these No. (23) Ramanand Singh was not a worker in this factory. So this Tribunal is really concerned with 38 persons in the matter of coming to a decision as regards the latter portion of paragraph (1) of the petition of settlement.

4. It will be noticed that the petition incorporating the terms of settlement filed by both parties involves certain matters which are not within the scope of the present reference which relates exclusively to the question of workers of the Cell House discharged on the 16th March 1949. The reference obviously does not relate even to the workers of the Cell House who were discharged either before or after the 16th March 1949. Similarly the reference does not relate to

the question of workers of other sections factory who had gone on strike. This Tribunal is competent to give an Award only in of those matters which come within the of the present reference and can be said within the limits of the issues framed present proceeding. As regards other which do not strictly come within the of the present reference, this Tribunal can note of the terms of settlement agreed u the parties and can only make recommenda the effect that those terms be given effect the respective parties. I propose to foll issues actually framed in the present pro and give decisions as regards those issues be necessary and make an Award incor those decisions. As regards other involved in the terms of settlement wh not come within the purview of the issu ed, I propose to make recommendations fr implemented by the parties in accordanc their agreement. Issue No. (1) deals w question as to whether the discharge of in the Cell House of the Company on th March 1949 was justified. In view of th of settlement agreed upon by the parties i necessary to decide this issue and I refr giving any decision on the point. As Issue No. (2) relating to the questions of r ment and compensation in respect of the discharged on the 16th March 1949, I paragraphs (1) and (2) of the terms of set The Union has asked for reinstatement employees discharged in connection with House on the 16th March 1949, and the C has no particular objection to the propo reinstatement except that the cases o workers included in the list of 38 worker- cated in criminal cases involving violence and theft have been left at the d of this Tribunal. I have carefully e the position regarding the 38 workers n the list, as mentioned in the precedin graph, with reference to the different cases which are pending against them probable that most of the decisions whic about to make in respect of these 38 wo not apply to the category of workers of House discharged on the 16th March 19 alone come strictly within the purview present reference. I have, however, th convenient to decide the questions with r these 38 workers, as per the latter part graph (1) of the petition of settlement, c all, and I declare, by way of direct recommendations as the case may be, th decisions will govern the entire range matter. It is noticeable that incid physical violence resulting in severe inj some cases together with isolated acts of money or other articles in some cas place in connection with picketing indulged in by strikers or discharged There is not doubt that considerable ex was prevailing and some of the strikers charged persons might have lost their and indulged in excesses which should taken place. The list of 38 workers see rather heavy, and as regards the que reinstatement or of compensation some di tion should be made between persons w repeatedly indulging in these acts of and others who appeared to have taken solitary individual cases. At the mon the time criminal cases are pending for the criminal courts concerned. I do not necessary for this Tribunal to wait for t of each trial. I have examined for my the First Information Reports and the re the basis of which charge-sheets have be submitted to the police in most of the cas Mr. John, I shall attach some im

versions of the different complainants implicating different persons in the respective crimes. I do not propose to withhold an order of reinstatement in respect of any one who has been specifically mentioned in at least two Information Reports, unless there are aggravating circumstances in existence. Of the 38 workers named in the list I find the following six persons have been specifically mentioned by the respective complainants more than one First Information Report or are additional aggravating circumstances in respect of them:—

Mohd. Halim mentioned in the First Information Reports in the cases of Dhanuk-mission (section 341, I.P.C.), Mahabir Misra (sections 147, 379, I.P.C.), S. C. Majumdar (sections 395, I.P.C.), Brahmadeo (sections 147, I.P.C.), and additional circumstance being Mohd. Halim has been externed from Burdwan district.

Ram Rup mentioned in the First Information Reports in the cases of S. C. Majumdar (sections 395, I.P.C.), Brahmadeo (sections 147, I.P.C.), Mahabir Misra (sections 147, 379, I.P.C.).

Brij Mohan mentioned in the First Information Reports in the cases of R. C. Sharma (sections 395, I.P.C.), Mahabir Misra (sections 379, I.P.C.).

Bishwanath Misra mentioned in the First Information Reports in the cases of Mahabir Misra (sections 147, 379, I.P.C.), R. C. Sharma (sections 395, I.P.C.).

Rafuddin mentioned in the First Information Reports in the cases of Brahmadeo (sections 379, I.P.C.), Jogeswar (sections 147, 325, I.P.C.).

Mohd. Idris mentioned in the First Information Report in the case of Brahmadeo (sections 379, I.P.C.), an additional circumstance being that he has been externed from Burdwan district.

I decide that with regard to these six persons there can be no order of reinstatement or compensation, irrespective of the result of the respective criminal trials in respect of them. As for the remaining 32 workers there is *prima facie* evidence regarding acts of violence committed by them in connection with picketing strikes, and I decide that these 32 persons may be reinstated and allowed to come back to work on condition that each of them will tender an apology to the aggrieved complainant concerned. With regard to Issue No. (2) framed in the present proceeding on the subject of reinstatement, I direct that the workers of the Cell House discharged on the 16th March 1949 be reinstated subject to the reservation that if any of them happens to be one of the six persons whom I have decided to exclude from reinstatement, he shall be reinstated, and if any of them happens to be one of the remaining 32 workers named in the list as per paragraph (1) of the petition of settlement, he shall be reinstated only on condition that he will tender an oral apology to the aggrieved complainant concerned.

I now come to the question of compensation. Issue No. (2) so far as the workers of the Cell House discharged on the 16th March 1949 are concerned. In this connection I refer to paragraph (2) of the petition of settlement submitted by the parties, which runs as follows:— "That some compensation in the form of an *ex gratia* payment should be paid to the discharged employees at the rate of 25 per cent. of their wages including dear food allowance lost during the period from the date of discharge or from the date of settlement."

be to the 9th July 1949. The Company does not agree to such proposal, but leaves the matter at the discretion of the Judge". So far as the present reference is concerned the relevant workers are the workers of the Cell House discharged on the 16th March 1949. The Union's submission is that compensation in the form of an *ex gratia* payment should be paid to these discharged workers at the rate of 25 per cent. of their wages including dear food allowance lost during the period from the date of discharge to the 9th July 1949. The Company does not formally agree to this proposal and has preferred to leave the matter at the discretion of the Tribunal. In course of the negotiations carried out by me I have felt that the Company would not seriously object to the proposal of the Union as regards the *ex gratia* payment of some compensation on the lines indicated, except that the cases of the 38 workers named in the list as per paragraph (1) of the petition of settlement, against whom there have been allegations of physical violence or theft in connection with the pending criminal cases, may have to be considered on a different footing. As the proposal regarding payment of compensation involves the idea of an *ex gratia* payment, I should refrain from giving any direction on the point and would prefer to make only a recommendation in the belief that the Company would implement the recommendation in accordance with the terms of settlement agreed upon. As regards the 38 workers named in the list referred to, there is *prima facie* evidence to indicate that they took part in acts of physical violence, sometimes of a serious nature, and of theft in connection with their over-enthusiastic picketing activities. I have already indicated the lines on which the reinstatement of such discharged workers as may happen to be within the list will be carried out. As regards the payment of compensation I do not think that any of the 38 workers named in the list deserves it. I accordingly recommend that compensation in the form of an *ex gratia* payment to the extent of 25 per cent. of the wages including dear food allowance lost during the period from the date of discharge up to the 9th July 1949 be paid to each of the workers of the Cell House discharged on the 16th March 1949, subject to the reservation that if any of them happens to be included in the list of 38 workers as per paragraph (1) of the petition of settlement, no compensation is to be paid to such worker. I have thus disposed of the two issues framed in connection with the subject-matter of the present reference.

6. It will now be for me to make a series of recommendations for being implemented by the parties in accordance with the petition of settlement submitted by them. In accordance with paragraph (1) of the terms of settlement I recommend that all employees discharged in connection with the Cell House dispute or the strike other than those workers of the Cell House who were discharged on the 16th March 1949 be reinstated, subject to the reservation that if any of the workers happens to be one of the six workers whom I have decided to exclude from reinstatement as per my decision in paragraph 4 above in connection with the list of 38 workers as per paragraph (1) of the petition of settlement, such worker shall not be reinstated, and if any of the workers happens to be one of the remaining 32 workers named in the list referred to, he will be reinstated on his tendering an oral apology to the aggrieved complainant concerned.

I further recommend, in accordance with paragraph (2) of the terms of settlement; that as regards the strikers and the discharged employees other than the workers of the Cell House discharged on the 16th March 1949, compensation in the form of an *ex gratia* payment to the extent

of 25 per cent. of the wages including dear food allowance lost during the period from the date of discharge or of the commencement of strike as the case may be up to the 9th July 1949 be paid to each such worker, subject to the reservation that if any of them happens to be one of the 38 workers named in the list as per paragraph (1) of the petition of settlement, no compensation is to be paid to him.

With regard to paragraph (3) of the petition of settlement I consider it extremely gratifying to note that the Union has given an undertaking to the effect that 40 cells should be run on the strength of the workers as given in the Award of Sri S. C. Chakravarty, and the Union agrees to abide by the Award generally. This attitude of the Union is indeed commendable, and I shall hope that the same attitude will be scrupulously maintained in the future. I also commend the attitude of the Company in agreeing to discuss with the President of the Union the proposal for introducing a Production Bonus Scheme. I earnestly recommend that the parties will take early steps for carrying out this part of the agreement, and I hope that the discussion will take place in an atmosphere of mutual co-operation and will prove to be fruitful.

In accordance with paragraph (5) of the petition of settlement I direct in cases coming within the scope of the present reference and recommend in other cases that a maximum period of 3 weeks from the date of the agreement be given to the workers who are to be reinstated to enable them to resume their work.

In accordance with paragraph (6) of the petition of settlement I recommend that as regards the remaining demands as submitted by the Union in the strike notice which are not issues before this Tribunal the management will take early steps to initiate the proposed discussion with the President of the Union, and I hope that the results will be fruitful.

7. (One other item in the petition of settlement still remains to be considered, and it is contained in paragraph (4) which runs as follows:—"The Company submits that the matters as indicated in the paragraphs (1) and (2) hereinbefore, being left to the discretion of the Judge, the Union must agree to withdraw the strike with effect from this day (9th July 1949) and the Company agrees to take back all the employees discharged or on strike except those mentioned in the list under paragraph (1)". This part of the agreement is really an outstanding feature of the terms of settlement which were happily arrived at by the parties. It is highly commendable for both the parties that without waiting for the publication of this Tribunal's Award or recommendations the Union agreed to withdraw the strike almost immediately and the Company also agreed to take back the employees discharged or on strike except those mentioned in the list under paragraph (1) of the petition of settlement, whose cases were left to be decided upon by the Tribunal. The prevailing circumstances obviously involved tremendous loss to the Company and great suffering for the workers, and it was obviously most important that the strike should be called off and the workers should be allowed to resume their duties as early as possible. The outcome of the negotiations resulting in the filing of the petition of settlement on the morning of the 9th July 1949 before this Tribunal was particularly satisfactory in so far as both the parties commendably brought to bear a spirit of wholehearted co-operation in the matter of recommending the work of the factory on a level of full strength as quickly as possible. I take the opportunity of reproducing below the correspondence which passed between the President

of the Workers' Union and the Works Manager of the Company on the afternoon of the 9th when I was on the spot:—

JAYKAYNAGAR

July 9th,

No. SMR/2709.

THE PRESIDENT, Aluminium Workers' Union, Jaykaynagar.

DEAR SIR,

We acknowledge with thanks the receipt of letter, dated 9th July, calling off the strike effect from 10th instant.

For the convenience of all concerned, we request you to advise the workers to report for work on and from Monday, the 11th July 1949.

We would also request you to kindly designate a responsible representative on Monday to be present near the factory gate when the workers return to duty.

Thanking you once again.

YOURS FAITHFULLY,

For Aluminium Corporation of India, Ltd.

J. DAS,

Works Manager

It will appear from the above correspondence that the Union decided to call off the strike from the 10th July 1949 and the Company decided to allow the workers to resume their work from Monday, the 11th July 1949, for the convenience of all concerned. I could not wait to return to the locality on the 10th. I believe, however, that the undertakings given by the parties have been strictly and peacefully carried out. This is largely outside the scope of the present reference and I make the direction or recommendation in the case may be that the terms of agreement involved in paragraph (4) of the petition of settlement be carried out by the parties concerned regarding the specific workers numbering 38 in the list as per paragraph (1) of the petition of settlement, I have already given my direction under paragraphs 4 and 6 above, and I make the direction or recommendation as the case may be that those decisions be given effect to.

8. I shall now close with a few remarks. I feel particularly happy although the scope of the present reference is rather limited in character, the agreement arrived at by the parties was of a comprehensive nature and served to put an end to a long-drawn and really distressing situation which very adversely affected the life and progress of one of the industries in this country and inflicted suffering on a vast body of workers. There is no doubt that the very undesirable existence was causing some

ly to the concerns of the workers but also economic life of the country as a whole. It is therefore, of supreme importance to try to effect a salutary change in the situation to the benefit of all concerned. I feel sure that at the parties concerned having commended a reasonable mode of approach to the dispute involved this happy settlement would not come to pass. I am therefore inclined to take the opportunity of highly commending the attitude adopted by both the parties concerned in the settlement of my effort in resolving the long-standing many-sided difficulties involved in the dispute. In view of the noticeable cleavage between a group of existing workers still employed in the factory and the body of strikers and dismissed persons, I considered it to be a measure of expediency, in the interest of a policy of reconciliation between the two groups of workers and for industrial peace, to take into confidence the labour leaders who happened to appear as representatives in the interest of a certain group of workers. I commend their attitude in settling upon the terms of settlement arrived at by the parties on record as satisfactory, and I hope to believe that they have left the place after sowing healthy and fruitful seeds of reconciliation between different groups of workers in the interest of industrial peace. I should like to impress on Mr. John, the President and other officials of the Union and on representatives of the Company, the absolute importance of conducting the affairs of this concern in the spirit of co-operation and mutual goodwill in the interest of the prosperity of both sides. I am sure it will be realised by both sides that it is of utmost importance to nip small difficulties in the bud as soon as they arise, and not to allow differences ever to assume unmanageable proportions. I hope and trust that both the management and labour will now be able to work in an atmosphere of wholehearted co-operation and goodwill in the interest of both and of the country as a whole.

AWARD.**Issues Nos. 1 and 2.—Pay and dearness allowance.
Clerical staff.**

We fix the following grades and scales of pay for the clerical staff:—

Special grade—Rs. 260 and up at the discretion of the Company.

Grade A—Rs. 160—10—260.

Grade B—Rs. 110—7—180.

Grade C—Rs. 70—4—134.

Grade D—Rs. 70—3—130.

Senior typists will go under B grade and junior typists not below C grade.

Stenographers and dictaphone typists will come under B grade.

Each clerk will get an increment of Rs. 10 over the present pay and then adjusted in grades. If the salary of any clerk after the increase does not fall in any stage of the time scale, he shall be placed at the next stage.

The clerks shall get dearness allowance according to the Bengal Chamber of Commerce scales.

Subordinate staff.

There are three grades of subordinate staff. The total emoluments of no one go below Rs. 60. We do not disturb the total emoluments.

The minima as also the maxima of each grade be raised by Rs. 10 and each individual be given an increment of Rs. 10 in basic pay with a corresponding deduction from the dearness allowance.

Issue No. 3.—Retiring benefits and benefits on termination of service.

There is a 5 per cent. Contributory Provident Fund. This be raised to 10 per cent. Contributory Provident Fund for the clerks and to 6½ per cent. for the subordinate staff.

The Provident Fund was started in 1939. To make up for the deficiencies for the past period, we award for the clerks a retiring gratuity at the rate of half month's salary for each year of service up to the raising of the contribution to 10 per cent. calculated on the pay drawn just before the introduction of the award.

Similarly for the subordinate staff we award 7 days' pay for each year of service up to the stage of raising the contribution to 6½ per cent. calculated on the basis of pay drawn just before the enforcement of the award.

The gratuities in both the cases shall be paid when Provident Fund money shall become payable.

Issue No. 4.—Bonus.

The only claim was for profit-sharing bonus which had been abandoned. The Company pays bonus which is called Attendance Bonus. A deduction is made for absence not covered by leave. The bonus is not intended to be withdrawn. We, therefore, leave the matter outside adjudication.

Issue No. 5.—Canteen and tiffin.

According to the scheme of our award these are in the nature of *ex gratia* concessions. A request was made to the Company by the employees to make a grant and the Manager assured to give due consideration to it.

Issues Nos. 6 and 7.—Accommodation allowance and children's education facilities.

The claims under these heads are disallowed.

Issue No. 8.—Medical aid.

This is discretionary with the employer and is left outside adjudication.

Issue No. 9.—Working hours and holidays and overtime.

Working hours.—The existing system will continue.

Holidays.—All holidays under the Negotiable Instruments Act shall be observed as holidays.

Overtime (work on holidays and Sundays).—These shall be paid as under Bengal Shops and Establishments Act.

Issue No. 10.—Leave.

The existing arrangements about privilege sick leave are confirmed. Casual leave be as per Bengal Shops and Establishments Act.

Issue No. 11.—Travelling allowance on leave.

Travelling allowance on leave is disallowed. Adequate travelling allowance shall be paid on duty.

Issue No. 15.—Uniforms and umbrellas for men.

These are and be given for official work.

Issue No. 12.—Service conditions.**(a) Probation and confirmation.**

It is awarded that the period of probation not exceed 6 months though confirmation made earlier if the candidate is found suitable.

(b) Service records.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And**Issue No. 14.—Dismissal, discharge and retirement or other punishments.**

In case of retrenchment the principle of "come, first go" shall be applied. Exception be made in case of persons with exceptional ties.

Now comes the question about dismissal or punishment. The employer has no doubt the right of punishing an employee, but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge be framed and the person proceeded against be furnished with a copy of the charge and facts on which this is based. The person proceeded against shall submit his explanation. A future date should be fixed for the matter enquired into. If the person proceeded against found innocent, the matter ends. If, however, he is found guilty, the employee concerned be supplied with a copy of the findings and punishment proposed to be imposed. The employee will get an opportunity again to plead about punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear the pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall be made with him within seven days of the communication of the order punishing the employee. If the enquiring officer is not competent to inflict punishment, he will forward the proceedings to that authority competent to punish and that authority will hear the person again and then pass the order. If that authority be other than the head of the concern at Calcutta, an appeal shall be made with the head of the concern at Calcutta in cases where the proposed punishment is dismissal or discharge. The papers must be laid before the head of the concern at Calcutta who will consider the matter and then pass the order. The person proceeded against shall have all the rights to be defended by any other employee. These are matters and bringing outside agencies is not allowed. A person may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will allay apprehensions about abrupt termination of service and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completion of 55 years. We do not favour extension of service beyond this age. In exceptional cases, however, extension may be granted.

No. 13.—Recruitment, Promotion, and Transfer.

Transfer means allocation of different work. Federation wants that there should not be any transfer. We feel, however, that transfer of is necessary for two purposes: (1) to make particular clerk know work of the various departments; and (2) for stock-taking of arrears by one particular clerk working in a department for a sufficiently long period. We do not approve of the idea that recruitments be done through the Union or the Federation. The employer will select his own men.

Recruitment.

Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the preference shall go to the more qualified. Preference should be given to retrenched employees, if qualified. In the matter of appointment to the higher grade of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside. When comes the question of promotion from the clerical grade to the Officer's Grade. We award there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must be left to the management, we cannot dictate that a certain percentage or a certain number of clerks be promoted to the Officer's Grade. This must depend on suitability according to the needs of the management. We, however, like to remind that such promotions do change the status of the clerk and are conducive to more efficient work by the clerical staff.

No. 17.—Recognition of the Unions as also Jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of industrial dispute and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Unions are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

AWARD.

A Tribunal with Sri A. Das Gupta as Chairman and Sri S. C. Chakravarty and Sri S. C. Dutta Gupta as members was constituted by the Government of West Bengal (Labour Department) under sections 7 and 10 of the Industrial Disputes Act, 1947, by order No. 135Lab., dated the 17th January 1948, to adjudicate upon the industrial disputes between 267 mercantile firms in Calcutta and the clerical and the subordinate staff in their office, of which the firm of Messrs. India Rubber and Guttapercha and Telegraph Works Co., Ltd., is one.

Sri S. C. Dutta Gupta had been absent, and as his services were no longer available, the disputes which are the subject-matter of the present award were heard by the Chairman and the other member present.

In the earlier cases we decided that we could deal with the different firms separately. To this view, we still adhere.

Appearance at the hearing.

For the employers—Nil.

For the employees—Sri P. K. Ghosh of the Federation of Mercantile Employees' Unions.

No one appeared for the employers. We are told by Sri P. K. Ghosh that the present firm has been taken up by Gladstone Wylie and Co. and Lyall Marshall and Co. (serial Nos. 60 and 102 of list No. 1 annexed to the order of reference) since amalgamated under the style "Gladstone Wylie" and that the present firm has completely merged in the said firm. There being no separate existence of the firm, we do not propose to give any separate award. The award already given for Messrs. Gladstone Lyall and Company shall be binding for the employers and employees of this firm.

কলিকাতা, ৪ঠা মে, ১৯৪৯।

১৯শে মার্চ, ১৯৪৮, তারিখের ৯৯০ (শিক্ষা) নং নির্ধারণ অনুসারে সংযুক্ত কলেজের উন্নতি সাধন এবং পশ্চিম বংগের টোলবিভাগে প্রচলিত সংযুক্ত শিক্ষার ব্যবস্থা ও অনুসরণ সংবন্ধে সরকারকে পরামর্শ দিবার জন্য গঠিত কমিটি যে বিবরণী দাখিল করিয়াছেন তৎসংপর্কে সরকার কর্তৃক গৃহীত সিদ্ধান্ত নিম্নে নির্দিষ্ট হইল :—

১। কমিটি ১২ই জুলাই, ১৯৪৮, তারিখে বিবরণী দাখিল করিয়াছিলেন। বিবরণীটি সরকার কর্তৃক যত্নসহকারে পর্যালোচিত হইয়াছে। এই কমিটির সভাপতি ও সদস্যেরা যে অকুণ্ঠ শ্রম স্বীকার করিয়াছেন এবং যে ঐকান্তিক বত্বের সহিত প্রতিষ্ঠিত ও সারগত বিবরণীটি রচনা করিয়াছেন, তাহার জন্য সরকার তাঁহাদিগকে আন্তরিক ধন্যবাদ জানাইতেছেন।

২। সংযুক্ত কলেজের বিশুবিদ্যালয়ের সংক্রান্ত বিভাগটিকে উঠাইয়া দিবার জন্য কোন কোন ক্ষেত্রে যে মনোভাব দেখা দিয়াছে, কমিটি তাহার সংপূর্ণ বিরোধিতা করিয়াছেন। কমিটি স্থপারিশ করিয়াছেন যে বৎসংভব সত্বর সংযুক্ত কলেজের ছাত্রাবাসের পুনঃপ্রতিষ্ঠা করিতে হইবে এবং বিশুবিদ্যালয়ের পরীক্ষার জন্য বিভিন্ন পাঠ্য বিষয় নির্বাচনের যে সব সুবিধা ছাত্রেরা বর্তমানে কলিকাতার অন্যান্য প্রথম শ্রেণীর কলেজে পাইয়া থাকে, তদনুরূপ সুবিধা যাহাতে সংযুক্ত কলেজেও তাহার পায়, সেই প্রকার ব্যবস্থা করিতে হইবে, কারণ কমিটির মতে এই সকল সুবিধার অভাববশতই বর্তমানে সংযুক্ত কলেজের ছাত্র সংখ্যা হাল পাইয়াছে। সরকার হির করিয়াছেন যে, সংযুক্ত কলেজের বিশুবিদ্যালয়ের সংক্রান্ত বিভাগটিকে অকুণ্ঠ রাখা হইবে এবং কলেজের সংস্কারণ ও ছাত্রাবাস স্থাপনের জন্য যে অতিরিক্ত স্থান-সংকুলানের প্রয়োজন তাহার জন্য ব্যবস্থা অবলম্বিত হইবে। কলেজ ভবনের সংস্কারণ করিয়া অথবা কলেজ সংলগ্ন ভূমিতে নতুন গৃহ নির্মাণ করিয়া কলেজের এই অতিরিক্ত স্থান-সংকুলান করার জন্য কমিটি যে স্থপারিশ করিয়াছেন তাহার দিকে লক্ষ্য রাখিয়া বৎসংভব নীতি কলেজের জন্য প্রয়োজনীয় অতিরিক্ত স্থান-সংকুলানের প্রয়োজনীয় ব্যবস্থা অবলম্বন করা হইতেছে।

৩। কলেজের পাঠ্য বিষয়গুলির শিক্ষাদান ব্যাপারে সংযুক্ত কলেজ এবং প্রেসিডেন্সী কলেজের মধ্যে সহ-যোগিতা সম্ভবপর কিনা, সে সংবন্ধে সরকার বিবেচনা করিতেছেন। এ বিষয়ে সরকারের শেষ সিদ্ধান্ত নীচুই বিজ্ঞাপিত হইবে।

৪। সরকার হির করিয়াছেন যে, সংযুক্ত কলেজের টোলবিভাগে অকুণ্ঠ রাখিতে হইবে। ‘এই বিদ্যালয়ের উচ্চতর শ্রেণীগুলিতে কাব্য বিষয়ে যে পাঠ্য পুস্তক নির্দিষ্ট আছে, তাহা সেই শ্রেণীর ছাত্রদিগের পক্ষে অপেক্ষাকৃত দুরূহ বলিয়া মনে হয়’—কমিটির এই মন্তব্য সংবন্ধে বৎসংভব ব্যবস্থা অবলম্বিত হইবে। ১৯২৩-২৬ সালের কমিটির সিদ্ধান্ত সমর্থন করিয়া এই কমিটি অভিন্ন প্রকার করিয়াছেন যে, এই বিদ্যালয়ের ছাত্রদিগকে আবশ্যিকভাবে সংযুক্তের যে সকল অতিরিক্ত বিশেষ পাঠ্য বিষয়ে শিক্ষা দেওয়া হয় সেগুলি বিশুবিদ্যালয়ের প্রবেশিকা পরীক্ষার ঐচ্ছিক পাঠ্য তালিকার অন্তর্ভুক্ত করিয়া লওয়া উচিত; কারণ, এক্ষণে করিলে এই সকল ছাত্র অতিরিক্ত সংযুক্ত অনুশীলনের জন্য বিশেষ কৃতিত্ব লাভের সুযোগ পাইবে। এই বিষয়টি লইয়া বিশুবিদ্যালয়ের কর্তৃপক্ষের সহিত আলোচনা-আলোচনা করা হইবে।

৫। কতকগুলি নতুন বিষয়ের অধ্যাপনা প্রবর্তিত করিয়া এবং কয়েকজন নতুন অধ্যাপক নিযুক্ত করিয়া সংযুক্ত কলেজের টোলবিভাগ সংস্কারিত করিতে হইবে বলিয়া কমিটি যে স্থপারিশ করিয়াছেন, সরকার তাহা গ্রহণ করিয়াছেন। ইহা ছাড়া বিশুবিদ্যালয়ের আতকোত্তর বিভাগের ছাত্র এবং টোলের ছাত্রদের জন্য একটি আতকোত্তর বিভাগ খুলিতে হইবে—কমিটির এই স্থপারিশও সরকার গ্রহণ করিয়াছেন। কমিটির এই স্থপারিশটি কার্যে পরিণত হইলে উহা সংযুক্ত শিক্ষাকে অনির্দিষ্টভাবে উচ্চতর স্তরে উন্নীত করিয়া দিবে বলিয়াই সরকার মনে করেন। কিন্তু কমিটির বিবরণীর ১৯শ অনুচ্ছেদে টোল ও আতকোত্তর বিভাগ বঙ্গীয় সংযুক্ত সমিতির (এখন হইতে ইহা নাম হইবে বঙ্গীয় সংযুক্ত শিক্ষা পরিষদ) নিয়ন্ত্রণাধীন হইবে বলিয়া যে অভিন্ন জ্ঞাপন করা হইয়াছে, সরকার তাহা গ্রহণ করিতে অস্বীকার। সরকারের অভিন্ন এই যে কলেজ (ইংরাজী বিভাগ) ও টোল—সংযুক্ত কলেজের এই উভয় বিভাগই বর্তমান ব্যবস্থানুযায়ী উক্ত কলেজের অধ্যক্ষের নিয়ন্ত্রণাধীন থাকা উচিত। উক্ত অধ্যক্ষ ইং-সংযুক্ত বিদ্যা পারদর্শী হইবেন এবং উচ্চতর গবেষণাকার্যের পরিচালনায় ও তত্ত্বাবধানে সক্ষম হইবেন।

৬। সরকার হির করিয়াছেন যে সংযুক্ত কলেজের টোলবিভাগে কাব্য, গ্রীক-সংস্কৃত, সাংখ্য-যোগ ও জ্যোতিষ—এই কয়টি বিষয়ে অধ্যাপনা করিবার জন্য চারিজন অধ্যাপক নিয়োগ করা হইবে। ইহাদের নির্দিষ্ট বেতনক্রম হইবে ১৩০—১০১২—১৪০—২০১২—২২০ টাকা। কিন্তু টোলবিভাগে বর্তমানে যে সব অধ্যাপক আছেন, তাঁহারা যে হারে বেতন পাইতেছেন, স্বাভাবিক সেই হারেই বেতন পাইবেন। ভবিষ্যতে যাহারা নিযুক্ত হইবেন তাঁহাবাই এই নতুন হারে বেতন পাইবেন। কমিটির স্থপারিশ অনুসারে সরকার আতকোত্তর বিভাগে চারিজন অধ্যাপক নিযুক্ত করিবার সংকল্প করিয়াছেন। বেদ ও বৈদিক সংস্কৃতি, ব্যাকরণ ও অলঙ্কার শাস্ত্রের প্রক্রিয়া ও তত্ব সহ সংযুক্ত সাহিত্যের বিভিন্ন বিভাগ, ভারতীয় নন্দ নন্দ্র এবং স্মৃতিশাস্ত্র—এই চারিটি বিষয়ের চারিজন অধ্যাপক নিযুক্ত হইবেন। প্রত্যেক অধ্যাপকের অধীনে এক এক জন সহকারী গবেষক ও কয়েকজন অবৈতনিক গবেষণাকারী ছাত্র থাকিবে। এই সকল অধ্যাপক পূর্বে পাঁচ বৎসরের চুক্তিতে নিযুক্ত হইবেন। চুক্তির মেয়াদ উত্তীর্ণ হইলে তাঁহারা পুননিযুক্ত হইতে পারিবেন। তাঁহাদের বেতনের হার বঙ্গীয় উত্তর শিক্ষণ কৃত্যকের (Bengal Senior Educational Service) পদাধিকারী অধ্যাপকবর্গের অনুরূপ হইবে, অর্থাৎ তাঁহাদের বেতনক্রম হইবে ৩০০—৫০১২—৭০০—৭৫১২—১০০০ টাকা। সহকারী গবেষকদের বেতনক্রম হইবে ৭৫—২৫১২—১০০ টাকা। এই সকল সহকারী গবেষক জিল-বৎসরের জন্য নিযুক্ত হইবেন। বিশেষ ক্ষেত্রে এই মেয়াদ বর্ধিত হইতে পারিবে বটে, কিন্তু মোট পাঁচ বৎসরের অধিক হইতে পারিবে না।

৭। কমিটির বিবরণীর ২৮শ ও ২৯শ অনুচ্ছেদে এই স্থপারিশ করা হইয়াছে যে, কতকগুলি সরকারী টোল স্থাপন করিতে হইবে এবং এই সকল টোলে সর্ব প্রকার প্রয়োজনীয় ব্যবস্থা সহ উপযুক্ত সংখ্যক অধ্যাপক থাকিবেন। এইরূপ টোলার মোট সংখ্যা হইবে ১৪। তবে বর্তমানে অবিলম্বে চারিটি টোল (সংযুক্ত কলেজের টোল সহ) স্থাপন করিতে হইবে। কমিটির এই অভিন্ন মন্তব্যের এবং আরও অধিক সংখ্যক সরকারী টোল স্থাপনের প্রত্যাহার নিকটে কয়েকজন প্রতিষ্ঠাবাসী পণ্ডিতের প্রতিকার জানাইয়াছেন যে সংযুক্ত সরকার বিশেষ বিবেচনা করিয়া দেখিয়াছেন। এ সংবন্ধে সরকার এই সিদ্ধান্তে উপনীত হইয়াছেন যে, অবিলম্বে নবরীপে একটি, এবং আধিক ব্যবহার উন্নতি হইলে কাঁথিতে অপর একটি, টোল স্থাপিত হইবে। নবরীপের টোলে কাব্য, ব্যাকরণ, ন্যায় (প্রাচীন ও নব্য), স্মৃতি (প্রাচীন ও নব্য), গ্রীক-সংস্কৃত ও বৈদিক দর্শন এই বিষয়গুলির অধ্যাপনা হইবে। এই টোলে সাতজন অধ্যাপক থাকিবেন, তাঁহাদের মধ্যে একজন হইবেন অধ্যক্ষ। সংযুক্ত কলেজের টোলার অধ্যাপকদের জন্য যে বেতনক্রম (অর্থ ১৭ ১৩০—১০১২—১৪০—২০১২—২২০) নির্দিষ্ট হইয়াছে, এই সকল অধ্যাপকও সেই হারেই বেতন পাইবেন। বিনি অধ্যক্ষ হইবেন, তিনি ৫০০ টাকা অতিরিক্ত ভাতা হিসাবে পাইবেন। কমিটির স্থপারিশ অনুসারে প্রত্যেক নতুন টোলে ইংরাজী, ইতিহাস ও পৌরবিজ্ঞান, ভূগোল এবং গণিতের অধ্যাপনার জন্য আরও দুইজন করিয়া শিক্ষক নিযুক্ত হইবেন। ইহাদের বিশুবিদ্যালয়ের উপাধিকারী এবং শিক্ষাবিদ্যার পরীক্ষাকর্তৃপক্ষের দ্বারা অপর শিক্ষক কৃত্যকের (Subordinate Educational Service) পদাধিকারী ইংরাজী শিক্ষকের জন্য যে বেতনক্রম নির্দিষ্ট হইবে, তাঁহাদের বেতন পাইবেন।

৮। টোলের স্থাপন, শিক্ষক নিযুক্তি, অধ্যাপকদের বেতন ও অন্যান্য বিষয়ে প্রয়োজনীয় ছাত্র প্রেরণ করিতে পারিবে বটে, কিন্তু ছাত্রদের শিক্ষার জন্য অধ্যাপক নিযুক্তি—এই বলিয়া কমিটি অভিন্ন প্রকার

৯। কবিতা পশ্চিম বঙ্গের ২০০টি টোলে মাসিক ৫০ টাকা হিসাবে অর্থসাহায্য দানের জন্য সুপারিশ করিয়াছেন। যেখানে ছাত্রদিগকে পুঁজে স্থান দিয়া বিনা বেতনে শিক্ষাদান করা হয় এইরূপ প্রাচীন কালের প্রকৃত টোল যে এ দেশে এতগুলি আছে, সে বিষয়ে সরকার বিশেষতঃ নতুন। সরকার বর্তমানে ৯০টি টোলকে মাসিক ৫০ টাকা হারে সাহায্য দিবে বলিয়া স্থির করিয়াছেন। এই টোলগুলির প্রত্যেকটিতে অন্তত তিনজন আর্থনিক ছাত্র থাকিবে। এ ছাড়া সরকার আরও ১০টি বড় টোলে মাসিক ৭৫ টাকা হারে অর্থসাহায্য করিবেন বলিয়া স্থির করিয়াছেন। এই সকল বড় টোলে একাধিক বিশিষ্ট অধ্যাপকের নিকট অপেক্ষাকৃত অধিক সংখ্যক আর্থনিক ছাত্রের একাধিক বিষয়ে শিক্ষাদানের ব্যবস্থা থাকা চাই। সরকার ইহাও স্থির করিয়াছেন যে যদি অর্থের সংকলন হয়, তাহা হইলে প্রতি বৎসর ১০টি ছোট টোল ও ২টি বড় টোল—এইভাবে অর্থসাহায্য প্রাপ্ত টোলের সংখ্যা বাড়িয়া যেন পর্যন্ত সর্বসমেত ১৪০টি ছোট ও ১০টি বড় টোলকে অর্থসাহায্য করা হইবে। টোল-পরিদর্শক দিবে এবং প্রয়োজন হলে বা সংগ্রহ হইলে প্রতিষ্ঠাব্যাপ্ত পণ্ডিতগণের সহযোগে পুঁজানুসংক্রমে টোল পরিদর্শন করিবেন। টোলে অর্থসাহায্যদান এই পরিদর্শনের বিষয়বস্তুর উপরে নির্ভর করিবে। যে সব টোলের প্রধান অধ্যাপক “ডীর্ঘ” পরীক্ষার মান পর্যন্ত অধ্যাপনার সর্ব্ব দন এবং যে বৎসরে সাহায্য দেওয়া হইবে সে বৎসরের অব্যবহিত পূর্ববর্তী পাঁচ বৎসরের মধ্যে অন্তত তিন বৎসর যে টোলের ছাত্র উপাধি পরীক্ষার উত্তীর্ণ হয় সেই সেই সকল টোল অর্থসাহায্য পাইবার যোগ্য বলিয়া বিবেচিত হইবে না।

১০। কবিতা মাসিক ৭৫—১০০ টাকা হারে ছয়টি বৃত্তি (literary pensions) দিবার জন্য সুপারিশ করিয়াছেন। এই বৃত্তি পাওরা বাঁহানের প্রয়োজন এইরূপ ছয়জন বিশিষ্ট পণ্ডিতকে এই বৃত্তি দেওয়ার লীতি সরকার স্বীকার করিয়া লইয়াছেন, কিন্তু এইরূপ বৃত্তির সংখ্যা ও পরিমাণ এবং এই বৃত্তিদানের পদ্ধতি সরকারের অর্থসংস্থান অনুসারে স্থির করা হইবে।

১১। সরকারী টোলের দরিদ্র অর্থক বোম্বাই ছাত্রদিগকে আর্থিক বৃত্তিদান সংশ্লিষ্ট কবিতা যে সুপারিশগুলি করিয়াছেন, সে সংঘে পৰ্য্যাপ্যতা করিয়া সরকার এই সিদ্ধান্তে উপনীত হইয়াছেন যে, বর্তমানে কলিকাতার সরকারী টোলের ছাত্রদের জন্য মাসিক ২৫ টাকা হারে ১০টি এবং কলিকাতার বাহিরে অবস্থিত সরকারী টোলের ছাত্রদের জন্য মাসিক ২০ টাকা হারে ১০টি বৃত্তি দেওয়া হইবে। এই বৃত্তিগুলির প্রত্যেকটি প্রথমে এক বৎসরের জন্য দেওয়া হইবে। সন্তোষজনক কার্য দেখাযিতে পারিলে অবশ্য পরে এই বৃত্তি আরও দুই বৎসর পর্যন্ত দেওয়া হইবে।

১২। বিবরণীর ৪৩ অনুচ্ছেদে কবিতা সুপারিশ করিয়াছেন যে প্রতি বৎসর প্রবেশিকা ও নব্য পরীক্ষার ফল অনুসারে কতগুলি ছাত্রবৃত্তি দেওয়া আবশ্যিক। কবিতার সহিত এ সংঘে একমত হইয়া সরকার স্থির করিয়াছেন যে, প্রবেশিকা পরীক্ষার ফল অনুসারে মাসিক ১০ টাকা হারে ১০টি এবং নব্য পরীক্ষার ফল অনুসারে মাসিক ১৫ টাকা হারে ১০টি ছাত্রবৃত্তি দেওয়া হইবে। নব্য পরীক্ষার জন্য দেয় বৃত্তিগুলি বিভিন্ন পাঠ্য বিষয় অনুসারে কি ভাবে ভাগ করিয়া দেওয়া হইবে, বঙ্গীর সংস্কৃত শিক্ষা পরিষদ তাহা স্থির করিয়া দিবে। এই ছাত্রবৃত্তিগুলি সদাচরণ, নিরামিত পাঠগ্রহণ এবং শাস্ত্রানুগত ক্রমঃ উৎকর্ষলাভ প্রভৃতি বৃত্তিজোগের যে সকল সাধারণ সর্ত আছে সেই সকল সর্তে তিন বৎসরের জন্য দেওয়া হইবে। পরীক্ষার ফল অনুসারে ছাত্রবৃত্তিপ্রাপ্ত কোনও ছাত্রের অবস্থা যদি এমন হয় যে, তাহার পক্ষে অতিরিক্ত সাহায্য পাওরা একান্ত আবশ্যিক, তাহা হইলে সেসকল ছাত্রকে অতিরিক্ত-জবে বৃত্তি (stipend) দান করাও চলিবে।

১৩। বিবরণীর পঞ্চম অধ্যায়ে কবিতা বঙ্গীর সংস্কৃত সমিতির পুনর্গঠনের জন্য যে সব সুপারিশ করিয়াছেন, সেগুলি সংঘে পৃথগভাবে ব্যবস্থা করা হইয়াছে এবং বঙ্গীর সংস্কৃত শিক্ষা পরিষদের গঠন সংঘে নির্দেশ দেওয়া হইয়াছে। পরিষদের একজন পৃথক কর্ণসচিব থাকিবেন বাঁহার কার্য এবং পদবীনা হইবে বিশৃঙ্খলার নিয়ন্ত্রকের (Registrar) অনুরূপ—এই প্রত্যয়ে সরকার সন্তুষ্ট হইয়াছেন। এই কর্ণসচিব প্রথমে পাঁচ বৎসরের চুক্তিতে নিযুক্ত হইবেন; সেদায় শেষ হইলে অবশ্য নতুন চুক্তিতে পুনর্নিয়োগ চলিবে। সরকার একজন টোল-পরিদর্শক নিয়োগের প্রত্যয়েও সন্তুষ্ট হইয়াছেন। এই কর্ণসচিব ও টোল-পরিদর্শকের পদ বঙ্গীর সাধারণ কৃত্যকের (Bengal General Service) অন্তর্ভুক্ত হইবে। কর্ণসচিবের বেতনক্রম বঙ্গীর উত্তর শিক্ষণ কৃত্যকের (Bengal Senior Educational Service) বেতনক্রমের সমান (১৯১৭ ৩০০—৫০১—৭০০—৭৫১—১,০০০ টাকা) হইবে। টোল-পরিদর্শকের বেতনক্রম হইবে ১২৫—২৫১—১৫০—২৫১—২৫০—১৫১—৩১০—২০১—৩৫০ টাকা। সরকার সংস্কৃত কলেজের স্নাতকোত্তর বিভাগের জন্য একজন প্রাধ্যাপকের নিয়োগও অনুমোদন করিয়াছেন। এই প্রাধ্যাপকের বেতনক্রম হইবে টোল-পরিদর্শকের বেতনক্রমের সমান। এতদ্ব্যতীত সরকার পরিষদের জন্য নিম্নলিখিত করণিক ও ভূত্যের পদগুলিও সন্মত করিয়াছেন :—

২ জন করণিক—৩৫—৮০ টাকা।

৩ জন ভূতা—১৩—১৫—১৭—২ টাকা (কতিপুরু জতা)।

১৪। বিবরণীর তৃতীয় অধ্যায়ে কবিতা বিভিন্ন পরীক্ষা সংঘে সুপারিশ করিয়াছেন এবং পাঠ্যক্রম ও পাঠ্য-সূচী সংঘে ইচ্ছিত দিরাছেন। প্রবেশিকা, নব্য ও উপাধি পরীক্ষার এই পরিদর্শনটি টোলের ছাত্রদের দৃষ্টি ও চিন্তা বাহাতে প্রসারিত হইতে পারে এবং শিক্ষার মান বাহাতে উন্নীত হইতে পারে সেই উদ্দেশ্যেই যে বচিত হইয়াছে এ সংঘে সরকারের কোনও সংঘে নাই। কবিতার এই সুপারিশগুলিকে কিন্তু বঙ্গীর সংস্কৃত শিক্ষা পরিষদ পুঁজানুসংক্রমে বিচার করিয়া দেখিবেন এবং বিভিন্ন ধরের জন্য বিভিন্ন পাঠ্যক্রম নির্দেশ ও বিভিন্ন পরীক্ষার জন্য পাঠ্যপুস্তক-নির্বাচন এই পরিষদের কর্তব্য হইবে। এ সংঘে সরকারের অতিপ্রায় এই যে, নব্য ও উপাধি পরীক্ষার পাঠ্যক্রমের যে পুনর্গঠন হইবে সেদিকে মনো দায়িত্ব নব্য পরীক্ষার উত্তীর্ণ ছাত্রকে “বঙ্গী” বা “রত্ন” এই জাতীয় কোন নিম্নতর উপাধি দেওয়া চলিতে পারে কি না, পরিদর্শক সে কথাও বিবেচনা করিয়া দেখিবেন। টোলে ভতি হইবার পূর্বে ছাত্রদের প্রাথমিক শিক্ষার অতিক্রম করিতে হইবে বলিয়া কবিতা যে প্রস্তাব করিয়াছেন সরকারের বিবেচনার জাহা সন্মত।

১৫। পুঁজুকর্তা ও উত্তরপত্র-পরীক্ষকের পারিশ্রমিকের দায় সংঘে কবিতা সুপারিশ করিয়াছেন, সরকার তাহা গ্রহণ করিয়াছেন। আটজন পুঁজুসংশোধক (Moderator) ও দুইজন পরীক্ষাকল-সংকলনিতা (Tabulator) লইয়া একটি সংলগ্ন নিয়োগের প্রস্তাব সরকার অনুমোদন করিয়াছেন। প্রত্যেক পরীক্ষাকল-সংকলনিতার জন্য ১৫০ টাকা এবং প্রত্যেক পুঁজুসংশোধকের জন্য ২০০ টাকা পারিশ্রমিকের ব্যবস্থা সংঘে হইবে বলিয়া সরকার বিবেচনা করেন।

সরকারের পক্ষে ইহা ধুই আনন্দের বিষয় যে, সরকার পশ্চিম বঙ্গের সংস্কৃত শিক্ষার সমুদ্রয় সংগঠিত কবিতার অনেকগুলি সুপারিশই গ্রহণ করিতে পারিয়াছেন। ১৮৭৩ সাল হইতেই প্রাদেশিক সরকারের মনোযোগ এদিকে আকৃষ্ট হইয়াছে, কিন্তু এই প্রদেশের সংস্কৃত শিক্ষার সমুদ্রয় সংগঠিত সরকার তেমন কোন উদ্যোগে ব্যস্থা অবলম্বন করিতে পারেন নাই। এমন কি, অতীতে যে সকল কবিতা প্রদানের বিশৃঙ্খলার জন্য সরকারের সুপারিশ অনুসারেও বিশেষ কোন ব্যবস্থা অবলম্বন করা সংঘে হয় নাই। সরকার বিশৃঙ্খলার কারণে, এই কবিতা সুপারিশগুলি কার্যে পরিণত হইলে সংস্কৃত শিক্ষার উন্নতির নিকট নিকট এক ধাপের সূচনা হইবে এবং জরুরী সংস্কৃতির পুনরুদ্ধারের সহজী আশা বিশেষভাবে স্পষ্ট হইবে।

আশে দেওয়া হইল যে এই সিদ্ধান্তগুলি “কলিকাতা সংস্কৃত” প্রকাশিত হইবে এবং ইহার প্রতিভিপি পশ্চিম বঙ্গীর শিক্ষা-অধিকর্তা, অর্থ বিভাগ, পশ্চিম বঙ্গের বঙ্গীয়-অর্থিক এবং কলিকাতা পঞ্চায়েতি ও সন্যাসবর্গের নিকট প্রেরিত হইবে।

সরকারের আদেশ অনুসারে,

Authorisation of provisional payments
in respect of pay and allowances of temporary
employment—Discontinuance of the practice.

M. 472.—27th July 1949.—It has been decided by the Government of India in their Memorandum of Finance Office Memorandum No. 417—Est. VI/49, dated 31st May 1949, that the practice of authorising provisional payments in respect of pay and allowances of temporary employment should be discontinued forthwith. This decision has been taken by Government in the larger interest of efficiency and as the system of provisional payments entails only great inconvenience to the audit and also entails additional expenditure as audit has to be done twice over.

Treasury Officers of the Central Government and all treasury officers in Bengal should note the above decision of Government for guidance. It should be clearly stated that no provisional payment is to be made in cases of the kind cited above.

For rule 55 of the said rules, substitute the following, namely:—

"Rule 55.—Without prejudice to the provisions of the Public Servants Inquiries Act, 1850, no order of dismissal, removal or reduction shall be passed on a member of a service (other than an order based on facts which have led to his conviction in a Criminal Court or by a Court Martial) unless he has been informed in writing of the grounds on which it is proposed to take action, and has been afforded an adequate opportunity of defending himself. The grounds on which it is proposed to take action shall be reduced to the form of a definite charge or charges, which shall be communicated to the person charged, together with a statement of the allegations on which each charge is based and of the evidence in support of each charge."

He shall be required, within a reasonable time, to put in a written statement of his defence and to state whether he desires to be heard in person. If he so desires or if the authority empowered to impose penalty so directs, an oral inquiry shall be held. At that inquiry oral evidence shall be heard as to such of the allegations as are not admitted, and the person charged shall be entitled to cross-examine the witnesses, to give evidence in person and to have such witnesses called as he may wish, provided that the officer holding the inquiry may, for special and sufficient reason to be recorded in writing, refuse to call a witness. The proceedings shall contain a sufficient record of the evidence and a statement of the findings and the grounds thereof. After the inquiry has been completed in the manner stated above and after the authority empowered to impose penalty has arrived at a provisional conclusion in regard to the penalty to be imposed, the person charged shall, if the penalty proposed to be imposed is dismissal, removal or reduction, be supplied with a copy of the report of the officer holding the inquiry and be called upon to show cause, within a reasonable time not ordinarily exceeding two weeks, against the penalty so proposed to be imposed. This rule shall not apply where the person concerned has absconded, or where it is for other reasons impracticable to communicate with him. All or any of the provisions of this rule may be waived by the authority empowered to impose penalty, if it is satisfied for reasons to be recorded by it in writing that it is not reasonably practicable to observe such provisions or provision as the case may be.

Issue No. 15.—Uniforms and umbrellas for menials.

These are allowed.

Issue No. 12.—Service conditions.

(a) *Probation and confirmation.*

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) *Service record.*

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) *Enquiry before punishment: And*

Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person concerned and then pass orders. If that authority be

other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal, the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) *Retiring age.*

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employment. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitments Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Bonus.

Company pay Puja bonus according to the basis:—

- 1 to 5 years' service with the Company—One-fourth month's basic salary.
- 5 to 10 years' service with the Company—Half month's basic salary.
- 10 years' service with the Company—One month's basic salary.

scheme is applicable to the other branches Company and there is no present intention continuance. We leave the matter outside consideration.

Retiral benefits.

Retiral benefits of the Company have been the following terms:—
Contribution to the Staff Provident Fund is 5% of the basic salary, and the Company equal contribution. On retirement, the employee is entitled to the Company's contribution plus his own, provided he has been in the

services of the Company for more than 5 years and there are no causes which, in the opinion of the Company, warrant that he should not be paid the Company's contribution.

A gratuity is paid to any employee who leaves the service of the Company on his own account on the following basis:—

- 10-15 years' service—50 per cent.
- 15-20 years' service—75 per cent.
- Over 20 years' service—100 per cent.

Gratuities are not paid to any employee who is dismissed for dishonesty or misconduct, of which the Company is the sole judge.

The gratuity is paid as follows:—

- (a) For the last ten years of his service, one month's salary for each of the ten years worked at the rate of pay he was receiving during each of such ten years.
- (b) For the preceding ten years half the amount paid for the last ten years (a).
- (c) For any period before twenty years from date of retirement the amount payable under (a) will be divided by ten and one quarter of that amount will be paid for each year's service over twenty years."

The subordinate staff also come under the scheme. Five per cent. Provident Fund was started from 1st August 1947. The provision for the period prior to the introduction of Provident Fund is not adequate. We make the following changes:—

Clause (c) be deleted. Clause (b) is redrafted as follows:—

"For the preceding years, half the rate paid for the last ten years (a)."

For the words "Over 20 years' service—100 per cent." the following be substituted:—

"20 and over years' of service—100 per cent."

Travelling allowance.

Travelling allowance on leave is refused. Reasonable travelling allowance on duty be paid.

House and children's allowance.

The claims under these heads be refused.

Canteen and tiffin.

According to our scheme of the Award these are in the nature of *ex gratia* payments.

Medical aid.

This according to our scheme of the Award is discretionary.

Working hours.

Usual office hours for the clerks shall be 10-30 to 5 p.m. on Monday to Friday with half-an-hour recess and on Saturday from 10-30 to 1-30 p.m.

Subordinate staff must not be worked for more than 44 hours in a week.

Work on holidays and overtime.—These shall be paid as under the Bengal Shops and Establishments Act.

Holidays.—All holidays under the Negotiable Instruments Act shall be observed as close holidays.

Leave.

We award:—

Privilege leave—14 days on full pay in the year cumulative up to 2 years.

Casual leave—10 days on full pay in the year, non-cumulative.

Sick leave—At the discretion of the Company.

Service conditions.**(a) Probation and confirmation.**

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And**Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of service and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completion of 55 years. We do not favour extension of age thereby blocking the way for younger people in employments. In exceptional cases where the employer and the employee agree, or of services may be granted.

Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different departments. The Federation wants that there should not be such transfer. We feel, however, that transfer is necessary for two purposes: (1) to enable a particular clerk to know work of the departments; and (2) for stock-taking of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference be given to relations of employees, retired employees, or former employees of the employer. Appointment shall go to the more qualified.

(ii) Preference should be given to relations of employees, if qualified.

(iii) In the matter of appointment to the grades of clerk, promotion from lower grades to higher grades shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We feel that there should be no bar to promotion from the clerical grade to the Officer's Grade or from the subordinate staff to clerical grade. As selection depends on the management, we cannot fix a certain percentage or a certain number. Promotion must depend on suitability according to the standard of the management. We have to remind that such promotions do not affect the outlook of the clerk and are conducive to efficient work by the clerical staff.

Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a commercial service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Umbrellas and uniforms.

These be allowed for official work.

Above Rs. 260 at the discretion of the employer. We have only extended A Grade. This plan is better than parallel scales in the different grades. In view of the better incremental scale, we accept Rs. 65 as the minimum pay as against Rs. 70 in other awards. The present time-scales were introduced in 1948 and point to point adjustments of salaries were made. We do not feel any justification for a flat increment of Rs. 10.

Probationers will be appointed on Rs. 65 and the initial salary of stenographers shall not be below Rs. 110.

The clerks shall get dearness allowance under the Bengal Chamber of Commerce scale.

Subordinate staff.

The total emoluments of no one fall below Rs. 60. No increase is justified. As basic salary is low in some cases, we lay down grades and adjust the total emoluments:—

Durwans—Rs. 35—2—55.

Bearers—Rs. 30—2—50.

Packers/Coolies—Rs. 30—1/8—40/8.

Then comes the question of promotion from the clerical grade to the Officer's Grade. - (d) We cannot emphasise too strongly that the entire staff must be considered as having been engaged by the Company as and from the time the Company commenced trading, i.e., 1st February 1947. We hope the shareholders' gesture as detailed above is fully appreciated for they have gone far beyond any question of legal even moral obligation in the matter of retiral benefits."

We approve of and confirm these.

Issue No. 4.—Bonus.

Some bonus is paid. We have been assured that there is no present intention to discontinue it. We leave the matter outside adjudication.

Issue No. 5.—Canteen and tiffin.

These, according to the scheme of our Award, are *ex gratia* advantages and are, therefore, left outside adjudication. We are, however, glad to observe that the Company allow some tiffin which is not intended to be withdrawn.

Issues Nos. 6 and 7.—Accommodation allowance and children's education facilities.

The claims under these heads are refused.

Issue No. 8.—Medical aid.

This should remain discretionary with the employers.

Issue No. 9.—Working hours and holidays and overtime.

No change of the present system is wanted so far as working hours and overtime are concerned.

As for holidays, all holidays under the Negotiable Instruments Act are to be observed as closed holidays.

Issue No. 10.—Leave.

The existing leave rules are:—

(a) General clerical staff.

- (i) One month's privilege leave on full pay, after completion of one year's service.
- (ii) Ten days' casual leave on full pay.
- (iii) One month's sick leave on full pay on the certificate of the Company's Medical Officer. Further sick leave may be granted in individual cases at the discretion of Branch Managers bearing in mind the length of service and record of the individual concerned.

(b) Subordinate staff.

- (i) After one year's service, five weeks' privilege leave on half pay.

After completion of two years' service, eight weeks' leave; five weeks on half pay, and three weeks without pay.

- (ii) Ten days' casual leave on full pay.

- (iii) One month's sick leave on full pay on the certificate of the Company's Medical Officer. Further sick leave may be granted in individual cases at the discretion of the Manager, bearing in mind the length of service and record of the individual concerned.

We confirm the above rules.

Issue No. 11.—Travelling allowance on duty as also on leave.

The claim for travelling allowance while on leave is disallowed. Adequate travelling allowance be given for journeys on duty.

Issue No. 15.—Uniforms and umbrellas for menials.

The existing arrangements are confirmed.

Issue No. 12.—Service conditions.**(a) Probation and confirmation.**

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And**Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be sent to the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. These are domestic cases and bringing outside agencies is not helpful person proceeded against. Any one who defend a person proceeded against with the sanction of the enquiring officer.

We hope that the rules framed by us will allay apprehensions about abrupt termination and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on 55 years. We do not favour extension of such transfer. We feel, however, that tables is necessary for two purposes: (1) a particular clerk know work of the various departments; and (2) for stock-taking of arrears one particular clerk working in a department a sufficiently long period.

Issue No. 13.—Recruitment Rules: Re promotion and transfer.

Transfer means allocation of different work. Federation wants that there should be no such transfer. We feel, however, that tables is necessary for two purposes: (1) a particular clerk know work of the various departments; and (2) for stock-taking of arrears one particular clerk working in a department a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or through the Federation. The employer will select his own staff.

Recruitment.

(i) Other things being equal, preference be given to relations of employees, retired employees, and relations of employees of the service. Between relations of employees of the service appointment shall go to the more qualified.

(ii) Preference should be given to relations of employees, if qualified.

(iii) In the matter of appointment to different grades of clerk, promotion from lower grade be the rule. Only in exceptional cases, appointment may be made from outside.

Then comes the question of promotion from clerical grade to the Officer's Grade. We think that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection depends on the management, we cannot decide a certain percentage or a certain number must be promoted to the Officer's Grade. It must depend on suitability according to the standard of the management. We, however, remind that such promotions do change the look of the clerk and are conducive to more work by the clerical staff.

Issue No. 17.—Recognition of the Union jurisdiction of the Tribunal to order settlement.

Recognition of the Union is not a commercial service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Courts are going to be established soon and will be the business of that Court to order recognition of the Unions.

Issues Nos. 1 and 2.—Pay and dearness all
Clerical staff.

We award the following grades:—

D Grade—Rs. 70—3—130.

C Grade—Rs. 70—4—134.

B Grade—Rs. 110—7—180.

A Grade—Rs. 150—10—260.

Special Grade—Rs. 260 and up at the
tion of the employers.

Typists shall not be placed below C Grade stenographers shall not be placed below B

Already the grades are in existence and have only made adjustments and the increments are automatic. Instead of giving a flat increase of Rs. 10 for reasons which we shall tell afterwards we make the following adjustments: clerks will be given one grade increment after this the salary of any clerk remains the minimum of the grade in which he is; he shall be pulled up to the minimum salary of any clerk does not fall in any at the time scale, he shall be placed at the next. To give relief to the very old hands who not been given proper increments we award the salary of no clerk who has put in 25 years service or more shall be below Rs. 130 and the salary of those who have put in a between 20 and 25 years shall be adjusted in a way that his salary reaches Rs. 130 by normal increments in the grade to Rs. 130 he puts in 25 years of service.

The clerks shall get dearness allowance present.

Subordinate staff.

Our idea is that the minimum basic salary should be Rs. 30 and the normal dearness allowance should be Rs. 30. The persons under this category get much more than our idea and therefore only an adjustment is necessary in this. We award that those persons who get less Rs. 30 as basic salary be given increments to bring up the basic salary to Rs. 30. The increments thus given be deducted from the dearness allowance without disturbing the total emolument. For new recruits the minimum basic salary be Rs. 30 and the dearness allowance shall correspondingly reduced.

For the period prior to raising the contribution to 10 per cent. we award that each will get gratuity calculated at one month's salary for each year of completed service prior to the raising the contribution to 10 per cent. For the purpose of this the salary drawn previously to the enforcement of the award be the basis. The money shall become payable when Provident Fund money shall become available.

Any other payment shall be absolutely extraordinary.

Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehension about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to

get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired or in service. Between relations of employees, the appointment shall go to the more qualified.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as also jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

For subordinate staff.

he total emoluments of no one fall below 60 and therefore no question of any increase a. We do not interfere except by way of following adjustment. A flat increment of 12 be allowed in pay with a corresponding tion of Rs. 12 from dearness allowance with- disturbing the total emoluments.

No. 3.—Retiring benefits and benefits on termination of service.

he Company started a 5 per cent. Contribu- Provident Fund in 1926 to which all em- including subordinate staff were eligible ided the salary was not below Rs. 30 for any idual. The amount of contribution has been id to 10 per cent. from 1st July 1948. The salary of no one will be less than Rs. 30 therefore, all employees will come under the Provident Fund. The Company provides 10 per Provident Fund for the subordinate staff.

Some provision should be made for the period when employees could not come under Provident Fund and for the period when the contribution was low.

So far as the subordinate staff are concerned, we make the Award that for the period when any one was not eligible to come under Provident Fund, he shall get gratuity at the rate of 7 days' salary for each year of completed service during the period of non-eligibility. The basis of pay shall be that drawn just before the enforcement of the Award and the amount shall be paid when Provident Fund money shall become payable.

Now for the clerical staff.

For service prior to the introduction of the 5 per cent. Provident Fund, the employee shall get gratuity at the rate of a month's basic salary for each year of completed service. The basis for calculation shall be the salary drawn just before the enforcement of this Award.

Now for the period after the introduction of 5 per cent. Provident Fund and before it was raised to 10 per cent., during this period clerks were eligible and came under Provident Fund. There may be some who were eligible but did not come and some were not eligible. We do not propose to make any provision for those who were eligible to come under 5 per cent. Provident Fund but decided not to come under it. For the period when one was not eligible, he shall be paid gratuity equivalent to a month's salary for each year of completed service during the period. The basis of salary shall be that drawn just before the enforcement of this Award.

For the persons who were eligible and contributed to the Fund we award an amount equal to the amount of contribution to the Provident Fund made by the employer during the period. All these amounts shall be paid when Provident Fund amount shall become payable.

Issue No. 4.—Bonus.

The only claim was for profit-sharing bonus which was given up. The Company pay some bonus and the present intention is not to discontinue it. We leave the matter outside adjudication.

Issue No. 5.—Canteen and tiffin.

These, according to the scheme of our Award, are *ex gratia* advantages and are left outside adjudication.

Issues Nos. 6 and 7.—Accommodation allowance and children's education facilities.

The claims under these heads are refused.

Issue No. 8.—Medical aid.

This, according to our scheme, is discretionary with the employer and we do not propose to enjoin any compulsion on this.

Issue No. 9.—Working hours and holidays and overtime.

Working hours.—The existing arrangements shall continue.

Holidays.—All holidays under the Negotiable Instruments Act shall be observed as close holidays.

Overtime.—These shall be paid as under the Bengal Shops and Establishments Act. Out-door workers will get overtime not by the hours of clock but on the basis of actual time spent in excess of daily hours of work.

Issue No. 12.—Service conditions.**(a) Probation and confirmation.**

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And**Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie likewise with the head of the concern at Calcutta. In all cases where the proposed punishment is discharge or dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other retired employee. These are domestic matters and bringing outside agencies is not helpful to the person proceeded against. Any outsider may defend a person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of services and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on completing 55 years. We do not favour extension of services, thereby blocking the way for younger people to get employments. In exceptional cases where both the employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment and transfer.

Transfer means allocation of different. The Federation wants that there should be any such transfer. We feel, however, that the number of tables is necessary for two purposes: (1) for stock-taking of the departments; and (2) for stock-taking of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that appointments should be done through the Union Federation. The employer will select his men.

Recruitment.

(i) Other things being equal, preference be given to relations of employees, retired service. Between relations of employee appointment shall go to the more qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to the grades of clerk, promotion from lower grade be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from clerical grade to the Officer's Grade. We think that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection depends on the management, we cannot demand that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, remind that such promotions do change the outlook of the clerk and are conducive to efficient work by the clerical staff.

Issue No. 17.—Recognition of the Unions as Jurisdiction of the Tribunal to order recognition.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. The Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Issue No. 10.—Leave.

The existing arrangements shall continue.

Issue No. 11.—Travelling allowance on duty also on leave.

The claim for travelling allowance, while on leave, be refused. Adequate travelling allowance be given for journeys on duty.

Issue No. 15.—Uniforms and umbrellas for menials.

These be supplied for official work.

Conclusion.

We observe that this Award shall not be applicable to the factory workers at Kidderpore.

NOTIFICATIONS

Subject:—Payment of arrear claims for pre-partition and post-partition periods.

No. TM/490.—1st August 1949.—It has come to the notice of the Accountant-General, Central Revenues, that arrear claims of both pre-partition and post-partition periods are sometimes combined and drawn in one and the same bill by several Drawing Officers of the Central Excise Department without specifying proper classification of the charges on the front page of the bill. All Treasury Officers and Sub-Treasury Officers in West Bengal are hereby directed that such bills should not be encashed unless the charges of the pre-partition and post-partition periods are separately classified under such sub-head, viz., Pay of establishments—Permanent—Temporary allowances, Honoraria, etc., Dearness Allowance, House Rent Allowance and Recoveries, etc.

It has also been pointed out by that officer that claims of the superior Government servants and those of the grade IV Government servants are drawn in one and the same bill instead of in separate bills. Such bills also should not be encashed.

All Drawing Officers of the Central Excise Department should please note this for necessary action.

Hoyle Robson Barnett and Co. (India), Ltd., 67/74, Stephen House, Calcutta, serial No. 76 of list No. 1 of the order of reference, and (2) Messrs. J. B. PRESENT:

SRI A. DAS GUPTA, *Chairman.*

SRI S. C. CHAKRAVARTY, *Member.*

Tribunal with Sri A. Das Gupta as Chairman and Sri S. C. Chakravarty and Sri S. C. Gupta as members was constituted by the Government of West Bengal (Labour Department) under sections 7 and 10 of the Industrial Disputes Act, 1947, by order No. 135Lab., dated 7th January 1948, to adjudicate the industrial disputes between 267 mercantile firms in Calcutta and the clerical and the subordinate staffs in their office, which include Messrs. Hoyle Robson Barnett & Co. (India), Ltd., and Messrs. J. B. Norton & Sons, Ltd.

S. C. Datta Gupta had been absent, and his services were no longer available, the disputes which are the subject-matter of the present order were heard by the present Chairman and the other member present.

In the earlier cases we decided that we could not deal with the different firms separately. To this we still adhere.

Appearance.

the employers: Messrs. Dutt & Sen, Solicitors.
the employees: Sri Jitendra Nath Banerji of the Federation of Mercantile Employees' Unions.

AWARD.

In the request of the parties we take up the cases together for convenience. At the hearing we were told that the parties have amicably settled the disputes with the exception of the following points:—

(a) Fixation of the initial basic salary of members of the clerical and subordinate staffs.

(b) Dearness allowance.

The object has always been to lay down a substantially uniform scheme about the terms and conditions of service in mercantile firms in Calcutta in general. Deviations had to be made in consideration of financial resources of the particular firm, additional amenities existing in the firm and other factors. The financial position of the two firms which are subject-matter of this order is much lower than that of most of the firms covered by the order of reference.

The award for both the firms accordingly is:—

The minimum basic salary for a non-Matriculate shall not be less than Rs. 55 and for others Rs. 65. By way of adjustment, a flat increment of Rs. 5 shall be given to each and every clerk and subordinate staff whose salary is below the minimum salary to which he is entitled. He shall be promoted to the minimum salary for a non-Matriculate (Rs. 55 for others). The minimum salary of a clerk shall be Rs. 100 or more.

a way that his salary is not less than the increased salary of a clerk getting at present less than Rs. 100. These adjustments shall be made with effect from 1st June 1949.

(b) Sri P. N. Dutt of Messrs. J. B. Norton & Sons, Ltd., who is at present getting Rs. 50 shall get Rs. 58 per mensem with effect from 1st June 1949.

(c) Sri R. N. Mullick of Messrs. Hoyle Robson Barnett & Co. (India), Ltd., who is at present getting Rs. 40 shall get Rs. 55 per mensem with effect from 1st June 1949.

(d) For future recruits, the starting basic salary for a non-Matriculate shall not be less than Rs. 55 and that for others Rs. 65.

(e) No member of the subordinate staff shall get less than Rs. 25 as basic salary.

(f) Any member of the subordinate staff getting less than Rs. 25 shall be pulled up to Rs. 25.

(g) The existing rates of increment and the ceiling of the grades, both for the clerical and subordinate staffs shall stand.

(h) Dearness allowance shall be 60 per cent. of the basic salary for the first hundred rupee and thereafter 20 per cent. of the remainder, subject to a minimum of Rs. 45 for a clerk and Rs. 25 for a member of the subordinate staff.

AWARD.

By order No. 627Lab., dated the 7th October 1947, of the Government of West Bengal, Labour Department, a Tribunal was constituted with Sri Asutosh Das Gupta as Chairman and Sri Sailesh Chandra Chakravarty and Sri Sudhir Kumar Dutta Gupta as members to adjudicate upon industrial disputes in 36 Cotton Textile Mills in West Bengal. In pursuance to the said order of reference, the Tribunal held sittings, heard the parties and submitted its award on 28th July 1948. The award was to take effect, under Government order No. 2956Lab., dated the 21st August 1948, on and from 1st August 1948 and was to remain in force for one year. The Tribunal was commonly known as Cotton Textile Tribunal. During the adjudication proceedings which led to the aforesaid award, the employers and the employees of the three mills which are the subject matter of the present reference were represented as detailed below.

For the employer.		For the employees.	
The Calcutta Silk Manufacturing Company, Ltd.	Bengal Mill Owners' Association.	Bengal Provincial Trade Union Congress and Indian Federation of Labour.	
The Swadeshi Industries, Ltd.	Ditto	Basanti Cotton Mills Workers' Union through Bengal Provincial Trade Union Congress.	
Calcutta Silk Mills.	Ditto	Bengal Provincial Trade Union Congress.	

The order of the present reference was silent as to how the workmen of the three Mills were to be represented.

Notices were issued to the Managements and the Unions by which the workers of the three Mills were represented in the adjudication proceedings of the Cotton Textile Tribunal, but none appeared for the workers. A notice was accordingly sent to the Management of each of the three Mills with a request to have the notice translated in the language or languages of the workers and to put up such translations on its Notice Board for information of the workers (*vide* order No. 2, dated 7th July 1949). On 16th July 1949 the Secretary of Swadeshi Industries Mazdoor Union appeared for the workers of the Swadeshi Industries, Ltd., and prayed for time. The Management of the Calcutta Silk Manufacturing Co., Ltd., and the Calcutta Silk Mills intimated this Tribunal that the order No. 2, dated 7th July 1949 was duly complied with and that the notice was put up on the Notice Board as directed (*vide* letters, dated 12th July 1949 and 16th July 1949). In spite of the notice, no one appeared for the workers of the two Mills and the case was fixed on 19th July 1949. On the application of the Secretary of the Swadeshi Industries Mazdoor Union, the Union was allowed time till 23rd July 1949. But as the Union appeared on 19th July 1949, took part in the proceedings, and admitted the facts as stated by the Management, there was no necessity for any written statement. Hearing of the case was concluded on 19th July 1949.

It appears that during the last war the three Mills in question, which were primarily intended to carry on silk or art silk textile business, had

take to cotton partly because of Government and partly because raw materials for silk and silk textile goods were not available. After the end of the war when raw materials were available these Mills gradually reverted to their old business.

These Mills were represented by the Bengal Owners' Association during the adjudication proceedings of the Cotton Textile Tribunal. A special case was suggested either in the statement filed by the Bengal Mill Owners' Association or at the hearing. We inspected typical Cotton Mills, but the Management of the three Mills moved us for inspection of Mills to show if the works in these Mills were any way different from those in the Cotton Mills in general. We accordingly gave our decision which was binding on the parties to the adjudication proceedings. Now these three plead a case in the circumstances and pray that the period for which the award was to remain in force be reduced in their case.

The period for which an award is to remain in force under section 19(3) of the Industrial Disputes Act, 1947, may be reduced under proviso to said sub-section which runs as follows:—

“Provided that if, on its own motion or on application of any party bound by the award, the appropriate Government considers that there has been a *change in the circumstances* on which the award was based, it may refer the matter to a Tribunal for a decision whether the award should, by reason of the change, cease to be in operation on the expiry of the period so fixed, or the period of operation of the award be determined by the decision of the Tribunal on such reference.”

We are to investigate if there has been any material change in the circumstances in which the award was passed as contemplated by the above provision.

(1) Calcutta Silk Manufacturing Co.,

The sworn testimony of Sri Benoy Mukherji, Secretary of the Managing Agency, that the Mill has taken to silk and art silk since June 1948, and according to him there has been a verbal settlement with the workers. This statement stands unrebutted. We believe that the award on the state of things existing up to the date of conclusion of the hearing. We believe that the award of the Cotton Textile Tribunal is operative so far as this Mill is concerned from the very beginning.

(2) The Swadeshi Industries, Ltd.

It is admitted that out of the 151 looms 25 work in cotton and the rest in silk and that there has since been a change in the circumstances with the workers through the intervention of the Labour Commissioner. The terms of the award were reduced to writing. The written award, a copy of which has been filed by the Union, is dated 19th May 1949. The Union is bound by the award. We accordingly hold that the award is operative so far as this Mill is concerned from the very beginning.

(3) The Calcutta Silk Mills.

unrebutted sworn testimony of Sri S. P. is, one of the partners of the Mill, is that it took exclusively to silk and art silk in October 1948. Thus there has been a change in the circumstances contemplated by the proviso to section 19(3) of the Act. Accordingly direct that the award do cease to be operative in respect of this Mill with effect from 1st November 1948.

ANNEXURE.

Matter of an industrial dispute between Messrs. Bengal Rolling Mills, Ltd., 5, Duffer Street, Lillooah, Howrah, and its workmen represented by the West Bengal Rolling Mills Mazdoor Union, 84, Lala Babu Shire Road, Belur, Howrah.

PRESENT:

P. K. SARKAR, Judge, Industrial Tribunal.

Present for the Bengal Rolling Mills Mazdoor Union, Labour Welfare Association, and the Bengal Mazdoor Association.

Present for the West Bengal Rolling Mills Mazdoor Union.—Sri Dwijendra Lal Sen Gupta, Pleader, and Sri Taradas Bhattacharyya, Secretary.

By Government order No. 2314Lab., dated 11th May 1949, the above industrial dispute was referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act. I gave notice to the parties and the West Bengal Rolling Mills Mazdoor Union, to be hereafter referred to as the Union, appeared on 28th May 1949 and filed written statement on 8th June 1949. The Bengal Rolling Mills, Ltd., to be hereafter referred to as the Company, filed written statement on 16th June 1949. Then some time was taken for filing papers and the case was finally heard on 8th July 1949.

According to the schedule appended to the Government order, the industrial dispute between the parties related to three matters, viz.—

- (1) Discharge of three workmen, named Mokhlal, Kuldip and Sriram.
- (2) Discharge of another workman, named Ramprosad.
- (3) Deduction from wages for contribution towards "Gowsala".

At the time of hearing the learned pleader for the Union stated that there was no dispute regarding point No. 2, namely, discharge of Ramprosad. In the statement of the Union also no demand had been made regarding Ramprosad. It appears that Ramprosad was never discharged but voluntarily left the service of the Company on 24th August 1948. A letter written by Ramprosad to that effect on 24th May 1949 was shown to me. My award accordingly is that there is no dispute between the parties regarding Ramprosad who voluntarily left the service of the Company.

As regards point No. 3, namely, deduction from wages for contribution towards "Gowsala", the Company's case is that no deduction was ever made from the wages of the workmen for this purpose but that the workmen voluntarily contributed one anna per week towards the "Gowsala" Fund. Such contribution is purely at the option of the workmen, according to the Company. The Company has filed statements containing thumb-impressions of several workmen to the effect that they voluntarily contributed one anna per week to the "Gowsala" Fund and that they had no dispute with the Company regarding this matter. According to the Union, the contribution is compulsory, but there is no evidence to that effect. The Company, however, stated that if any workman wanted a refund of his contribution to this fund, it would be refunded to him and that all workmen were at liberty to discontinue their contributions to the fund. I think that this ought to be sufficient to dispose of the question. The Company should not put any pressure upon any workman to contribute to the "Gowsala" Fund and all such contributions should be entirely voluntary.

I now come to the first point, namely, the discharge of Mokhlal, Kuldip and Sriram. The Union's case is that they were discharged by way of victimisation and the Union demanded in its written statement that they should be reinstated with effect from the date of their discharge and adequately compensated. At the time of hearing, however, the Union did not press for their reinstatement but only pressed for adequate compensation. The circumstances under which these three workmen were discharged are as follows: In March 1948 certain disputes between this Company and its

workmen were referred to a Tribunal and the said Tribunal made its award on 5th July 1948 which was enforced by Government order No. 2477 Lab., dated 22nd July 1948. By this award seven festival holidays were provided for the workmen and one of these was a holiday on Mahatma Gandhi's birthday which fell on the 2nd October 1948. The Company granted a paid holiday on that day but in lieu thereof it asked the workmen to work on the next Sunday, the 3rd of October. On that day these three workmen were absent and the Union's case is that they were discharged ostensibly on that ground but really by way of victimisation because they were active members of the Union. The Company's case, however, is that these three workmen were discharged on account of long and wilful absence from duty in accordance with the provisions contained in the Company's certified Standing Orders. The Company denies that they were discharged by way of victimisation on account of their Trade Union activities.

The 2nd of October was declared a paid holiday by the Company by a notice, dated the 1st October, of which a copy has been filed by the Company. This notice stated that the Mill would be working on Sunday, the 3rd October, in lieu of the holiday on the 2nd. On the 3rd October eighteen workmen attended but twelve did not. The Mill employed at the time thirty workmen of whom eighteen lived in the Mill premises. These eighteen men attended the Mill on that day but the remaining twelve including Mokhlal, Kuldip and Sriram were absent. The Company issued a notice on the same date suspending the twelve workmen who were absent up to 5th October 1948 and stating that they would get their wages for the period of suspension only on giving satisfactory explanation of their absence and that in default they would be discharged. On the 6th October the Company issued another notice stating that the explanations submitted by the twelve suspended workmen were not satisfactory. Nevertheless, nine of the suspended workmen were directed by this notice to join work from the next day on giving a promise in writing that they would do nothing in future by which the Company might suffer loss. The remaining three suspended workmen, namely, Mokhlal, Kuldip and Sriram, were, however, discharged by this notice and the Company definitely stated therein that they would not be taken back because they had been warned twice in the past on account of misconduct. This notice has not been filed by the Company but has been produced by the Union. On 11th October 1948 a notice was issued by the Company stating that Mokhlal, Kuldip and Sriram had not joined their duties in spite of two previous notices and that unless they joined from the next Wednesday new workers would be appointed in their places.

As already stated, the case of the Company is that these workmen were discharged for long and wilful absence from duty and in support of this case the abovementioned notice, dated the 11th October, is relied upon. It is argued by the Company that these three workmen were directed by this notice to join by a certain date and that they having failed to do so there was no other alternative for the Company but to appoint new men in their places. The Company thus suggests that these three workmen were discharged after the 11th October because they failed to turn up in terms of the notice of the 11th October. It is not, however, alleged that they were discharged by any formal order or by any notice issued after the 11th October. It is clear from the notice, dated the 6th October, that these three workmen were discharged with effect from that date. They were then definitely informed that they would not be taken back. They were discharged on the 6th October.

as discharged workmen. It cannot be true, therefore, that these three workmen were discharged for their failure to join after the notice of the 11th October. The Company is very anxious to press all reference to the notice of the 6th October. No reference to that notice is found in the written statement of the Company. The notice was not filed by the Company. There is evidence that the order of discharge contained in the notice of 6th October 1948 was ever withdrawn a subsequent notice. In the notice of the 11th October there is no mention of withdrawal of the order of the 6th October. The notice, dated 11th October, refers to two previous notices by which these three workmen are said to have been directed to join their duties. No such notices have ever been produced by the Company. The fact that these notices have not been mentioned is nothing to show that any notice was issued by the Company between the 6th and 11th of October. In these circumstances it becomes difficult to attach any weight to the statements in the notice of the 11th October.

On behalf of the Union all knowledge has been denied of the notice, dated the 11th October. It has even been stated that no such notice was issued. There is no evidence that this notice was communicated to the three discharged workmen or that any attempt was made to meet them personally and ask them to join their duties. If they had known of this notice, there was no reason why they should not have joined at once. They were discharged on 6th October 1948 and in the notice they were told that they would not be taken back on account of past warning, it was incumbent on the Company to have informed them personally that the order of discharge had been cancelled and that they would be taken back, if the Company had really decided upon such a course. The Labour Commissioner held a detailed enquiry into this matter and his report, dated 11th October 1949, of which a copy has been enclosed with the Government order, shows that the Company discharged these workmen by the notice of the 6th October 1948. On the intervention of the Labour Commissioner the nine workmen who had been directed by this notice to furnish written undertakings for the future were allowed to return to work without such undertakings, but, according to the Labour Commissioner, the Company refused to consider the cases of these three discharged workmen. The Company does not appear to have produced the notice of the 11th October before the Labour Commissioner. If this notice had been seen by the Labour Commissioner, he would certainly have referred to it in his report. The report contains no mention of this notice and it does not also contain anything to show that the Company's case before the Labour Commissioner was that these three workmen had been discharged for prolonged and wilful absence from duty. According to that report, the Company refused to consider the cases of these three workmen because they had given trouble in the past. The present case of the Company regarding these three workmen would thus appear to be an after-thought. The Company had really been willing to take these three workmen back on the 6th October 1948, it is not clear why it refused to consider their cases. The request of the Labour Commissioner to consider all the facts and circumstances into consideration I find it difficult to be satisfied that the Company had really issued any notice on the 11th October for the information of these three discharged workmen or that the Company had any intention to reinstate these workmen on the 11th October.

It is clear that the Company had discharged Mokhlal, Kuldip and Sriram on the 6th October 1948. The Union has no objection to the Company's case.

discrimination inasmuch as out of the twelve suspended on the same ground on 3rd October 1948 nine were taken back but these three were not. According to the notice of 6th October 1948, the explanations of all these twelve workmen were unsatisfactory, but still the Company permitted nine of them to join while it refused such permission to these three. This was a discriminatory treatment. This is also borne out by the Company's persistent refusal to take these three workmen at the request of the Commissioner. In the notice, dated 6th October 1948, and also in its written statement the Company has referred to certain previous warnings issued against these workmen. So far as is concerned there is no allegation that he had been warned for misconduct. As regards the only misconduct alleged against him, he did not produce a certificate of fitness during his period of absence. As against Mokhlal, it is stated that he was once absent for four days on leave and on another occasion found him during hours of duty and that at another time he refused to accept wages. As against Kuldip and Mokhlal, therefore, there were practical reasons for discrimination and as regards Mokhlal, even if the Company's allegations against him are true, I cannot hold that these constituted a justification for discrimination. The Company has contended that the workers who absented themselves from duty on Sunday, the 3rd October 1948, were justified in doing so because the Company had mentioned in its notice, dated 1st October 1948, that they would have to work on 3rd October in lieu of the paid holiday on 2nd October 1948. As 2nd October 1948 had been declared a holiday by the award the Company, according to the Union, was not justified in forcing them to work another day in lieu of the paid holiday. It is also stated by the Union that the workers had demanded payment at double rates for the 3rd October 1948 which was refused by the Company. The notice, dated 1st October 1948, does not mention that the workmen would receive double wages on 3rd October 1948. It is submitted by Sri S. K. Asthana that the Company did not actually pay the workmen at double rates on that date. The Company has stated that the Mill running on 3rd October 1948 with the permission of the Factory Inspector. Of the Company did not infringe any provision of the Factories Act by asking the workmen to work on 3rd October 1948, but the use of the expression "in lieu of" in the notice of 1st October 1948 gave an impression to the workmen that in asking them to work on a Sunday in lieu of a paid holiday they were entitled under the award to double wages. I cannot say that such a feeling on the part of the workmen was altogether unjustified in the words of the notice of 1st October 1948. There can be no question that in discharging these three workmen on 6th October 1948 the Company was guilty of unjustified and unfair discrimination against them and such discrimination, in my opinion, is unfair labour

and that the Tribunal did not hold the Company liable for full wages and compensation for the lock-out period on the ground that the Company was not financially strong. According to that award, the Company made no profit last year. These three workmen belonged to the permanent staff. Mokhlal had been in the service of the Company for about two years and Kuldip and Sriram had been in service for about three years. Considering the financial position of the Company and the length of service of these workmen, I think that two months' wages including dearness allowance would be adequate compensation for Mokhlal and three months' wages including dearness allowance for the other two. I therefore award that the Company do pay to Mokhlal two months' wages including dearness allowance and to Kuldip and Sriram three months' wages including dearness allowance as compensation within two months from the date of the publication of this award.

the Union has not pressed the claim for compensation, I need not go into the question whether it will be proper for the Tribunal to award compensation to these workmen. The Union has demanded adequate compensation. In the award there can be no question that they are entitled to compensation. I cannot, however, accept the award of the Union that they should receive compensation for the period of their unemployment from 3rd October 1948 up to the date. The Union has pleaded that the Mill is a very small one and is not capable of bearing any heavy load and from the financial point of view of the Mill one of the workmen should be retained. It was the Union's contention that the

RESOLUTION No. 4162Com.
Calcutta, the 18th August 1949.

Whereas a report has been made by the Registrar of Joint Stock Companies, West Bengal, as a result of an investigation made by him under section 137 of the Indian Companies Act, 1913 (VII of 1913), in respect of the management of the Company styled the Refrigeration and Engineering Company, Limited, of P-39, Prinsep Street, Calcutta;

And whereas in the said report certain complaints have been made against the said Company and a recommendation for the appointment of an Inspector to investigate into and report on the affairs of the said Company has been made;

And whereas the Provincial Government considers it desirable that an Inspector should be appointed under clause (ii) of section 138 of the said Act to investigate into and report on the affairs of the said Company with particular reference to the complaints made in the said report;

Now, therefore, in exercise of the power conferred by clause (ii) of section 138 of the said Act read with Government of India, notification No. 88(3)-TRCL/37, dated the 26th March 1948,

in the locality. Regarding drivers, the basic pay fixed by the Central Pay Commission is Rs. 55 per month. Drivers are apparently Rs. 100 per month though paid on this scale for no revision. Similarities who are paid at the rate of Rs. 1-8 cannot claim for adjustment of pay on scale for these coolies are hardly available for a few months together. New coolies are in place of absent ones. The chart of an employer and not challenged by the shows that the petitioner firms require a coolies at a time. During the last six months firms had in their roll about twenty of whom only worked for a few days. Therefore possible to find out even a work or permanent position and other reliefs with the same mentioned in the Charter.

Issue No. 4.—Duty and spreadover.

possible in the case of such transport is hard and fast the hours of duty and especially when there is no scope of these men on permanent basis.

7.—Minimum pay and dearness allowance.

demanded basic salary of Rs. 90 and allowance of Rs. 35 for drivers and basic Rs. 30 and dearness allowance of Rs. 35.

I have already held that these drivers are working on daily basis and the very system is long prevalent in the law that there is no dissatisfaction of workers. This is the prevailing rate among firms too. I have a shrewd but there is a mischievous hand of a who has fomented this trouble. The demand of pay of drivers is exorbitant—Commission having recommended only month as minimum.

1.—Reinstatement of workers dismissed in October 1948 and proper compensation (Juddin (Messrs. Paul & Co.) and Babu Messrs. Haripada Porel & Sons).

these workers except one appears before me. The case is that they have been dismissed in October 1948. But it is curious that in the demands forwarded to the Labour Commission Government of West Bengal, the case of these workers was not at all included. In the Tribunal, only Babul of Messrs. Porel & Sons has been examined and he refused to work on a request by the employer and as such was discharged. The propriety of the order of discharge, I think it is prudent for a Tribunal to sit over the decision of the management on the admission of the driver, he work and as such in my opinion was discharged. This coolie now is earning more than double the wages he used to earn. I do not think this really really employment again in view of the fact that he is financially more happy. Moreover, I am of opinion that this coolie has been to say something against his wishes. It is seriously gray for his reinstatement and prayer for restoration is rejected.

Is the Charter of Demands presented by the Employees' Congress really for the benefit of the employees or only for designating for their own interests? During the strike, the Congress leaders claim that they are for the benefit of the

fomenting this trouble and it is corroborated by the evidence of Jagamohan Basu, Pleader, who was engaged on behalf of the Transport Mazdoor Congress (employees). He says that he had been engaged on behalf of the employees by one Debendra Nath Paul who is a partner of the rival firm. There is no substance in the demands made. The grievances put forward are in my considered opinion more imaginary than real.

Issue No. 3.—Leave and holidays.

There being no sufficiently strong condition to appoint these men on permanent basis, the question of leave and holidays cannot properly come into adjudication. Nevertheless the employer had been pleased to sanction the following holidays which the drivers and coolies will be entitled to on full pay provided they work continuously for at least one year:—

	Day.
1. Durga Puja	... 1
2. Dowali	... 1
3. Doljatra	... 1
4. Muharrum	... 1
5. Pacha Duwazdaham	... 1
6. Siva Ratri	... 1
7. Swaraswati Puja	... 1

Summary of the award.

No security of service, retiring benefit, duty and spreadover, involuntary unemployment and grades of pay and medical aid are called for in view of the peculiar condition and circumstances of the case.

Leave and holidays.—Seven days granted as embodied in the award.

Minimum pay and dearness allowance.—No revision is called for, the existing wages sufficiently remunerative.

Reinstatement of workers.—No reinstatement of workers.

The above award will come into force with effect from such date as the Government may be pleased to notify.

higher scale of increment, we do not increment as we have done in some clerks in the junior grade shall be "C" grade. The clerks shall get advance according to the Bengal Commerce scheme. The basic salary subordinate staff is not below Rs. 30. The scales for the subordinate staff do not revision. They shall get dearness according to the Bengal Chamber of Commerce as they have been getting at present. It is told that car cleaners and not whole-time employees. The dearness allowance of part-time employees shall be settled by negotiations.

Bonus.

A salary is paid to each employee as bonus. The employers assured us that they have no intention to discontinue bonus. Accordingly left outside adjudication.

Retirement or termination of service.

Employees may have a 8½ per cent. Contributory pension for all the employees (clerical and staffs). This was introduced for the 3 and Company's contribution was in September 1939 to March 1944. It was extended to members of the subordinate staff in 1949. In view of higher range of pension as compared with that in the past in Calcutta in general, the contribution at 8½ per cent. for the entire staff on an average does not give less than 10 per cent. contribution. It is accordingly retained at present. The

employees should, however, be compensated for the period they did not get the benefit of employer's contribution. For such period, a clerk shall get as gratuity one month's basic salary for each completed year of service, subject to a maximum of 15 months' salary and a member of the subordinate staff shall get half month's basic salary for each completed year of service, subject to a maximum of 7½ months' salary. Such gratuity shall be payable with the Provident Fund money under the same conditions as are prescribed for the Provident Fund. The basic salary just prior to the date on which this award comes into force shall be the basis of calculation of this gratuity.

Canteen and tiffin and children's education facilities.

These are *ex gratia* concessions and are hence outside adjudication.

Accommodation allowance.

This has been taken into account in fixing the basic salary. The separate demand for house allowance is rejected.

Medical aid.

This is the duty of the State except where the employees of a firm are susceptible to occupational diseases. There being no such suggestion and there being nothing to show that the employees of this firm do not get the facilities arranged by the State along with others, we reject the Union's demand on the point.

Holidays.

All holidays under the Negotiable Instruments Act shall be observed.

Leave.

The existing leave rules are:—

Clerks and menials—15 days' privilege leave for each completed year of service and 15 days' casual leave in each year.

Grade A assistants—3 weeks' privilege leave and 15 days' casual leave.

There is no provision for sick leave. We retain the existing scheme with the following recommendations:—

- (i) The employers may make some provision for sick leave on certification by the Company's doctor or in his absence by a registered medical practitioner.
- (ii) The privilege leave may be accumulated at least for two years. (Casual leave cannot be accumulated.)

Working hours.

Working hours at present are:—

Monday to Friday—9-30 a.m. to 5 p.m. with 1 hour's recess.

Saturday—9-30 a.m. to 12-30 p.m.

With concurrence on both sides, we do not interfere with the existing system.

Overtime.

Overtime shall be paid for according to the Shops and Establishments Act.

Travelling allowance.

Proper travelling allowance shall be paid for journey performed in course of duty. Demand for travelling allowance on duty is rejected.

Uniforms and umbrellas for menials.

Menials shall be supplied uniforms and umbrellas for outdoor duty.

Service conditions.

(a) Probation and confirmation.

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

(c) Enquiry before punishment: And Dismissal, discharge and retrenchment or other punishments.

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge shall be framed and the person proceeded against shall be furnished with a copy of the charge and the facts on which this is based. The person proceeded against shall submit his explanation. Then a future date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and the punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear his pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will hear the person again and then pass orders. If that authority be other than the head of the concern at Calcutta, an appeal shall lie with him within seven days of the communication of the order.

head of the concern at Calcutta. In a case where the proposed punishment is dismissal the papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The person proceeded against shall have always the right to be defended by any other employee or by a retired employee. These are domestic matters and bringing outside agencies is not helpful. Any person proceeded against shall be defended by a person proceeded against. Any outside person shall be defended against with the sanction of the enquiring officer.

We hope that the rules framed by us will allay apprehensions about abrupt termination of employment and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age.

We decide that a man shall retire on or after 55 years. We do not favour extension of the retiring age thereby blocking the way for younger people to get employment. In exceptional cases where the employer and the employee agree, extensions of services may be granted.

Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different duties. The Federation wants that there should not be such transfer. We feel, however, that transfer is necessary for two purposes: (1) to enable a particular clerk know work of the various departments; and (2) for stock-taking of arrears. One particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The employer will select his own man.

Recruitment.

(i) Other things being equal, preference should be given to relations of employees, retired employees, and relations of employees. Between relations of employees, preference shall go to the more qualified.

(ii) Preference should be given to employees, if qualified.

(iii) In the matter of appointment to different grades of clerk, promotion from lower grades to higher grades should be the rule. Only in exceptional cases, promotion may be made from outside.

Then comes the question of promotion from clerical grade to the Officer's Grade. We feel that there should be no bar to promote a clerical grade to the Officer's Grade or subordinate staff to clerical grade. As selection depends on the management, we cannot fix a certain percentage or a certain number of employees must be promoted to the Officer's Grade. It must depend on suitability according to the standard of the management. We hope to remind that such promotions do change the look of the clerk and are conducive to more efficient work by the clerical staff.

Recognition of the Unions as also Jurisdiction of the Tribunal to order for recognition.

Recognition of the Union is not a condition for service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

40711Lab.—19th August 1949.—Whereas the Government of West Bengal, Commerce, and Industries Department, order No. 135Lab. dated the 17th January 1948, the industrial disputes that had arisen or were apprehended between the employers of mercantile firms and their employees specified in column 1 in the two lists annexed to the said order, and clerical and all subordinate staffs in their firms as represented by some trade unions mentioned against firms in column 2 of the lists aforesaid, and others represented by such other trade unions as might have been permitted by the Tribunal hereafter mentioned to be entertained individually for legitimate reasons, referred for adjudication to a Tribunal constituted by Sri Asutosh Das Gupta, Additional District Judge, as Chairman and Sri Sailesh Chandra Chakravarty and Sri Sudhir Chandra Gupta, Additional District Judges, as mem-

whereas the services of Sri Sudhir Chandra Gupta, one of the members aforesaid, having never been available, the said Chairman and Sri Sailesh Chandra Chakravarty, another member, have given the award in respect of the industrial dispute between Messrs. J. Thomas & Co., Ltd., 8, Mission Row, Calcutta, being item 37 in list No. 1 aforesaid and their employees represented by the Federation of Mercantile Employees' Unions, 102-B, Netaji Road, Calcutta, as shown in the annexure

therefore, in exercise of the powers conferred by sub-section (2) of section 15 read with section (3) of section 19 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor has made the following order and to direct reference to section 17 of the said Act that and be published in the *Calcutta Gazette*.

award made by the said Tribunal shall bind the employers aforesaid and their employees as specified and shall remain in operation for a period of one year with effect from the 17th February 1949.

ANNEXURE.

matter of Reference No. 135Lab., dated the 17th January 1948, of the Government of West Bengal, Labour Department, and in the matter of industrial disputes between the employers and the clerical and the subordinate staffs in the office of Messrs. J. Thomas & Co., Ltd., 8, Mission Row, Calcutta (serial No. 157 in list No. 1 of the order of Reference).

PRESENT:

SRI A. DAS GUPTA, *Chairman*.

SRI S. C. CHAKRAVARTY, *Member*.

Tribunal with Sri A. Das Gupta as Chairman and Sri S. C. Chakravarty and Sri S. C. Dutta as members was constituted by the Government of West Bengal (Labour Department) under sections 7 and 10 of the Industrial Disputes Act, 1947, order No. 135Lab., dated the 17th January 1948, to adjudicate the industrial disputes between mercantile firms in Calcutta and the clerical and subordinate staffs in their office of which one of Messrs. J. Thomas & Co., Ltd., is one.

Sri S. C. Dutta Gupta had been absent, and his services were no longer available, the disputes are the subject-matter of the present award made by the present Chairman and the other members present.

In the earlier cases we decided that we could not follow the different firms separately. To this we still adhere.

Appearance.

For the employers—Mr. P. P. Ginnwallah, Counsel, instructed by Messrs. Orr, Dignam & Co., Solicitors.

For the employees—Mr. B. K. Choudhury, Counsel, instructed by the office-bearers of the Federation of Mercantile Employees' Unions.

AWARD.

Pay and dearness allowance.

The existing grades and scales are as follows:—

Clerical Staff.

		Increments.	
		Minimum.	Maximum.
		Rs.	Rs.
Grade A	Rs. 150—250	5	15
Grade B	Rs. 100—170	4	10
Grade C	Rs. 60—120	2	6
Grade D	Rs. 60—90	2	2
Grade E	Rs. 50—75	1	1

In addition to the above, there are special grades for selected posts.

Subordinate Staff.

SA Drivers	Rs. 50 × 3 to Rs. 80
SB Senior Sircars	Rs. 40 × 2 to Rs. 70
SC Sircars	Rs. 25 × 2 to Rs. 55
SCC Coopers	Rs. 30 × 1 to Rs. 45
SD Senior Peons, Senior Tea Boys, Senior Peons, Khansamas and Duffries	Rs. 30 × 1-8 to Rs. 50
SE All other subordinates	Rs. 25 × 1 to Rs. 40

Unlike Sarkars in many other firms, the Sarkars in this firm belong admittedly to the subordinate staff.

In supersession of the existing grades and scales we lay down the following:—

Clerks.

Special Grade—Starting with Rs. 260 the scales of increment and the ceiling left entirely to the Company.

Grade A—Rs. 160—10—260.

Grade B—Rs. 110—7—180.

Grade C—Rs. 70—4—134.

We abolish D Grade. The rates of increments were hitherto variable at the discretion of the employers. This is likely to bring in discontent among the employees. We accordingly fix the rates of increment within the grades. The increments may, however, be stopped by way of punishment for gross misconduct and inefficiency, for which the detailed procedure for punishment will have to be gone into. By way of fitting the members into the revised grades and scales, we direct a flat increment of Rs. 10 for each clerk. The clerks in Grade D shall be placed in Grade C. If despite such increments, the salary of any clerk does not reconcile with any stage in the revised scale, he shall be placed at the next higher stage.

The existing E Grade is for clerks in the warehouse at Kidderpore. As by the terms of the order of reference, we are to adjudicate the disputes of the clerical and the subordinate staffs in the office, the disputes of the warehouse at Kidderpore are outside the scope of this reference. We are told that clerks are sometimes transferred from the warehouse to the office and vice versa. When clerks are transferred from the warehouse to the office, they will automatically come under this award. We may only recommend that when a clerk is transferred from the office to the warehouse, his service conditions may not be prejudicially affected.

Working hours and overtime.

"The normal working hours for the Company are from 9-30 a.m. to 4-30 p.m. on week days except Saturdays when the hours are from 9 a.m. to 1 p.m. The subordinate staff, who in majority live on the premises, are expected to be on duty during normal office hours and those employed as Watchmen take turns to safeguard Company's premises and stocks of goods."

We retain the system with this modification
there shall be recess for not less than half-an-
at about the middle of the working hours on
days (Monday to Friday).

Leave.

The existing system is to allow one month leave on full pay every year, subject to exigencies and such medical leave as is necessary on recommendation of the Company's doctor. This is upheld with this modification that privilege shall be allowed to accumulate for two years. In view of the fact that one month's privilege is allowed per year, we do not propose to make any provision for casual leave.

Holidays.

Retiring benefits and benefits on termination of service.

"Clerical staff.—The Company maintain a **vident Fund** to which the employee contributes per cent. of his salary and the Company a amount with powers to make a maximum contribution of twice this amount. Since the formation the Company maximum contributions of 1 cent. have been made by the Company to the **vident Fund**.

Pensions have been given in the past at the discretion of the Company in addition to Provident Fund based on pay and years of service

Subordinate staff.—In awarding discretionary pensions the policy has been to base it as follows:

Over 20 years' service employees are entitled to a pension of one-third of their basic salary for last three years. Over 30 years' two-fifths, and over 35 years' half of their basic salary. Subordinates are not permitted to join the Company's Provident Fund.

The new scheme of Provident Fund was introduced on 1st November 1946. Previous to that, was a scheme under which an employer drew Rs. 25 or more subscribed 5 per cent. of his profits and the employers distributed 1 per cent. of profit among the employees. The old scheme was available to members of the clerical and subordinate staffs drawing Rs. 25 or more. The new scheme was not available to the members of the subordinate staff.

The existing scheme of the Provident Fund for the clerks is upheld. We are told that under the new scheme the employers' contribution amounts to 15 per cent. of the salary of each individual. The pension scheme for the clerks which is discretionary is left undisturbed. In superseding the pension scheme for members of the subordinate staff, we direct that a Contributory Provident Fund with contribution on both sides at 6½ per cent. of the salary of each member shall be started on the model of the Government of India Rules. To compensate the members for the past years (1) to the introduction of the Provident Fund, we direct a gratuity to be paid to each member with the Provident Fund money as follows:—

(c) Those who were not eligible to come under the scheme of Provident Fund shall be entitled to a salary for each completed year of service up to a maximum of ten years.

This has been taken into account in fixing the salary. The demand for separate accommodation allowance is rejected.

The concession under this head is considered as ~~settled~~. This is left outside adjudication.

The Company have some arrangements. We do not propose to enlarge the existing arrangements.

I]

Those who were eligible to come under the scheme shall be paid one-third of a month's for each completed year of service, subject to a maximum of five months' salary.

For calculation of gratuity as aforesaid, the just before the date on which the award into force shall be taken as the basis.

In all cases of proposed punishment is discharge or retrenchment, the papers must be laid before the head of the department at Calcutta who will hear the person proceeded against and then pass orders. Transfer means allocation of different work. The Federation wants that there should not be any such transfer. We feel, however, that transfer of tables is necessary for two purposes: (1) to make a particular clerk know work of the various departments; and (2) for stock-taking of arrears of any one particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitments should be done through the Union or the Federation. The employer will select his own men.

(ii) Preference should be given to retrenched employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from the clerical grade to the Officer's Grade. We award that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection must depend on the management, we cannot dictate that a certain percentage or a certain number of clerks must be promoted to the Officer's Grade. This must depend on suitability according to the standard of the management. We, however, like to remind that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

Recognition of the Union is not a condition of service and is not an industrial dispute within the meaning of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

AWARD.

The two firms now amalgamated into one managing agents for numerous companies in railway companies and the question which in some other cases also arises here as to whether this award will legally be binding on the employees of those companies whose managing agents above-mentioned firms had been. In the case of Messrs. Balmer Lawrie & Co., we decide which decision we reaffirmed, that the reference was limited to the firms actually listed in the order of reference. The award will not be binding on other associate firms not listed. On behalf of the employees an argument was advanced that the employees of Messrs. Burn & Co., Ltd. who had office and workshop at Howrah were included in this reference. It was argued that Messrs. Burn & Co. had actually no employee at 12, Mission Row, that it was not the intention of Government to make a reference for the firm which had no employee, and that it should, therefore, be interpreted that there was a clerical mistake in writing the word "Ltd." after the words "Messrs. Burn & Co.". Some of the partners of Messrs. Burn & Co. were the partners of Messrs. Martin & Co. and the work of the latter firm was carried on at 12, Mission Row by the clerks of the other firm. There is nothing to show that this internal arrangement was communicated to Government. Government could naturally infer that there were no employees when there was a firm. A doubt has existed if all the employees were found in Martin & Co. In this reference we found that other firms which had no employees, the firm were managed by the employees of the firm. We cannot infer that Government have thought of listing this firm in the award because, as a matter of fact, there were

12. Mission Row for Burn & Co. There is justification for the inference that the intention of the Government was to award to Messrs. Burn & Co., and there was only a clerical mistake.

If we make an assumption of the nature intended by the employees, the matter is not decided for them from a practical point of view. Order No. 718, dated 31st October 1947, of the Government of West Bengal constituted a Tribunal to settle certain disputes to that forum. This Tribunal is now known as the Engineering Tribunal and its award was published on 3rd July 1948 and is binding for one year from that date. The award of Messrs. Burn & Co., Ltd., and their employees was referred to that Tribunal and an award was made binding on the parties. In the award of Messrs. Tata and Co. under this reference, it is stated that an award made in an adjudication covers all the existing disputes and fresh disputes must be raised after the termination of the award or have an adjudication. This was also the decision in the Imperial Bank case (*Calcutta*, page 1713, dated 30th December 1948). The award thus does not help the employees. It is held that this award shall not touch the employees of Messrs. Burn & Co., Ltd. This award is binding on the employees of Messrs. Martin and Messrs. Burn & Co. now amalgamated as Martin Burn, Ltd., attached to their office at 12 Mission Row, Calcutta.

Nos. 1 and 2.—Pay and dearness allowance.

Clerical staff.

Clerks are already divided in grades and we will fix the grades in the way set out below:—
Grade A—Rs. 260 and up at the discretion of the employers

Grade A—Rs. 160—10—260.

Grade B—Rs. 110—7—180.

Grade C—Rs. 70—4—134.

Grade D—Rs. 70—3—130.

Typographers proper will not go below B Grade. Typists will not go below C Grade. Comptometers will go in C Grade but will initially have the advantage of two increments and will start in B. In other awards we made a lower grade for indoor and outdoor clerks but we give them the advantage of D Grade in consideration of their excess working hours which we shall give afterwards. Probationers shall get the salary of the grade to which he is appointed. Clerks shall get a flat increment of Rs. 10. If his salary of any clerk does not fall in any grade of the time-scale, he shall be placed at that stage.

Clerks shall get dearness allowance according to the Bengal Chamber of Commerce scale.

Subordinate staff.

Existing grade are:—

Motor Car Drivers and other technical staff
—Rs. 55—1—65—E.B.—1—75.

Durwans—Rs. 25—1—35—E.B.—1—45.

Bearers, Chaprasis and other subordinate staff—Rs. 23—1—33—E.B.—1—43.

Basic salary in many cases is below Rs. 30. Total emoluments go much above Rs. 60. In our view Rs. 60 is the fair amount including dearness allowance. These awards have to work much less than unskilled labour in the factories and it has been difficult to award Rs. 60 for them in other awards. Total emoluments are in excess of what we have awarded if we had a free hand in the award. The minimum dearness allowance at time

we made the award for Bengal Chamber of Commerce was Rs. 49. Since then it had been raised to Rs. 52 by the Bengal Chamber of Commerce. The present employers refused to raise the dearness allowance as there was no previous promise to go up to that limit. Afterwards, the Company agreed to raise the dearness allowance to Rs. 52, subject to the award of the Tribunal. The employers asked us to peg the amount at Rs. 49 and gave up their claim for recovery of payment made for two or three months. According to the view followed by us consistently, the claim of the Company is unassailable. We, however, think that the Company should not have raised the amount to Rs. 52 even provisionally if there was a desire to peg it at Rs. 49. An adjudication will fail to achieve its purpose if an advantage given only a little time ago though under protest be withdrawn by the Tribunal. We, therefore, peg the amount of dearness allowance at Rs. 52, subject to the adjustment detailed below. This means that there would be no further increase with rise in the index of living cost but there would be a fall with decrease.

The maxima and minima of the various grades be raised by Rs. 7 and each be given an increment of Rs. 7 with a corresponding reduction of dearness allowance, i.e., the dearness allowance will be Rs. 52 less Rs. 7, i.e., Rs. 45. This sum of Rs. 45 shall carry the incidents of Rs. 52 as dearness allowance and decrease will follow from this amount.

Issue No. 3.—Retiring benefits and benefits on termination of service.

For the clerical staff there is a Provident Fund and a gratuity system for the subordinate staff.

For clerks.—There had been a 5 per cent. contributory fund existing from 1905 which was raised to 6½ per cent. from 1926. We raise the Provident Fund contributions to 10 per cent. from either side. To compensate for the low rate of contribution for the past period we award that the employer shall pay as gratuity 50 per cent. of their total contributions in the past. This sum will be paid in cash when the Provident Fund money will be paid.

For the subordinate staff.—The following are the gratuity rules:—

“Subordinates with not less than fifteen years of unbroken and satisfactory service will be entitled to a gratuity of a half month’s wages for each year of service. Such service will only be considered broken in case of absence without leave but not in the case of privilege, casual or sick leave with permission.

The gratuity will be payable on retirement, or if discharged on grounds other than misconduct. In case of death, the amount due will be paid to the employee’s legal heir.

The amount of gratuity payable shall be calculated on the basis of the last monthly wage received by the employee.”

We award that a 6½ per cent. Contributory Provident Fund be started for them. For the past period they shall get gratuity according to the existing scheme of the Company but the basis of calculation shall be the salary drawn immediately before the enforcement of the award. The money shall be paid when Provident Fund money shall be paid. We confirm the rule that absence without leave shall operate as break in service and leave without pay shall be excluded in computing the period of service.

Issue No. 4.—Bonus.

The only claim was for profit-sharing bonus which was given up. The matter is out of the Tribunal’s hands. The Company pays some bonus and it is not at present intended to be discontinued. The matter is left outside adjudication.

Issue No. 5.—Canteen and tiffin.

We have made provision for fair salary and the grant of these are in the nature of *ex gratia* concessions and are, therefore, left outside adjudication.

Issues Nos. 6 and 7.—Accommodation allowance and children's education facilities.

The claims under these heads are refused.

Issue No. 8.—Medical aid.

There is some arrangement for medical examination and it is not our intention to enlarge on them. According to our scheme these are discretionary with the employer.

Issue No. 9.—Working hours, holidays and overtime.*Working hours.*

Indoor clerks.—10 a.m. to 5 p.m. on Monday to Friday with a break for one half hour for tiffin, and 10 a.m. to 1-30 p.m. on Saturday.

Outdoor clerks and subordinate staff except motor car drivers.—44 hours in the week excluding the recess or tiffin time.

Motor car drivers.—8 hours in the day excluding recess or tiffin time.

Holidays.

All holidays under the Negotiable Instruments Act will be observed as close holidays.

Overtime.

Employees shall be paid overtime as under the Bengal Shops and Establishments Act on hourly basis.

Issue No. 10.—Leave.

At the desire of both parties the clerical staff shall be governed by the existing leave rules. The subordinate staff will be governed by the leave rules as laid down in the Bengal Shops and Establishments Act.

Issue No. 11.—Travelling allowance on duty as also on leave.

The claim for travelling allowance while on leave be refused. Adequate travelling allowance be paid for journeys on duty.

Issue No. 15.—Uniforms and umbrellas for menials.

These are given for official work. It must be made clear that employees cannot claim liveries as of right but it is a privilege of the employer to have the substaff dressed in a particular way. If the employer desires, the subordinate staff must use the dress supplied. Liveries and change of liveries must depend on the discretion of the employer.

Issue No. 12.—Service conditions.*(a) Probation and confirmation.*

It is awarded that the period of probation shall not exceed six months though confirmation may be made earlier if the candidate is found suitable.

(b) Service record.

We award that service records be maintained and that adverse remarks shall be incorporated after giving the person an opportunity of explaining his conduct.

*(c) Enquiry before punishment: And***Issue No. 14.—Dismissal, discharge and retrenchment or other punishments.**

In case of retrenchment, the principle of "last come, first go" shall be applied. Exceptions may be made in case of persons with exceptional abilities.

Now comes the question about dismissal and punishment. The employer has no doubt the right of punishing an employee but we frame the following rules which must precede any punishment:—

The first thing to be done is that a charge be framed and the person proceeded against be furnished with a copy of the charge and facts on which this is based. The person proceeded against shall submit his explanation. The date should be fixed for the matter to be enquired into. If the person proceeded against is found innocent, the matter ends. If, however, he is found guilty, the employee concerned shall be supplied with a copy of the findings and punishment proposed to be imposed. The employee will get an opportunity again to plead about the punishment only at this stage. If the enquiring officer himself is competent to inflict punishment on the person proceeded against, he will hear the pleadings and order what he thinks best. If the enquiring officer is anybody other than the head of the concern at Calcutta, an appeal shall be made by him within seven days of the communication of the order punishing the employee. In case the enquiring officer is not competent to inflict punishment, he will forward the proceedings to the authority competent to punish and that authority will then pass orders. If the authority is other than the head of the concern at Calcutta, an appeal shall be made by him within seven days of the communication of the order punishing the employee. In all cases where proposed punishment is discharge or dismissal, papers must be laid before the head of the concern at Calcutta who will hear the person proceeded against and then pass orders. The clerk proceeded against shall have always the right to be defended by any other employee or by any other representative employee. These are domestic matters and being outside agencies is not helpful to the person proceeded against. Any outsider may detain the person proceeded against with the permission of the enquiring officer.

We hope that the rules framed by us will remove apprehensions about abrupt termination of service and will give to the employee a sense of security which is essential for efficient working.

(d) Retiring age

We decide that a man shall retire on complete 55 years. We do not favour extension of service thereby blocking the way for younger people to employment. In exceptional cases where both employer and the employee agree, extension of services may be granted.

Issue No. 13.—Recruitment Rules: Recruitment, promotion and transfer.

Transfer means allocation of different work. The Federation wants that there should not be any transfer. We feel, however, that transfer of staff is necessary for two purposes: (1) to make a particular clerk know work of the various departments and (2) for stock-taking of arrears of any particular clerk working in a department for a sufficiently long period.

We do not approve of the idea that recruitment should be done through the Union or the Federation. The employer will select his own men.

Recruitment.

(i) Other things being equal, preference shall be given to relations of employees, retired employees. Between relations of employees, appointment shall go to the more qualified.

(ii) Preference should be given to retired employees, if qualified.

(iii) In the matter of appointment to the higher grades of clerk, promotion from lower grade shall be the rule. Only in exceptional cases, recruitment may be made from outside.

Then comes the question of promotion from clerical grade to the Officer's Grade. We decide that there should be no bar to promotion from clerical grade to the Officer's Grade or from subordinate staff to clerical grade. As selection depends on the management, we cannot dictate

I]

in percentage or a certain number of clerks be promoted to the Officer's Grade. This depend on suitability according to the order of the management. We, however, like and that such promotions do change the outlook of the clerk and are conducive to more efficient work by the clerical staff.

No. 17.—Recognition of the Unions as also radiation of the Tribunal to order for recognition.

Recognition of the Union is not a condition of and is not an industrial dispute within the scope of the Industrial Disputes Act. Labour Courts are going to be established soon and it will be the business of that Court to order for recognition of the Unions.

Nos. 27 and 29.—Adjustment of pay and allowance and reinstatement.

Claims under these heads are rejected as these have been pressed.

Use of railway credit notes for payment of freight charges.

TM/559.—17th August 1949.—It has been decided by the Government of India that large sums of money are drawn by all the departments of the Government of India, in Contingent bills, for the payment of railway freight. This involves unnecessary handling of cash, which can be avoided if they use railway credit notes for payment of freight charges to the State-managed railways. They have accordingly issued instructions for the introduction of this system with immediate effect. The printed forms for railway credit notes may be obtained on indent direct from the Manager, Government of India Forms, Calcutta.

Drawing and Disbursing Officers of the Government under the audit of this office are accordingly directed to use railway credit notes for payment of railway freight charges.

Correct head of account under which the railway credit notes should be distinctly marked on each of the credit notes. The blank railway credit notes should be treated as documents and kept under lock and key in the custody of some responsible officers. A stock account should also be maintained for the forms.

AWARD.

The dispute which is the subject-matter of the present adjudication arises out of a

discharge served upon Satyabrata Ganguly, an employee of the Company terminating his service with effect from 1st September 1947. This order was issued on the 30th August 1947. No other orders were assigned in this notice. Satyabrata Ganguly was appointed on 1st June 1945 and was assigned to the Company's Shalimar Tar Deh. According to the Union, Satyabrata Ganguly worked fully, honestly, efficiently and to the full satisfaction of the management and without any complaint whatsoever regarding his work. The case is that one Mr. H. C. Fleming, who was Office-Superintendent of the said Shalimar Department, was always rude, unmannerly to employees and used to abuse the employees in the slightest justification; and that towards the week of August 1947, the said Mr. Fleming used abusive language as was his wont to Satyabrata Ganguly without the slightest justification and the said Satyabrata Ganguly firmly protested against such language. The Union alleges that within three days of the incident, the management charged Satyabrata Ganguly summarily and without assigning any reason for such action and without giving him an opportunity to be heard. The matter was placed in the hands of the Union by Satyabrata Ganguly by a letter dated 6th September 1947, and it was taken up by the Labour Commissioner. In spite of the intervention of the Labour Commissioner, no conciliation was effected on account of the unbending attitude of the Company. It is alleged that the Union represented to the Labour Commissioner that Satyabrata Ganguly did not fulfil his duties adequately and conscientiously and was in the habit of absenting himself from office during a long period without permission; as was warned on several occasions by the mental Supervisor, as also the head of the Union, Mr. Cantlay. The Union further alleges that the charges against Satyabrata Ganguly which were disclosed for the first time to the Labour Commissioner were false and the result of an after-thought; that Satyabrata Ganguly was discharged on account of his alleged misconduct and that his discharge was a fundamental and minimum standard of service and is totally unjustified. The Union prays for reinstatement of Satyabrata Ganguly. The Company in reply disputes the findings of this Tribunal to enter into the question of reinstatement. The charge and to direct reinstatement. The Union alleges that Satyabrata Ganguly was to be a member of the Register of Inspection Notes but that he was not adequately nor conscientiously working and in the habit of absenting himself from office.

during office hours without permission; that warnings were given to him by various officers of the Company; and that when Satyabrata showed no improvement in spite of warnings and again absented himself improperly from his case was reported to Mr. Cantlay on whose recommendation Satyabrata Ganguly was discharged from the Company, there cannot be security of service other than contracted for, this implies satisfactory service on the part of employees. The Company also dispute the action against Mr. Fleming and plead that the case was brought in only after the discharge order was passed.

The following points were raised :—

- (1) Did Mr. Fleming use abusive language to Sri Satyabrata Ganguly and was there any altercation between them?
- (2) Was Sri Satyabrata Ganguly discharged for such altercation?
- (3) Is Sri Satyabrata Ganguly entitled to be reinstated?

The question of jurisdiction was heard as a preliminary point on 13th March 1948. By an order dated 24th March 1948, this Tribunal held that the question of discharge and reinstatement was not outside the jurisdiction of an industrial tribunal constituted under the Industrial Disputes Act, 1947. The question of jurisdiction was fought by the employers up to the Hon'ble Federal Court and the decision of this Tribunal was upheld. I do not enter into the question anew.

I take up all the three points together. Admittedly Satyabrata Ganguly was appointed as a clerk by Messrs. Turner, Morrison & Co., on and from 1st June 1945 on a salary of Rs. 10 per month plus dearness allowance of Rs. 10. On completion of the probationary period of three months, he was confirmed by a letter, dated 5th November 1945. At the time of discharge he was getting Rs. 60 as basic pay plus dearness allowance of 50 per cent. of the basic pay. The Company gave a general increment of Rs. 20 to all the employees and Satyabrata Ganguly got the benefit. He was working in the Accounts Section and in the first half of 1947 he was taken to the Bill Section by Mr. K. K. Lal who was then in charge of the Bill Section. His sworn testimony is that at the time of transfer of Mr. Ganguly to the Bill Section there was a need of more hands and that he took four or five men in course of three or four months. According to Mr. Lal, there was reorganisation of the whole work including the Bill Section in July 1947; and that he took additional hands for this reorganisation. Of the additional hands, all but one were new appointments; and one was Satyabrata Ganguly who was transferred from Accounts Section to the Bill Section. The sworn testimony of Satyabrata Ganguly is that he was taken to the Bill Section when it was reorganised. The suggestion is that his services were required for the reorganisation of the Bill Section. Mr. Lal says on the other hand two reasons for the transfer of Mr. Ganguly to the Bill Section. The first is that Mr. Lal needed more hands and Satyabrata Ganguly was in trouble in Accounts Section. Additional hands may be required mainly for two reasons, namely, when there is pressure of work or when the work is intensified by reorganisation of the general system of working in the department. There is no evidence that additional hands were required for the first reason. Mr. Lal's sworn testimony is that Satyabrata Ganguly was in trouble in the Accounts Section. According to Mr. Fleming, Satyabrata Ganguly was transferred to the Bill Section to give

him a change of atmosphere. Mr. Fleming who was examined as a witness for the Company did not suggest any such trouble. The evidence is that Bimal Krishna Banerji was the immediate superior of Mr. Ganguly in the Accounts Department. He is still in service of the Company. He has not been examined in this case and Mr. Lal admits that he had no personal knowledge of the complaint. It cannot be believed that when such an important work as reorganisation of a department was in contemplation, Mr. Lal was so very philanthropic that he took such a bad workman as Satyabrata Ganguly is alleged to have been. Mr. Lal was to be held entirely responsible for reorganisation of his department. It cannot be believed that he was so very philanthropic as to take him in spite of the complaint from the Accounts Department. The story of the trouble in the Accounts Department in respect of Satyabrata Ganguly's work is a myth. If there had been any complaint from Mr. Fleming, it was because of something other than the work of Satyabrata. Mr. Lal's certificate about Satyabrata Ganguly is that he is intelligent but careless. But he is not in a position to give any specific instance of his carelessness. There is no suggestion in the Company's statements either before the Labour Commissioner or before this Tribunal that Satyabrata Ganguly's work in the Accounts Department were in any way unsatisfactory. If really Satyabrata Ganguly's work in the Accounts Department were so very unsatisfactory that he deserved warnings and eventually an order of discharge, the general increment should have been withheld in his case.

Admittedly Satyabrata Ganguly had to maintain the Inspection Note Books. This was part of the duty in the Bill Section. According to Satyabrata Ganguly, his duty in the Bill Section was to post all bills in the Register and to send the bills to the parties under necessary enclosures and to keep the office-copies in files under proper heads. The Register of Inspection Notes is said to have been entrusted to him some time before August 1947. We are told by Satyabrata Ganguly that another clerk named Sushil Banerji also dealt with the Inspection Register. The Inspection Note Books have been placed before me. A large number of entries are in the handwriting of the Head Clerk of the Bill Section Sri Sudhir Kumar Roy Chowdhury. Mr. Lal who was in charge of the Bill Section up to July 1947 did not suggest that Satyabrata Ganguly was in any way irregular in maintaining the Inspection Note Register. Mr. Lal was transferred from the Bill Section in July 1947 and Mr. Maybert was placed in charge of the Section. Mr. Maybert has not been examined before me. The evidence is that he is no longer in the Company's service. But no attempt appears to have been made to produce him before this Tribunal. According to Mr. Lal, Mr. Fleming was doing special works, was clearing out certain arrears of accounts and had nothing to do with the Bill Section. Although Mr. Fleming says that the Inspection Note Book which Satyabrata Ganguly had to maintain was not up-to-date, he could not say if there were arrears of any particular date in the past. Satyabrata's duty, as Mr. Fleming says, was to make the first entry when inspection note was received and then pass on to the other departments. Mr. Fleming cannot say which of the columns Satyabrata Ganguly was to fill up. I have examined the Inspection Note Registers very carefully. Without knowing the procedure, it is not possible to say definitely whether the Registers were maintained regularly or whether there were any arrears. So far as I can gather from a scrutiny of the Register, I find that when goods were supplied against the Government orders, an inspection note was issued by the Inspection Branch at Kulti after inspection of the goods actually supplied. These were issued after receipt of the goods. These inspection notes were then sent to the consignees for countersignature. After they were

received back bills were submitted. Bills might have been prepared before the inspection notes were received from Kulti or from the consignees after countersignature, but they were not entered in the Register. The amount in the bill had to be entered in the Register. This could not be very definite before the inspection note was received back from the consignee after countersignature. I am not very definite about my analysis of the Inspection Note Register. The fact remains that it is not possible to charge any person with any irregularity in maintaining the Register unless and until we are told definitely how the works were distributed among the different clerks and what the exact procedure of maintaining the Register was. Mr. Fleming cannot say how many clerks deal with the Book. The chalans appear to have been entered in the Inspection Note Register month by month. We were told by Satyabrata Ganguly at the time of argument that pages 6 and 7 towards the end of the Register from January 1947 to July 1947 were in his handwriting. These two pages were for June and July 1947. The chalans must be prepared when goods were sent to customers. If chalans are not promptly entered, there is every chance of mistakes and omissions. Besides, rules of business require all entries in the ordinary course of business to be made promptly, otherwise the Register loses much of its weight. The entries for June appear to have been promptly made. But in July, two chalans of 13th July 1947 were entered after the entries for 17th July and 21st July. In August, the form appears to have been changed. Satyabrata took up the work and entered 5 or 6 chalans. The forms in which the entries were made were changed again. And we were told by Satyabrata Ganguly that the entries for August 1947 are in the handwriting of Sudhir Kumar Roy Chowdhury. The chalans which Satyabrata Ganguly had entered were re-entered in the new form. The form in which Satyabrata made the entries might have been altered some time after 26th August 1947, for against two of the entries made by Satyabrata Ganguly, we find the signature of Mr. Iyer with the date 26th August 1947. There were 15 chalans up to 21st August 1947. Satyabrata Ganguly entered only 6 chalans, the last chalan being dated 12th August 1947. If the form of the Register had been changed before 26th August 1947, Mr. Iyer's dated signature would have appeared against the entries in the altered form against the chalans Nos. 222, 233 and 238. Signatures of Iyer were taken against the new entries for these chalans but these signatures were not dated. If really the chalans were to be entered in the Register as soon as they were prepared, there were some arrears and Satyabrata Ganguly did not deny this. He says that the Register might not have been up-to-date. In the same breath he says that Sushil Babu dealt with the Inspection Register. What he says does not amount to an admission that he was responsible for the arrears. As I have already said no definite finding is possible about the works of any particular clerk unless and until we know definitely how the work was distributed among the different clerks. The Company should have examined the Head Clerk to clarify the point. Satyabrata Ganguly took five days' casual leave from the 4th to 8th August 1947 on the ground of his younger brother's illness. He was to join on the 9th, which was a Saturday. He returned on the 11th and submitted an application praying that his absence on the 9th might be excused. The reasons for overstaying as given in his application was that his brother's condition was very serious. In the margin of this application, there is a remark over the signature of Mr. Cantlay:—

"Give him a warning. I see his Inspection Note Book in a new form is not up-to-date."

The remark is dated 19th August 1947. Satyabrata Ganguly denies to have received any warning.

warning. Mr. Fleming who proves the warning to be for not coming back in time. This is he understood it. There is no suggestion of Mr. Cantlay. If he was shown this signature should have been obtained from Fleming, it was conveyed verbally by Fleming, it was conveyed in the way he understood it. Does "his Inspection Note Satyabrata Ganguly was in arrears or the Inspection Note Book was not up-to-date?" remark does not indicate that the remark made after hearing Satyabrata Ganguly remark was made or if the remark actually communicated to him, he could explained how the arrears stood and who actually responsible for the arrears. Thus might be two possibilities, namely, that Satyabrata Ganguly was in arrears or he was not in arrears but somebody else was in arrears about the Inspection Note Register. The management should have discharged Satyabrata Ganguly for arrears in the Register of Inspection Notes without punishing him. The principle of natural justice does permit a man being condemned without being heard. I shall discuss the principle later.

The next charge which has been levelled against Satyabrata Ganguly in the written statement the Company is that he was in the habit of absenting himself from office during office-hours for a long period without permission. This charge is denied by Satyabrata Ganguly. Mr. K. K. who had been for some time a superior officer of Satyabrata Ganguly in the Bill Section does not make any suggestion that Satyabrata was found absent from his seat during office-hours. Mr. Fleming gives an instance. He claims to remember that Mr. Maybert had one day explained to him that Satyabrata had been missing for a couple of hours. Satyabrata was taken to Mr. Fleming and Mr. Fleming says that Satyabrata admitted that he had been out. Mr. Fleming had advised Mr. Maybert to take Satyabrata to Mr. Cantlay. Satyabrata was examined before the Tribunal on 21st May 1949. Mr. Fleming was examined on 23rd May 1949. Mr. Fleming was in the court-room for the whole of Saturday, that is, 21st May 1949. The case was being conducted by Counsels of the Hon'ble High Court assisted by Solicitors. I am really at a loss to understand why the story was not suggested to Satyabrata in his cross-examination. The Attendance Register has been placed before me. It shows that Satyabrata was late on many occasions. During the communal riot, regular attendance was not insisted upon and there is a practice in the Company to allow a grace of 15 minutes and we get from the letter of one of the Directors of the Company dated 22nd November 1947 addressed to the Honorary Secretary Messrs. Turner, Morrison & Co., Ltd., Employees Union that there is a practice of fining employees for late attendance. There is no suggestion that Satyabrata Ganguly was fined on any day. The charge is that he was habitually late in attendance. Even if he had been late, an offence was condoned and was not made a ground for his dismissal. Absence from office during office-hours does not mean late attendance. Attention was invited to the fact that Satyabrata had overstayed for one day. I have already discussed the circumstances under which he had to overstay. The circumstances stated in the application of Satyabrata Ganguly are corroborated by his sworn testimony and there is no suggestion against this statement. Absence during office-hours does not also mean overstaying for one day and he was simply warned.

discussed all the charges brought by management against Satyabrata Ganguly. I set up the question whether Satyabrata's discharge was justified. It may be that the charges were not disclosed in the which the Company discharged Satyabrata. Immediately after the Union was about the discharge of Satyabrata the Union passed a resolution and forwarded a copy of it to the management demanding investigation into the matter. In the resolution Fleming was charged with extremely and rash behaviour. The management reply to this letter of the Union either the charges against Mr. Fleming or discharge the charges against Satyabrata Ganguly alleged to have been the basis of the order. It was only on the 8th October that the management disclosed the charges against Satyabrata Ganguly in the letter addressed to the Commissioner, in reply to the letter from the latter. The Union forwarded a copy of the letter to the management on 8th September and the management wrote the letter to the Commissioner on 8th October 1947. In the letter although the management disclosed the charges against Satyabrata, the management specifically deny the charges against Mr. Fleming. The relevant paragraph is:—

H. C. Fleming has been in the Company's employ for 29 years and this is the first occasion, so far as we are aware, in which his subordinates have made an official complaint about his behaviour in office. On receipt of this complaint Mr. Fleming was cautioned as to his future conduct and since then no further complaints have been received."

Fleming has been examined before me. I cannot place absolute reliance on his evidence. So far back as on 7th November 1945 Satyacharan Maitra of the Bill Section made a similar complaint to the General Manager Mr. Fleming. The letter has been produced before me. Mr. Campbell Grey appears to have received this letter and to have directed Fleming to see him. The complaint was that Fleming who was to sign the bills after the order of Mr. Campbell Grey for England did not sign any bill from August to October 1945. Fleming took up the work at 6-30 p.m. on 11th November 1945 and directed Sri Satyacharan Maitra to release all the bills within a day. Sri Satyacharan Maitra's reply was that he would do so as far as possible. Thereupon Mr. Fleming is alleged to have abused him in filthy language accusing him why he had not prepared the covering for the bills were signed. Mr. Fleming and Satyacharan Maitra were both in the office and that Satyacharan Maitra made a complaint to Mr. Campbell Grey. It is alleged that he had abused Satyacharan Maitra and that the charge was false. He says that he became heated because Mr. Fleming gave him some instructions which Satyacharan Maitra did not follow. Mr. Campbell Grey was admitted to a subordinate of Mr. Fleming. If what Mr. Fleming says were true, Satyacharan Maitra was guilty firstly of disobedience in so far as he was annoyed at the order of his superior officer; secondly, of making a false charge against his superior. Both these offences were equally serious. If really the complaint of Satyacharan Maitra was false, he should have been and would have been discharged in the interests of the industry. But he was allowed to continue to work there till he was dismissed at the end of 1946. It is alleged that Mr. Fleming kept the letter from Mr. Campbell Grey

file after recording his findings on it. But Satyacharan's sworn testimony is that Mr. Campbell Grey returned it to him and advised him to make verbal complaints in future if occasion arose. This explains how the letter came into the possession of Satyacharan, from whom the Union got it. The circumstances of the case give a lie to the story of Mr. Fleming and corroborate that of Satyacharan. That the complaint of the Union against Mr. Fleming's conduct in relation to Satyabrata Ganguly was first of its kind is far from truth. On the 6th September 1947 about 19 employees complained to the Managing Director against the conduct of Mr. Fleming towards his subordinates in general. If really the complaint was a false one, the Director should have held an enquiry in the interests of discipline and discharged all the employees for bringing a false charge against a superior officer. This was not done. On the other hand, Mr. Fleming says that Mr. Canthay asked him to go soft with the clerks. The clerks of the mercantile firms mainly belong to the lower middle class. Service is their mainstay. They would tolerate insult from superior officers rather than protest and complain against their behaviour and thereby take the risk of losing their services. This is why the majority of the clerks keep silent. Mr. Fleming did not come before me with clean hands. He had not the courage to speak out the truth and to admit the incident which was the basis of complaint of Satyacharan Maitra. The incident has been proved by circumstances and I am definitely of opinion that Mr. Fleming is rather shabby in his behaviour with his subordinates. The charges against Satyabrata Ganguly could not be substantiated except that a thin suspicion is raised that the Inspection Note Register was not properly maintained and was not up-to-date, without any materials to connect Satyabrata Ganguly with the work and arrears. The incident which is alleged by the Union to have been the immediate reason of the discharge order against Satyabrata Ganguly took place towards the end of August 1947. Satyabrata is alleged to have protested when Mr. Fleming abused him. He did not promptly inform the Union about the incident. This might be because he thought it unnecessary to make any further agitation. On the 6th September 1947 he informed the Union about his discharge requesting it to take up the case. In this letter Satyabrata Ganguly did not make any reference to the incident. On that very day the Union held a meeting and passed a resolution against the behaviour of Mr. Fleming towards Satyabrata. A copy of the resolution was forwarded to the management. But the management did not reply to the Union's letter denying the charges against Mr. Fleming. Even in the letter written to the Labour Commissioner by the Director of the Company, the charge against Mr. Fleming was not specifically denied. The relevant portion of the reply has already been quoted. The Director could not contradict the charge against Mr. Fleming in clear and unambiguous terms. He only said that the complaint was first of its kind and that Mr. Fleming had been cautioned as to his future conduct. Absence of any reference to the incident in Satyabrata's letter to the Union dated 6th September 1947 might raise some suspicion about the incident. But this suspicion is removed by the silence of the management when the definite charge against Mr. Fleming was placed before it, and also by the caution given by the Director to Mr. Fleming. Coming back to the evidence of Mr. Lal, if really Mr. Fleming had made any complaint to Mr. Lal about Satyabrata's troubles, there being no suggestion that Satyabrata's work in the Accounts Department was in any way unsatisfactory, the presumption is that Mr. Fleming's complaint was groundless. This proves that Mr. Fleming is in the habit of making such complaints without any reason whatsoever, and that he did not like

Satyabrata. Mr. Lal must have been aware of this. He took Mr. Fleming's complaint at its real value and took Satyabrata in the Bill Section, because, as he himself says, Satyabrata was an intelligent worker. On the evidence and circumstances of the case, I firmly believe that Mr. Fleming is shabby in his dealings with his subordinates and that the incident alleged by Satyabrata did really take place.

The question is what the immediate cause for the discharge of Satyabrata was. In paragraph 4 of the written statement of the Company, the Company stated as follows:—

"The said Ganguly did not fulfil his duties to the satisfaction of the Company, his duties in August 1947 were to maintain the Inspection Notes. But this he did neither adequately nor conscientiously. He was also in the habit of absenting himself from office during office-hours, without permission. Several warnings were given by various officers of the Company before he was discharged on 1st September 1947 with one month's pay in lieu of notice."

I have already observed that the charge that Satyabrata Ganguly was absenting himself from office during office-hours without permission could not be substantiated. I have noticed some irregularities in the Inspection Note Register. Similar irregularities were also found in the entries for May and June 1947 when Satyabrata Ganguly was not in charge of the Register. Chalan Nos. 1143 to 1145 of 27th May 1947 were entered after the chalan 1177 of 31st May 1947. Chalan 1178 of 2nd June 1947 was entered after 1255 to 1257 of 16th June 1947. I need not multiply similar instances of irregularities. Similar irregularities were also found in the entries made by Head Clerk Sri Sudhir Kumar Roy Chowdhury. There is no suggestion that such a deterrent punishment as dismissal was meted out to Sri Sudhir Kumar Roy Chowdhury or any other clerk who were guilty of such irregularities. This is very significant. And this fact raises a presumption of victimisation or vindictiveness of the superior officer. According to the Company, these irregularities were not the immediate cause of Satyabrata Ganguly's discharge. In paragraph 6 of the written statement of the Company, Mr. Fleming is said to have warned Ganguly that unless his works improve he would be reported to Mr. Cantlay. We could understand from Mr. Fleming that the only warning to be given to Ganguly was to be for not coming back in time after expiry of his leave. This is how Mr. Fleming understood the direction of Mr. Cantlay and Mr. Fleming warned Satyabrata accordingly. From paragraph 7 of the written statement of the Company we can understand that Ganguly showed no improvement and as he again improperly absented himself from work, his case was reported to Mr. Cantlay, who went into the case and on his recommendation the said Ganguly was discharged. The immediate cause of his discharge was according to the Company that he absented himself from work in spite of warning. The only instance of overstay after expiry of leave, late attendance and irregularities in maintaining the Inspection Note Register were condoned. Offences condoned cannot be made a ground for dismissal, but when an employee commits a new offence, his past offences which have been condoned may be taken into account in assessing the punishment. But what was the new offence committed by Satyabrata? This was as stated in paragraph 7 of the written statement of the Company as also by Mr. Fleming, that Satyabrata Ganguly was absent for a couple of hours and that was the reason for his discharge. Mr. Cantlay was not present at the time of his discharge.

Mr. Fleming on this point, when better could be available if the management attempted to produce it. On the evidence not but believe the incident alleged by Satyabrata Ganguly. In deciding what the immediate cause of Satyabrata Ganguly's discharge the following facts must be taken into account:

- (1) The discharge order was passed on the incident, as alleged by Satyabrata Ganguly.
- (2) There was no evidence worth the about Satyabrata Ganguly's absence from seat during office-hours without permission superior officers;
- (3) The irregularities which are found entries made by Satyabrata Ganguly Inspection Note Register were also found entries made by other clerks; but infraction on their part was not similarly put to the extent of discharge;
- (4) The Company was silent about the of Satyabrata Ganguly's discharge in the charge order and the reasons were not disclosed till the 8th October 1947 in the Company's letter to the Labour Commissioner;
- (5) The charge against Mr. Fleming vaguely denied in the Company's written statement as also in the Company's letter to the Labour Commissioner;
- (6) There is no evidence that there was investigation by the employer into the reason for the discharge of Satyabrata;
- (7) Satyabrata was not given any opportunity to defend himself against the charges which said to have been the basis of his discharge.

These are some of the points which have been considered, according to Mr. Ludwig Telk coming to a correct decision about the immediate cause of an employee's discharge. The last mentioned point is based on the principle of natural justice. The principle of natural justice, equitable principle, and equity demands a principle to be followed even in domestic tribunals. In the case of Gouri Ambal & Co. vs. P. B. Mill, Ltd., reported in Industrial Court Reports 1949, at page 1, Mr. Justice K. C. Sen set aside an order passed against some employees as proper and illegal on the ground that no opportunity had been given to them to explain the circumstances alleged against them. A similar case was taken by Mr. Justice Sen in the case of Walchand Nagar Industries, Ltd. vs. S. Vithal Jadhav, reported in the same Reports page 8. It might be argued that these decisions were based on the Bombay Industrial Disputes Act, which is different from the Act applicable in this Province. But Mr. Justice Sen decided two cases independently of the Bombay Industrial Relations Act and made no reference in his judgment to this Act. If really the irregularities in the Inspection Note Register had been taken into account in meting out the deterrent punishment of dismissal to Satyabrata, he might have been held responsible for the irregularities, but on a careful consideration of the evidence and circumstances of the case it is definite that the alteration which Satyabrata made with Mr. Fleming when the latter had signed towards the end of August 1947 was the immediate cause of his discharge.

The next question is whether this amount to unfair labour practice. Industrial Tribunal has been clothed by the Industrial Disputes Act, 1947, with unlimited powers to direct and restrain. The question was fought up to the High Court and the matter has been set aside by a recent decision by the Hon'ble Mr. Justice Sen. Although there is nothing in the Industrial Disputes Act which gives jurisdiction to Industrial Tribunal to interfere with the decision of the majority of the employer.

action and directed reinstatement when an employee was found to have been wrongfully dismissed by way of victimisation or as an unfair labour practice. Most of the Judges refused to interfere where the dismissals were found to have been on grounds other than victimisation and unfair labour practice, either on the ground of deficiency or on account of restricted view about jurisdiction of the Industrial Tribunals. I do not propose to discuss whether an Industrial Tribunal is justified to interfere with all cases of wrongful dismissals not connected with victimisation or unfair labour practice. It has become a convention with the Industrial Tribunals to intervene and to direct reinstatement whenever dismissal of a workman is found to have been effected, though not openly, by victimisation or unfair labour practice. The terms "victimisation" and "unfair labour practice" have not been defined in the Industrial Disputes Act. The amended Trade Unions Act enumerates some instances of unfair labour practice. Those are in connection with trade unions. Cases enumerated in the amended Trade Unions Act cannot be an exhaustive list of "unfair labour practices". "Victimisation" has been defined in the Act and given by *Jonab Niwaj Muhammad* in the case of *Mazdoor Hargaoon vs. Arjun Sugar* as whatever injures or illegally affects an employee. In the case of *Coimbatore Cement* the adjudicator *Sri C. R. Krishnam* has defined the term as the taking of some action prejudicial to the workers on some pretexts other than the real reason. In my opinion, any order in bad faith with an ulterior motive, arbitrary or with harshness, is an instance of unfair labour practice. Some of the adjudicators have taken a restricted view of the term "unfair labour practice". They appear to have relied on the definition of the term given in the National Labour Relations Act of the United States of America. Trade Unions are much more developed in America than in India. In comparison with the Trade Unions in industrially advanced countries like America, Trade Unions in India are still in their infancy. They have not yet been able to command the same respect as in America and other industrially advanced countries. Very few of the employers in India are agreeable to recognise the Unions of employees. I do not propose to analyse the position. The fact remains that so far as National Labour Relations Act of United States of America is concerned the Board is clothed with limited powers. It is to decide the disputes about representation of employees in matters of collective bargaining and to prevent unfair labour practice as defined in the Act. The whole policy of the Act is to protect the right of the employees to organise and act collectively. This is clear from section 1 of the Act. Industrial disputes on other points are left to collective negotiation and bargaining. This Act was enacted with the same spirit as the Legislature in India had in enacting the Trade Unions Act. The National Labour Relations Act of the United States of America compared to the Trade Unions Act of India. I may quote in this connection from the *Lectures of Labour* by *Lester* (page 737):—

Employers and employees in this country have generally objected to having the Government to decide what wages should be paid and what hours should be worked in various industries. They have preferred to rely upon voluntary methods and economic strength rather than upon compulsory methods and political strength.

not inclined to put a narrow interpretation on the terms "victimisation" and "unfair labour practice". If there is any victimisation or unfair labour practice, the Board is to

to Union activities, employees of a firm who have no Union will not be entitled to any relief under the Industrial Disputes Act, 1947. The result will be that either the employer would try to engage non-Union men or that a non-Union man will be forced indirectly to join a Union. If Industrial Courts refuse to give relief to an employee unfairly discharged simply because there was no Union activities on his part and hence no victimisation or unfair labour practice on the part of the employer, he will be compelled to join a Union. This will be interfering with his natural rights. The theory of natural rights was at the basis of the industrial legislations which prohibit interference with formation of Unions, collective negotiations and collective bargaining and such other Union activities as have not been expressly prohibited by the Legislature. If the theory of natural rights permits a man to join an Association which is not illegal and against public policy in its purpose why should not the same theory permit him not to join the Association. I am clearly of opinion that disregard of the principle of natural justice and punishment for protest against abuses of a superior officer is an instance of unfair labour practice. It has been amply proved that *Mr. Fleming* was not favourably disposed towards *Satyabrata*. *Mr. Fleming* complained against *Satyabrata* without any reason whatsoever when he was in the Accounts Department and to save him from the trouble *Mr. Lal* took him in the Bill Section. This fact together with the incident of *Mr. Fleming* abusing *Satyabrata* and the latter protesting against the abuses and the final order of dismissal immediately following this incident establishes a clear case of victimisation. I accordingly direct that *Satyabrata* (Ganguly) be reinstated. As it has not been satisfactorily proved before me that *Satyabrata* was not responsible for any of the irregularities in the Inspection Note Register and as I have found the attendance of *Satyabrata* unpunctual on many occasions I am not inclined to give him full salary or dearness allowance for the period he was kept out of employment. Late attendance was not made a ground of the discharge order and for the irregularities *Satyabrata* might or might not have been responsible. Even if he was responsible for some of the irregularities, some other clerks were guilty of similar irregularities. The extreme penalty was not meted out to them. And in the circumstances where protest against *Mr. Fleming's* abuses appears to have been the immediate cause of the extreme penalty awarded to *Satyabrata*, I cannot uphold the penalty. I accordingly direct that he shall be reinstated if he reports himself to the proper authority within 10 days from the date of publication of the award. He shall be paid one-sixth of the salary and dearness allowance which he would have got from the date of the discharge to the date of reinstatement if he had not been discharged. This amount will include the salary and dearness allowance which he had been offered in lieu of notice. Such compensation shall be paid within one month from the date when he reports himself as directed. He shall be considered to have been on duty for one-sixth of this period and for the remaining he shall be considered to have been on leave without pay. Withholding five-sixths of the salary and dearness allowance for the period he was kept out of employment, is sufficient punishment for the irregularities for which he might be responsible along with some other clerks and unpunctual attendance.

AWARD.

Pursuant to the order of reference No. 2491Lab., dated the 27th June 1947, amended by order No. 427Lab., dated the 9th September 1947, of the

Government of West Bengal, Labour Department, I adjudicated upon the industrial disputes of 199 Printing Presses of Calcutta and Howrah and submitted my award to the Government on the 28th April 1948. This award came into force on the 11th May 1948 and was to be operative for a period of one year (order No. 1487Lab. of the 11th May 1948). In this award I laid down grades and scales of pay for different jobs in Printing Presses. I am called upon by the present order of reference (order No. 654Lab. of 16th February 1949) to fit the employees in their respective scales of pay as fixed in the award enforced under Government order No. 1487Lab., dated the 11th May 1948. 26th March 1949 was fixed for written statement of the employees. Time was allowed till 1st April 1949 and it was brought home to the Secretary of the Press Employees' Association that any delay may present legal difficulties in giving any effective award in the present case. Before the case could be taken up for hearing the Navana Printing Works, Limited, moved the Hon'ble High Court for a writ of prohibition on this Tribunal forbidding it to continue proceeding in connection with the present reference. The Hon'ble High Court gave the final judgment on 7th July 1949. An intimation was received from the Government Solicitor on 21st July 1949 about the final judgment of the Hon'ble High Court. Parties were accordingly directed to appear on the 30th July 1949 for hearing of the case. Representatives of both parties were heard. The award which was enforced under order No. 1487Lab., dated the 11th May 1949, of the Government of West Bengal, Labour Department, was in force up to the 10th May 1949. On and from 11th May 1949, the award ceased to have any effect, and the framework about grades and scales of pay for different jobs in Printing Presses lost its legal force. The scope of the present reference is very limited. I was called upon to fix the existing employees into the grades and scales of pay laid down by me in the

previous award. Now that the grades and scales laid down in the previous award are no longer legally enforceable, no useful purpose was served in giving any direction to fit the existing employees into those grades and scales. If employees have any grievance on this point they may seek relief by an application to the Government to set up a new Tribunal. I cannot give them relief without laying down the grades and scales of pay afresh which is not possible under the present order of reference. In the circumstances of the present case, any attempt to give a direction fitting the employees into the grades and scales of pay set up by the previous award is likely to cause unnecessary troubles in the industry. My reference, therefore, is that adjudication of the dispute is not desirable.

A good number of Presses could not be served with notice for reasons not known in spite of the attempt of the Tribunal. With a view to the disputes to the absentees, a notification published in the *Amrita Bazar Patrika* and *Ananda Bazar Patrika*. The workers in a number of Presses appear to have submitted dispute statements, in which they disrepresent themselves by the Press Employees' Association. These no-dispute statements were mostly for the Press owners. The annexed schedule shows at a glance how the Press owners presented before this Tribunal, which Presses could not be served with any notice which Presses the employees denied to have dispute with their respective employer. Printing Press Association claim to represent employees of all the Presses during the process of the present adjudication.

AWARD.

Government of West Bengal, Labour Department, order No. 2778Lab., dated the 8th August 1948, relating to the industrial dispute between the Jute Manufacturing Co., Ltd., Bansberia, Hooghly, and their workmen represented by the Bansberia Jute Mills Labour Union, in connection with the cases of 52 specified general coolies who have been discharged has been referred to the Industrial Tribunal for adjudication. The said coolies were discharged with notice on the 30th April 1949. By Government of West Bengal, Labour and Industries Department, order No. 3443Lab., dated the 15th August 1948, the Industrial Tribunal was constituted for adjudicating upon various disputes in the Jute Industry in West Bengal between the Jute Manufacturing Co., Ltd. and their workmen. The present Company and their workmen are parties to the disputes mentioned in the list attached with the said order. The said order was worded as "proceedings for the discharge of the 52 specified general coolies and payment of compensation". In the proceedings before the Major Judge Industrial Tribunal, the Company had to be stopped from discharging coolies received from the Jute Mills Union, and the order having been made by the Tribunal, the Company had to comply with the order.

had no jurisdiction to deal with the subject of retrenchment or re-instatement or compensation. The High Court of Calcutta disposed of the rule issued by reaching a decision against the employers who eventually took the matter in appeal to the Federal Court of India. The matter happens to be still pending before the Federal Court, and the original dispute relating to issue No. (9) on the subject of retrenchment has not yet been adjudicated upon. The Major Tribunal in respect of the Jute Textile Industry proceeded with the hearing of the other issues and eventually gave an Award on the 31st August 1948. This Award was published in the *Calcutta Gazette* by the Government of West Bengal, Commerce, Labour and Industries Department, order No. 3443Lab., dated the 20th September 1948. It is contended on behalf of the workers that the proceeding in respect of issue No. (9) relating to the subject of retrenchment is still pending and the discharge of the 52 general coolies amounts to an illegal lock-out, and in any case the retrenchment was not justified under the particular circumstances, and the action taken by the Company amounted to an unfair labour practice. It has been contended, on the other hand, by the Company that the proceedings of the three-Judge Tribunal in respect of the Jute Textile Industry concluded on the 20th September 1948, the date of publication of the Award, and it cannot be said that any part of the proceeding is still pending, and that the retrenchment in respect of superfluous and uneconomic units of labour was justified under the particular circumstances, and the Company's action does not amount to either an illegal lock-out or an unfair labour practice. In the light of the statements submitted by the parties and of the discussions relating thereto the following issues have been framed:—

(1) Was the employer entitled to make any retrenchment pending decision of the question before the Federal Court? If so, was the retrenchment (of 52 specified workers) justified?

(2) Are the workers concerned or any of them entitled to re-instatement and/or compensation? If so, on what lines?

2. For the sake of convenience the present reference has been dealt with simultaneously with the reference of another industrial dispute between the same parties as per Government of West Bengal, Labour Department, order No. 2092Lab., dated the 29th April 1949, in connection with the discharge of 125 women workers of the sack-sewing department. The issues framed in the latter case are practically on the same lines as those framed in connection with the present industrial dispute. Apart from the question of justification or otherwise of the retrenchment of the 52 general coolies in the present case, the pre-eminent question as involved in the first part of issue No. (1) is whether the employer was entitled to make any retrenchment pending decision of the matter by the Federal Court as referred to in the preceding paragraph. The question immediately arises as to whether this act of retrenchment amounted to an illegal lock-out under the particular circumstances. Both of these references were argued together by the parties. It is unnecessary to repeat here the reasoning which I have given in my Award in connection with the other reference leading to the conclusion that the discharge of the 52 general coolies on 30th April 1949 by way of retrenchment amounted to an illegal lock-out. For the reasons given in paragraphs 2 and 3 of my Award in connection with the other industrial dispute between the same parties I come to the conclusion that the discharge of the 52 general coolies amounted to a lock-out within the meaning of the existing definition of that expression, and in so far as the lock-out was declared during the pendency of the proceeding in respect of issue No. (9) before the Major Jute Textile Industry Tribunal constituted by the Government of West Bengal, dated the 15th August 1947, it amounted to an illegal lock-out.

3. In view of the above finding I answer the first part of issue No. (1) in the present case in the negative and hold that the employer was not entitled to make any retrenchment pending decision of the question before the Federal Court. This Tribunal is not concerned with the aspect of penal action in respect of the illegal lock-out declared by the employer. The answer to the first part of issue No. (1) being in the negative, the second part of that issue relating to the question of justification of the retrenchment of 52 general coolies does not strictly arise. But in order to enable this Tribunal to determine the lines on which the remedies as contemplated under issue No. (2) are to be provided for, it is necessary to go into the question of justification. The Company has assigned the following broad reasons for justification of the retrenchment ordered:—

(a) In 1945 the complement of general coolies was increased by 60 new hands in order to cope with some special work arising out of the war, such as loading and despatching of rope coils and unloading and transport of coal from the jetties.

(b) After the end of the war these special phases of work ceased.

(c) Certain other miscellaneous work which had been left unattended to during the war, however, remained and the extra staff of coolies was employed for getting through the same. The de-requisitioning of No. 1 mill and the operation of a temporary shift provided further work.

(d) In April 1949 the temporary shift was closed and the additional miscellaneous work had been completed, and the 52 coolies discharged became superfluous as they had no work to do. It may be that some of the reasons enumerated above are more or less substantial and the industry is at the moment faced with certain difficulties necessitating the introduction of a policy of withdrawal of superfluous labour for reasons of economy. While I appreciate some of the broad reasons which have been agitated before this Tribunal on the side of the Company, I am not quite satisfied that the retrenchment of the entire body of 52 general coolies was really justified. It is not improbable that the discharge of a lesser number of workers might serve the purpose up to a legitimate level. For a proper determination of the work-load and of the number of workers legitimately required for carrying out the work available the appointment of a technical assessor would be necessary. The parties, however, did not agree on the subject of appointment of an assessor. The Tribunal had, therefore, to proceed on the basis of general ideas regarding the situation. The real reason for the retrenchment appears to be the alleged necessity of effecting economy in view of the losses in business which are said to have occurred in recent times. It is possible that the industry is at the moment in a somewhat bad way and the elimination of surplus labour was thought of as a necessary measure of economy. But, as I have already indicated, there is no sufficient material before me to show that the retrenchment of all the 52 general coolies concerned in this case was really justified by the circumstances. Under the present conditions of the country's economy every employer should be able to realise that it is his duty to handle the subject of retrenchment with the greatest care and to avoid retrenchment wherever possible. Plausible reasons for retrenchment should not be advanced in a light hearted manner and it should be appreciated by employers that it is highly undesirable to take the sudden step of discharging large bodies of workers but of course, under the prevailing conditions, it is not difficult, if not impossible, to do so.

to look at the question from that point of view that even where an act of retrenchment is legal and justified, payment of compensation should be called for. That is a question which is a subject-matter of issue No. (9) before the Textile Industry Tribunal. In our view the act of retrenchment has amounted to an action, and it was up to the employer to justify the Jute Tribunal's Award in respect of issue No. (9) after the order of prohibition drawn in accordance with the expected decision of the Federal Court. As regards the justification of the retrenchment, while conceding that there are some justifiable reasons, it is difficult to be satisfied that the retrenchment of the entire body of 52 workers was justified. It is not practicable, under the circumstances, to find out the extent to which the retrenchment was justified. Although it was not an answer to the second part of issue No. (1), I have answered it in the way indicated above.

4. I proceed now to a consideration of issue No. (2) as regards the remedies to be provided. The first question is whether there should be an order of re-instatement. In so far as taken by the Company amounts to an "illegal lock-out", an order of re-instatement is the remedy which suggests itself. It should however be considered whether under the particular circumstances indicating some elements of justification of re-instatement should be made with any alternative to the employer. The Tribunal will exercise its discretion in the light of the circumstances and factors considered to apply the remedy which may be considered suitable and proper. It is stated by the Company that all the discharged coolies were on the bulli list and some of them have been as buldies since their discharge. The Tribunal should consider the question of reinstatement of discharged workers to their original positions. That end I shall make an order of re-instatement. At the same time, however, I have decided to provide an alternative by way of compensation. In view of the prevailing elements of dispute in the Jute Textile Industry in the mills under the present Company's management, if the employer decide to re-instate a retrenched worker to his original position within a reasonable time after the publication of the Award, there will be no further order regarding compensation, as I see that the workers have been and will presumably have an opportunity to work as buldies in the meantime. If, however, the employer choose to re-instate a particular retrenched worker within a reasonable time after the publication of the Award, he should be prepared to provide compensation in accordance with the scheme presently going to determine. This compensation in connection with the illegal lock-out is found to be in existence and it is being found in the present individual case in the scales of compensation as may be laid down by the Major Jute Textile Tribunal in the course of the adjudication of the dispute involved in issue No. (9) before the Tribunal. What I am going to lay down applies exclusively to the particular case of the present case, and it does not apply to general principles. I have decided that the compensation payable to a particular retrenched worker should consist of two portions which I call the "unemployment period" and the "gratuity" portion respectively. The "unemployment period" portion of the compensation is that period of unemployment which the worker should be paid. The "gratuity" portion of the compensation involves the payment of more or less in the nature of a gratuity to be given to the worker.

d one or more completed years of service. gratuity portion of the compensation which is to be determined in this case has no connection with the scheme of "gratuity" adopted by the Jute Textile Industry Tribunal in its Award, although I am adopting certain elements of that portion of the Award. I have decided that an amount at the half a month's basic wages (monthly basic wage in this case being Rs. 26) for each completed year of continuous service shall form the "gratuity" portion of the compensation. As regards the "unemployment period" portion of the compensation I have decided to lay down the following

Budli workers and temporary workers shall be entitled to compensation to the extent of two months' emolument, the total monthly emolument in this case being Rs. 58-8 (basic wages Rs. 26 plus allowance Rs. 32-8).

As regards the permanent workers, none of whom appears to have rendered more than three years of continuous service, they shall be given compensation to the extent of four months' total emolument, the total monthly emolument being

I now proceed to work out the principles laid down in the preceding paragraph in the cases of individuals with whom we are concerned. The amounts which may be due to each individual up to the last date of actual service rendered, including wages, allowances, provident fund contributions, and all other amenities; shall be paid to the worker within a reasonable time. This, however, does not form any part of the compensation awarded. As regards the 52 general coolies engaged, I direct in the first instance that they be reinstated to their jobs with their former emolument in each case within two weeks from the date of this Award, and as the Company may have given or intends to give opportunity to them to earn as budli workers in the meantime, I do not give any direction as regards the compensation in such cases of actual service as may occur. I propose, however, to give an alternative for the Company in the particular circumstances of the case. That the Company will have the option of compensation in accordance with the scheme instead of carrying out the re-instatement. As regards the amount of compensation, on the footing that the Company exercises its option in choosing the alternative, I give the following directions. The compensation shall consist of two portions which I call the "gratuity" portion and the "unemployment period" portion as defined in the preceding paragraph. The "gratuity" portion of the compensation in each case shall be calculated on the basis of Rs. 13 for each completed year of service as shown in the 3rd column of the table set forth below. The "unemployment period" portion of the compensation in the cases of budli workers and temporary workers shall be the total emolument, and that in the cases of permanent workers shall be four months' emolument, the total monthly emolument in this case being Rs. 58-8. The total compensation payable in each case shall be found by adding the two portions referred to above. In the following table I give the names of the 52 general coolies concerned in the first column, the class of the respective workers in the second column and the number of years of continuous service in the third column. The amount of compensation which shall be payable under the scheme shall be paid in full one month from the date of this Award. The names of the workers are given in the following table:

S. N. MODAK,

Chairman, Industrial Tribunal.

The 10th August 1949.

By order of the Governor,

D. S. B. MUNHERJEE, Secy.

ORDER.

No. 4335Lab.—30th August 1949.—Whereas under the Government of West Bengal, Labour Department, order No. 2135Lab., dated the 30th April 1949, the industrial dispute between the firm of Messrs. Kanailal Singh and Nandalal Adhikary, 58, Netaji Subhas Road, Calcutta, and their workmen, represented by the Howrah Zilla Loha Karkhana Masdoor Congress, 43, Baikuntha Chatterji Lane, Howrah, was referred for adjudication to Sri P. R. Mukherji, District Judge;

And whereas the said Sri P. R. Mukherji, District Judge, has given the award as shown in the annexure hereto;

Now, therefore, in exercise of the powers conferred by sub-section (2) of section 15 read with sub-section (3) of section 19 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased to make the following order and to direct with reference to section 17 of the said Act that the award be published in the *Calcutta Gazette*.

The award made by the said Sri P. R. Mukherji, District Judge, shall bind the Company and their workmen aforesaid as specified therein and shall remain in force for a period of one year with effect from the date of its publication.

ANNEXURE.

In the matter of an industrial dispute between the firm of Messrs. Kanailal Singh and Nandalal Adhikary, 58, Netaji Subhas Road, Calcutta, and their workmen represented by the Howrah Zilla Loha Karkhana Masdoor Congress, 43, Baikuntha Chatterji Lane, Howrah.

PRESENT: SRI P. R. MUKHERJI, Judge, Industrial Tribunal.

For the firm—Sri Kanai Lal Adhikari.

For the Congress—(1) Sri D. L. San Gupta, Pleader, (2) Sri Bishnudas Pal, Pleader, (3) Sri Kanai Lal Banerji, President, and (4) Sri Balai Chandra Singh, Secretary.

AWARD.

By Government of West Bengal order No. 2135-Lab., dated Calcutta, the 30th April 1949, I was appointed a Tribunal to adjudicate the above dispute under sections 7 and 10 of the Industrial Disputes Act.

The case of the Union is that the dispute originated with the presentation of a charter of demands by the President of the Union to the Management as early as 16th January 1948. Thereupon several negotiations and joint discussions were held and after several unsuccessful attempts, the matter went before Conciliation Officer where the chief discussions were as follows:—

- (1) Increase of minimum basic pay and allowances for unskilled daily-rated workers, semi-skilled workers, piece-rate workers and clerks.
- (2) Leave and festival holidays.
- (3) Bonus for additional work during the war years.

A partial agreement was reached between the parties on some of the points but no agreement could be reached on the following points:—

- (1) Increase in minimum basic pay and dearness allowance for piece-rate workers.
- (2) Increase in minimum basic pay and dearness allowance for clerks who have day to work as supervisors.

Management were not prepared to increase the wages of these workers at all.

The dispute had at last been referred to the Tribunal and on the demand of the Union, the following award was made:—

The case of the employer is that they are able to accept the demands of the workmen far as they are in consonance with the award of the Major Engineering Tribunal, dated 4th April 1948, presided over by Sri S. K. Sen, I.C.J., published in the *Extraordinary Calcutta Gazette* of Monday, the 5th July 1948.

The firm is also agreeable to abide by the award fixed by the award in the case of the East Metal Co., Ltd., who also manufacture iron galvanised buckets, etc., like the employer.

Regarding pay and dearness allowance for clerical staff, the case is that the wages have increased as compared with pre-war scale by 350 per cent. The clerks are getting over and above the wages free board and lodging, and other incidental expenses.

ISSUES.

1. Security of service.
2. Scale of wages for skilled, half-skilled and unskilled workers.
3. Substitution of monthly wages in lieu of daily wages.
4. Minimum monthly wages of a clerk.
5. Bonus.
6. Leave or holidays.
7. Provident Fund.
8. Gratuity.
9. House rent allowance.
10. Medical aid.
11. Free education for the children of workmen.
12. Abolition of contract system—piece-rate.
13. Rest and recreation room.
14. Scale of dearness allowance.
15. Sanitary conditions.
16. Recognition of the Union which is affiliated with B.P.W.T.U.S.
17. Reinstatement of all workers who left the ground of lock-out or insubordination.
18. Whether the lock-out of the Company is legal—if the workers are entitled to wages for the period of lock-out.
19. What should be the conditions of service for the old employees who are employed in the new factory started by the Company at Kumarpura Lane, Lillooah, Howrah.

Issue No. 1.—Security of service.

All employees working for more than 12 months should be made permanent except those who are working on temporary basis.

As regards discharge and dismissal of an employee, the Company should frame charges and allow the particular employee a confidential hearing and an opportunity to defend himself.

Regarding retrenchment, the principle of "last in, first out" should be followed.

Issue No. 2.—Scale of wages for skilled, semi-skilled and unskilled workers.

And

Issue No. 14.—Scale of dearness allowance.

Regarding classification of skilled, semi-skilled and unskilled workers I do not think that it is for the Tribunal to call for—it may be left to the discretion of the employer. The Company has no classification of workers as skilled, semi-skilled and unskilled. The workers here are designated as coolies and machinemen—the latter as tool-die makers, vice-men and smiths. No separate class. A list, however, has been submitted before me showing the classification of workers.

As regards the coolies are concerned, the wages are fixed from Rs. 1-14 to Rs. 1-10 including bonus. Women are paid at the same rate. I fix the minimum wages at Rs. 1-2-6 per day for the coolies.

ness allowance, but this is fully compensated by
the fact that all these clerks are given free board,
tiffin and free lodging as also expenses of washer-
man and barber. I have calculated the rough
costs incurred by the employer in maintaining the
establishment of free boarding and lodging, etc.,
for this staff and I find that the minimum total
expenses per month for these 7 clerks is nearly
Rs. 300. So apparently the money value of this
is easily nearly Rs. 42 for each head. So no
separate dearness allowance is ordered to be paid.
If, however, all these clerks jointly and in a body
choose not to have any more free boarding and
lodging and forego the privileges so long granted,
they may get in lieu thereof dearness allowance of
Rs. 42 per month. The fact should be intimated
in writing to the Company expressing their inten-
tion clearly within a month from the date of pub-
lication of the award, otherwise the existing
arrangements regarding free boarding, etc., are to
continue and no separate sum as dearness allow-
ance can be claimed over and above the basic wages
already fixed.

Issue No. 3.—Substitution of monthly wages in lieu of daily wages.

Prayer rejected as not pressed. Only clerks will
be paid monthly.

Issue No. 5.—Bonus.

Bonus is confined at present only to the clerical
staff and the payment of bonus is not very regular.
The Company has deliberately withheld production
of Income Tax Return and the other relevant
papers to show the amount of profit earned by the
Company. One Income Tax Account Order was
filed before me but that clearly does not concern
this industry. So I hold that the Company has
withheld best evidence and as such I am entitled
to presume under provisions of section 114 of the
Indian Evidence Act that the relevant document,
if produced, would have gone against the interest
of the Company. The Company admittedly is
earning profit, though the amount of profit earned
is deliberately kept in the dark from the gaze of
the outside world. I direct therefore that the
Company should pay bonus to the clerical staff and
also to all employees and the amount of bonus
should be one month's basic pay for each employee,
and payable this year in this month of September.
The order of bonus is made for this year only.

Regarding piece-rate workers, the average basic
monthly pay should be calculated on the basis of
the then earning for the last 12 months, for the pur-
pose of calculating bonus.

Issue No. 6.—Leave or holidays.

Privilege leave.—On this point the Company
willing to allow the same leave and festival lea-
as is awarded by the General Engineering Tribun
Accordingly I direct that the Company shall all
leave as follows:—

Leave on full pay for 14 days including 10 da-
continuous holidays under the Factories Act.
employee will be able to accumulate the leave
2 years. If the 10 days' continuous holidays un-
the Factories Act includes a Sunday or two,
additional day or two's leave must be given w-
pay as compensation.

The Company will allow 8 festival holidays
a year.

The Company should also allow 15 days of
leave on half pay, so long as the Employees' Pro-
Insurance Act does not come into force.

Medical leave for sickness for 15 days on half pay and dearness allowance.—The Company agreed to this before the Labour Commissioner and is also now willing to allow this leave.

All the above kinds of leave will be on the pay and dearness allowance as above.

The clerical staff at present enjoys 45 days' leave on full pay. The clerks should choose if they will prefer the existing arrangement or stick to the provisions made as above. In no case shall clerks be allowed to work on Sundays. If they are to work on Sunday, they must get double the daily wages.

Issue No. 7.—Provident Fund.

And

Issue No. 8.—Gratuity.

Prayers rejected.

Issue No. 9.—House-rent allowance.

The Company gives free quarters to clerical staff. Regarding others I do not see any reason why this should be allowed as most of the workers are local men and work on contract basis.

Issue No. 10.—Medical aid.

The Company is already maintaining a First Aid Box. No further facility can be made.

Issue No. 11.—Free education for the children of the workers.

Prayer rejected.

Issue No. 12.—Abolition of contract system and piece-rate.

In view of the long standing practice which is prevailing in the locality and is being followed with advantage, contract system cannot be dispensed with.

Issue No. 13.—Rest and recreation spent.

Prayer rejected.

Issue No. 15.—Sanitary conditions.

There is a factory inspector and also health officer of the municipality who are the proper authority to look into it. No separate order from the Tribunal is called for.

Issue No. 16.—Recognition of the Union which is affiliated with E.P.W.T.U.S.

The question be left out to be decided by the court.

Issue No. 17.—Reinstatement of all workers who left on the ground of lock-out or insufficient notice.

No case made out. No worker examined. Claim rejected.

Issue No. 18.—Whether the lock-out of the Company was legal? If the workers are entitled to wages for the period of lock-out.

Claim rejected. No case made out at all.

Issue No. 19.—Whether the workers are entitled to service of the company after the lock-out? In the new contract, the workers are to be employed at Kankarpara Lake, ...

Summary of the principal items and Security of service.—(1) All employees for more than three months should be permanent.

(2) Before discharging or dismissing employee, he should be given a copy of levelled against him and given an opportunity to defend his conduct.

(3) Regarding retrenchment, the principle, "first go" should be followed.

Scale of wages.—Minimum basic pay: Rs. 1-8-6 per diem or Rs. 30 for 26 weeks. Females—14 annas per diem.

Dearness allowance.—Rs. 25 per month for males and females.

Jamadders and sais will be paid as usual.

Machine-men.—Minimum wages should be below Rs. 60 (Rs. 35 wages and Rs. 25 allowance).

Piece-rate workers.—To be paid at the rate.

Minimum monthly wages of a clerk.—below Rs. 55.

Flat increment has been given to the body of the award.

No dearness allowance as the clerks boarding, lodging, tiffin, etc. In case in a body forego the privileges of free lodging, etc., they will get dearness allowance of Rs. 42 per mensem.

Leave.—As per directions in the award.

NOTIFICATION.

Subject:—Demand statement for house-rent.

No. T.M./585.—23rd August 1949.—Attention of all Drawing Officers of the Provincial Government under audit of this office is invited to Subsidary Rule 164(I) to the Treasury Rules, Bengal, Volume I, which requires that one copy of the demand statement for house-rent should be attached to the bill from which the recovery is made on this account. It has, however, been observed that this is not done in many cases. As the non-compliance with the requirement of the rule causes much unnecessary work in this office, it is hereby directed that the demand statements should invariably be attached to the relevant pay bills in future. All Treasury Officers and Sub-Treasury Officers in West Bengal should also note the above orders for guidance.

AWARD.

By Government order No. 3075Lab., dated 23rd June 1949, the above industrial dispute was referred to me for adjudication under sections 7 and 10 of the Industrial Disputes Act. According to the Government order, the dispute relates to only one matter, viz., grant of bonus. I issued notice to the parties and the Union filed written statement on 13th July 1949 and the Company on 18th July 1949. The Company later filed certain statements of accounts and the case was heard on 3rd August 1949.

As already stated, the dispute in this case relates only to one matter, viz., the question of bonus. The dispute originated with a demand by the workmen for bonus in December 1948. There were protracted negotiations over this demand and on 11th May 1949 the workmen staged a

stay-in-strike. The matter was then taken up by the Labour Commissioner who initiated conciliation proceedings, which, however, failed. The Company informed the Labour Commissioner on 17th May 1949 that it was not prepared to grant any bonus and a second strike was staged by the workmen on 18th May 1949. Ultimately, however, the strike was called off on the Company's agreeing to a Tribunal being constituted to adjudicate upon the dispute and undertaking to abide by the award of the Tribunal in the matter. The Labour Commissioner accordingly recommended on 27th May 1949 that a Tribunal should be constituted to adjudicate upon the dispute and the dispute was thereupon referred to me. These facts about which there is no dispute are taken from the Labour Commissioner's report under section 12(4) of the Industrial Disputes Act. A copy of the report is enclosed with the Government order of reference.

According to the statement of the Union filed in this case, the Union demanded in December last year one month's total emolument received by each workman as bonus on the ground that the Company had made huge profit through the co-operation of the workmen. The Union has, however, demanded in its written statement two months' total emoluments as bonus instead of one month's total emolument as originally demanded. The Company's case is that though the Company made some profit last year, it had had to face long periods of depression in the past and had to carry on without profit for nearly 20 years. It is alleged that the original capital of the Company which was Rs. 25 lacs had to be written down to Rs. 12½ lacs. The Company urges that the period of depression is rapidly coming near and that as such it is not in a position financially to pay the bonus demanded. The Company further urges that the workmen are well-paid and that as such they cannot demand any bonus as compensation for low rate of earnings.

The present Company was a party to a Tribunal constituted by Government order No. 718Lab., dated 31st October 1947, to adjudicate upon certain disputes between 119 engineering firms and their workmen. This Tribunal which is popularly known as the Engineering Industries Tribunal made an award on 4th June 1948 which was enforced by Government order No. 2161Lab., dated 30th June 1948, and published in the *Calcutta Gazette, Extraordinary*, on 3rd July 1948. This award came into operation from 1st April 1948 and remained in operation for one year from that date. During the period when the present dispute arose this award was in operation. One of the points in issue before this Tribunal was the question of bonus and the demand before the Tribunal was that bonus should be paid for (a) past years, (b) the future and (c) increased production. The Tribunal rejected the claim for bonus for past years and with regard to the claim for bonus for the future it expressed its inability to make any award on the ground that no Company had placed its balance sheet of the year ended on 31st March 1948 before the Tribunal. Accordingly the Tribunal left the question open with the recommendation that the Companies which had been paying a bonus in the past should pay bonus for the year just ended, if circumstances were similar, i.e., if they had earned comparable profits. So far as the present Company is concerned it is admitted that the clerical, the supervisory and the monthly paid staff got a bonus during 1947 and 1948. The bonus of 1948 such staff was Rs. 3 per month equivalent to one month's salary.

The workmen are paid a bonus conditional on regular attendance the rate of Rs. 3 every month they have attended for 21 days the month. This is called attendance or attendance allowance. Messrs. Burn & Co. are the Managing Agents of the Company's main business is construction and repair of ships. It is an engineering concern situated at Howrah. There is another concern at Howrah managed by Managing Agents, viz., Messrs. B. Ltd., which was also a party to the Industries Tribunal. A dispute arose concerning Puja bonus of 1948 was referred to me for adjudication. Government order No. 3627Lab., October 1948, and I made an award on December 1948 which was enforced by order No. 4754Lab., dated 22nd December 1948. The workmen of Messrs. Burn & Co. represented by a Union, the President was Sri Shishnath Banerjee, who is also of the Union representing the Hooghly Docking and Engineering Messrs. Burn and Company had also to its clerical and subordinate staff to pay such bonus to its workmen on the no bonus had ever been paid to them. I held in that case that the Industries Tribunal had left the future bonus open and that the Company not be allowed to make any discrimination matter of bonus but should pay categories of staff including objection was taken in that case that were not entitled to claim bonus. Engineering Industries Tribunal the claim for future bonus and the Tribunal was still in operation when for bonus was made. No such objection taken in this case. But an objection taken that the Company is not bound to pay bonus to its workmen because no bonus was paid to them in the past. That was sufficiently met by what was held, viz., that the Company was not allowed to make any discrimination between one category and another in the matter. It has been argued on behalf of the Company that the Manager of the present Company promised that if Messrs. Burn & Co. paid bonus to its workmen, the present Company would also pay such bonus and it has been found that since that Tribunal allowed bonus of the workmen of Messrs. Burn & Co. this Tribunal could not reject the claim of the workmen of the present Company. There is no evidence as to what the Manager of the present Company told the Union, but the fact is not denied by the Union's representative—that the Manager's promise of bonus for the workmen which was not accepted by the Board. No decision can, however, be based on the Manager's promise, if any, since it was not the final authority.

The Company has produced its balance sheet for the half year ended 30th June 1948. According to the profit and loss account in the balance sheet, the Company has a net profit of more than Rs. 3 lakhs, being Rs. 3,05,910, during the year ended on the 30th June 1948. The Company's reserve and Rs. 1,45,000 has been added to the reserve. A sum of Rs. 46,377 has been set aside at the rate of Rs. 3 per month for the staff. The Company has also produced statements of its earnings from the beginning of the year.

the Company made a net profit of over lac during the half year ended 31st March 1947 and a profit of more than lac during the half year ended 30th June 1947. It appears from the statement that several years before 1939 the Company earned any profit. Since the second half of the Company has been earning very good profits from one lac to two lacs until 1947 the profits rose to higher figures as mentioned. The accounts of the second half 1948 have not yet been finally prepared, but it is told by the representative of the Company that the same amount of profit as in the first half of this year was also expected in the second half. There can be no question, therefore, that the Company made large profits in 1947 and 1948, for which year bonus was claimed by the Union, its net profits being less than Rs. 6 lacs. That the Company has made such profits on account of the co-operation of the workmen cannot be denied and there seems to be no adequate reason why the Company should refuse to pay some extra bonus to the workmen in the shape of profit-sharing for the year 1948. It has been urged on behalf of the Company that it sustained losses in 1947 and had to reduce its capital so that any profits which are now being made should be used for replacing the lost capital and in improvement and replacement of machinery, but as I have already stated, the Company has been consistently making good profits since 1939 and it cannot ask the Tribunal to consider the losses sustained more than 10 years ago. It has next been urged that the Company expects a slump in business in the near future and that there are heavy fluctuations in the business which are met by the Company. But the state of affairs of the Company during the last 10 years indicate any heavy fluctuations and I do not think the Company should take a pessimistic view of the future. The Company has a reserve amounting to more than Rs. 5,000 in reserve for contingencies out of profits for the first half of 1948. The Company will pay bonus out of this reserve for contingencies. The general reserve accumulated to be sufficient for replacement and improvement of machinery and it is expected the Company will be able to build up further reserve in future.

It has next been urged that the workmen are entitled to that as such they cannot claim any bonus by way of compensation for low rates of wages. But the demand of the Union is not on the ground that the Company has made large profits through the co-operation of the workmen and that as such some additional bonus should be paid to the workmen out of profits. So far as the wages of the workmen concerned, the Company only pays a minimum pay and dearness allowance as fixed by the Engineering Industries Tribunal to the workmen, the total being Rs. 55. In addition to this an attendance bonus of Rs. 3 is already stated. It does not appear, however, that the Company pays its workmen at a rate higher than what it was bound to pay according to the award of the Engineering Industries Tribunal. According to the statement filed by the Company, it has got 1,500 workers and the minimum pay of the workers is Rs. 50 and the attendance bonus is Rs. 3. It is not clear from the figures given whether the unskilled workers have been furnished with any bonus or not. As the Company has not paid any bonus to the unskilled workers, it is not clear whether they are entitled to any bonus or not. The Company has not paid any bonus to the unskilled workers, it is not clear whether they are entitled to any bonus or not.

dearness allowance. Though the Union has demanded two months' total emoluments by way of bonus, this claim cannot be entertained since the original demand of the Union according to its own written statement, was for one month's total emolument. The Union cannot be allowed to change its original demand before the Tribunal. The demand of the Union for total emolument cannot be allowed as bonus is always paid in basic wages without any reference to the earnings of the workmen on other heads. So the demand of the Union which can be allowed is for only one month's basic wages as bonus. According to the Company, the total amount which it will have to pay as bonus at the rate of one month's basic wages would be about Rs. 75,000, but according to the Union, the amount will be somewhat less. In any case, the Company has got funds in reserve for contingencies out of which it can pay one month's basic wages as bonus to the workmen. The Company has paid at the same rate to the clerical, supervisory and subordinate staff during the Puja of 1948 and it cannot refuse to pay at that rate to the workmen.

In the Engineering Industries Tribunal a demand was also made for profit-sharing bonus, but so far as this question is concerned the Tribunal held that it was not in a position to lay down a principle of profit-sharing and left the issue open until the Government should come to a decision on this question. Actually the demand of the workmen in this case is not a demand for profit-sharing bonus, because no definite share of the profits has been claimed by the Union. The demand is of course linked with the profits earned by the Company during 1948 but this is inevitable as bonus can only be demanded and paid out of profits. As I have held in the dispute between Messrs. Burn & Co. and its workmen, a demand of this kind is not a demand for profit-sharing bonus and it was open to the Union to make such a demand during the operation of the award of the Engineering Industries Tribunal because such a demand was never rejected by that Tribunal.

I may mention in this connection that it was brought to my notice that the Shalimar and the Garden Reach Ship Building Works which do the same kind of work as this Company have already paid a bonus to its workmen for the Puja of 1948. This was not denied by the Company's representative, but it was urged that these firms did not pay any attendance bonus. The fact that this Company pays an attendance bonus cannot, however, preclude the workmen from claiming an annual bonus in view of the profits made by the Company. Attendance bonus is not linked with profit but is paid for regular attendance. The payment of such bonus cannot affect the demand for an annual bonus like this.

I find accordingly that the workmen of the Company are entitled to claim one month's basic wages as bonus for 1948 in view of the large profits made by the Company in that year. I award that the Company should pay one month's basic wages to those of its permanent workmen who have got attendance bonus, i.e., who attended for 21 days in each month, during 1948. To those permanent workmen who have not been able to attend for 21 days in each month the Company should pay three-fourths of one month's basic wages, provided that they have attended 75 per cent. of the working days during the year 1948. To those who have attended less than 75 per cent. but at least 50 per cent. of the working days the Company should pay half a month's basic wages as bonus. Since the Company keeps half-yearly accounts and calculates its profits every half year, I think that the workmen who have worked for half a year should also be entitled to half the bonus awarded and so I have directed that the permanent workmen who have attended 50 per

cent. of the working days in the year 1948 are entitled to half month's basic wages as bonus. Those whose attendance has been less than 50 per cent. of the working days during 1948 will not be entitled to any bonus. The bonus should be paid within one month from the date of publication of this award.

NOTIFICATIONS.

Subject:—Delay in the sanction of pensions of retired personnel.

No. PB/1922.—29th August 1949.—Complaints have been received regarding inordinate delay in disposing of claims to pension in respect of personnel retired from services both under the Government of West Bengal and under the Government of India. As in these days of abnormally high prices, the delay in getting pension causes acute financial embarrassment to the pensioners, the Government of West Bengal and the Auditor-General of India attach very great importance to the prompt disposal of all applications for pension and desire that due vigilance should be exercised and energetic steps taken by all concerned so that the pensioners may be able to get their pension immediately after retirement.

The initial move in this respect is to be taken by the retiring Government servant himself. Under the rules it is permissible to submit applications for pension six months in advance of the actual or anticipated date of retirement. An officer taking leave preparatory to retirement may submit his application for pension at the time of proceeding on such leave (*vide* Article 907, C.S.R.). In any case, it is essential for the retiring Government servant to satisfy himself that his application is in proper form and all necessary particulars have been furnished including the required certificates.

The head of the department to whom the application is submitted should check the same to see that it is in order or have all defects and omissions rectified with the least possible delay. He should then certify on page three of the form whether the character, conduct and past services of the applicant entitles him to the favourable consideration of Government and record his opinion as to whether the service claimed has been established and should be admitted or not and also whether the service rendered has been thoroughly satisfactory (*vide* Article 470, C.S.R.). If he considers that the service has not been thoroughly satisfactory and that the full pension admissible should not consequently be sanctioned, the head of the department should substantiate his views and suggest what reduction should be made in the amount of pension, and then transmit the papers to this office as expeditiously as possible, instructing the applicant at the same time to contact this office. The applicant for pension should also be directed to send to this office a formal declaration prescribed in Article 925(a) of the Civil Service Regulations for the issue of an anticipatory pension payment order, should he so desire for it, in case any delay is apprehended in the issue of a formal pension payment order.

All heads of departments and all Drawing and Disbursing Officers (both Central and Provincial) under audit of this office are requested to note the above instructions for necessary action.

[Auditor-General's Circular Letter No. 1804-NGE 1/116-49, dated 28th June 1949. Dy. India 1849/PR 1789 and Government of West Bengal, Finance Department, Audit Branch, Circular No. 280F/F/1P/1(13)/47, dated 11th October 1947, Dy. GB 19238/Pen. I 4251 G.O.S.O. Bundle of Pension Section.]

Subject:—Application of the rules of the Government of Provident Fund.

No. Fund I/939.—29th August 1949.—All heads of offices and drawing and disbursement officers are requested to note the following instructions for necessary action.

1939, on the subject indicated above and requested that special care may kindly be taken to report to this office all cases of final payment of Provident Fund money immediately on happening of the contingencies making the money payable.

To save time and trouble to all concerned, requested that each and every application for payment should be supplemented by all requisite information as set forth in para 663 of the B. A. Manual, so that necessary authority for final payment may be issued by this office immediately on the receipt of individual cases without entering into further correspondence for the supply of wanting information necessary for the closure of fund accounts.

To avoid delay in the release of life insurance policies, the following additional information should invariably be furnished in all cases of final payment of fund money:—

Additional information.

"Whether or not there is any life insurance policy pledged with Government as security against the financing of such policies by dividend from the Provident Fund deposits".

Attention is invited to the fact that accumulations in the various Provident Funds cease to interest after the lapse of a period of six months from the retirement or death of the subscriber. It is essential that all the formalities should be complied with, and the payment actually made within this period, so that the subscriber or nominees may not be losers.

Subject:—Charge reports of Treasury Officers.

No. TM/616.—1st September 1949.—It has been observed that the charge reports of Treasury Officers sent to this office do not, in many cases, indicate, in block letters, the full name of the Relieving Officers. For this reason it is always possible to decipher the name of the Relieving Officer as given in the charge report. All Collectors and Treasury Officers in West Bengal are, therefore, requested to see that in future full name of the Relieving Officer is invariably given in block letters below his signature in the charge report.
